Objective:

Experienced QA professional with 3+ years in manual and automation testing for HCM systems. Proficient in Agile methodologies, SIT cycles, and defect tracking tools. Eager to contribute to product quality and ensure seamless user experience through efficient test strategies and collaboration.

Technical Skills

• **Testing Types:** Functional, Regression, Smoke, Sanity, Integration, System, UI/UX Testing

• **Automation & Tools:** Selenium, Test Execution, Ramco Swift Test Tool, API Automation (GraphQL, Postman, REST API Framework), Mobility Testing using Appium

• **Defect Management & Tracking:** JIRA, R-QALM, R-Task

• **Languages/Database:** Basic SQL for Data Validation

• **Agile Methodologies:** Sprint Planning, Story Analysis, Compliance Testing

• **Documentation:** Test Case Creation, Defect Reporting, Compliance Reports

• **Domain Knowledge:** HCM - Onboarding, EI, Payroll, Leave, Expense, ESS/MSS and Statutory Compliance

Professional Experience

Ramco Systems, Chennai

Quality Executive

Project: Ramco PAYCE **Jan 2024 – Present**

- **Actively participated in Agile Scrum ceremonies** including sprint planning, daily stand-ups, sprint reviews, and retrospectives to ensure seamless QA alignment with development.
- **Collaborated with developers and product owners** during story analysis and estimation to ensure test coverage aligned with acceptance criteria.
- **Created detailed and traceable test cases in JIRA** to efficiently identify impacted areas and maintain test coverage.
- **Performed Component-Level Testing** to validate individual component workflows and identify issues early in the QA Scrum cycle, prior to SITA testing.
- Conducted **System Integration Testing (SIT)** to validate end-to-end business workflows across modules, identifying integration issues early in the QA SITA cycle.

- **Participated in feature verification and regression testing** during the PAYCE Payroll rollout to ensure release quality.
- **Supported production deployments** with sanity checks and strategies to prevent defect leakage.

Project: Ramco Virtual Works **Jul 2022 – Dec 2023**

- Created detailed test plans based on customer and internal business requirements.
- Performed manual testing of HCM modules: Onboarding, Employee Induction, Payroll, Leave, Expenses, Time Management and ESS/MSS.
- Performed statutory compliance testing for Hong Kong, Morocco, and Indonesia.
- Developed and stabilized automation scripts to support regression cycles, product upgrades, and deployments in upgraded customer environments.
- Conducted manual testing of statutory amendments and customer-raised issues, later incorporating them into automation scripts for consistent validation.
- Participated in Agile sprints by writing and executing test cases aligned with user stories.
- Used JIRA for defect tracking and collaborated closely with development teams.
- Maintained QA documentation for audits and regression coverage.
- Delivered KT sessions to enhance team knowledge and collaboration

Educational Qualification

- Bachelor of Engineering (B.E) - Mechanical Engineering

  PSR Engineering College, Sivakasi (2017 - 2021) - 87.44%
- Higher Secondary Certificate (HSC)

  Valluvar Vidyalaya Matric Hr. Sec School (2016 - 2017) - 81%
- Secondary School Leaving Certificate (SSLC)

  Grace Hr. Sec School (2014 - 2015) - 90%

Certifications

- Ramco HCM - HRP Foundation Level Certification

Achievements & Core Strengths

- Improved **regression efficiency by 20%** by implementing reusable automation scripts.
- Delivered multiple sprint-based releases with **zero critical defects** post-deployment.
- Received internal recognition for **effective collaboration** and **proactive testing**.
- **Key Strengths**: Analytical Thinking, Attention to Detail, Time Management, Team Collaboration.
