Tamil

Profile

Senior React Developer with over **5 years** of experience in designing and implementing highly-responsive user interfaces using **React, Next.js, Javascript** and related technologies. Proficient in translating designs into high-quality code and enhancing frontend performance. Adept at monitoring & maintaining frontend performance and troubleshooting & debugging the same to bolster overall performance.

Professional Experience

Senior Software Engineer, Onward Technologies, Chennai

JANUARY 2023 — PRESENT

Software Engineer , Piccosoft Software Labs India Pvt Ltd, Chennai

DECEMBER 2020 — NOVEMBER 2022

Front End Developer, TATA Motors, Chennai

AUGUST 2018 — OCTOBER 2020

Profile Summary

- Profession experienced in **Web design** and **Developing User Interface** using Technologies like **HTML5, CSS3, SASS, Javascript, Bootstrap, Material UI, JSON, AJAX, Typescript, RESTfull Service, React, Next Js, Redux, GIT, Webpack, Figma, Zeplin** etc.
- Used React concepts like **JSX** (JavaScript Syntax Extension), **components, Hooks, state, and props, styled components.**
- Experience in using **React JS components, Forms, Events, Keys, Router, plus Redux, Animations.**
- Proficient in developing Single Page Application **(SPA)** using Javascript, React, Next Js.
- Experience in creating Custom Hooks & Reusable ReactComponents Library.
- Used **Redux Thunk** as Middleware, Redux in application to retrieve data from Back-End and to perform RESTFUL services.
- Extensive experexperience with **Javascript** design pattern, structured Javascript development
- Used **Javascript DOM manipulation**, DOM functions, DOM collection, and Javascript event to generate the data result in UI.
- Used **Jest** and **react-testing-library** for mocking functions and writing unit tests.
- Experience in working with third party web services APIs and **Socket.IO,**
- Implemented CSS Box Model and styled web pages using CSS preprocessor SASS and effectively used mixins, functions, custom grid systems, grid-area concepts flexbox for fluid-responsive application and Media Query to make responsive webpages.
- Experience using the HTML5 toolset, adapting to browser compatibility issues, debugging, and troubleshooting existing code.
- Expertise usage of Github and ADO as version control and tracking units.
- Methodologies. (Test driven development, continuous integration, and pair programming, etc.)
- Gained experience in **Microsoft Office, Excell, Powerpoint**

Technical Skills

- Front-End Languages : HTML, CSS, JavaScript, TypeScript
- Front-End Libraries & Frameworks : React, Redux ,NextJs, Middlewares, Bootstrap, SASS, UI/UX
- Tools : Chrome devtools, Figma
- Methodologies : Agile and Scrum Testing
- Framework : Jest-Unit Testing and Integration Testing
- Server : WebSphere HCL E-Commerce Server, SQL Server

Project Details

Caterpiller | Parts.cat.com (PCC) project, USA

JANUARY 2023 — PRESENT

PCC is an American online provider of aftermarket auto parts, including collison parts , Search and buy CAT parts for their equipment and various things can maintain

Technology : ReactJs, Next Js, Typescript, java, HCL-Ecommerce

Website : https://parts.cat.com/en/catcorp

Responsibilities :

- **Staying updated:** As a senior ReactJS developer, I have demonstrated a strong commitment to staying at the forefront of ReactJS developments, libraries, and best practices. I actively research new features and tools to ensure that I am utilizing the most effective technologies in my projects. By staying updated, I continuously enhance my skills and contribute to the success of the development team.
- **Technical Mentorship:** Providing guidance and code reviews to ensure code quality, maintainability, and adherence to coding standards.
- **Problem-solving:** Tackled complex technical challenges that arise during development and finding solutions that align with project goals.
- **Architectural Decisions:** Making informed decisions on the overall architecture of the React application, considering scalability, performance, and maintainability.
- **Mono Repo:** The project utilizes a Mono Repo structure for code organization.
- **Storybook Integration:** Incorporates Storybook for component preview and visualization

Indegene | Research and development and management services

AUGUST 2022 — NOVEMBER 2022

Indegen is the The application is built using Next Js, Material UI Component, AWS Amplify.

Technology : Next Js, Material UI Component, AWS Amplify.

Responsibilities :

- Develop a responsive web design using JavaScript, with libraries and frameworks such as Material UI.
- Ability to create Reusable Components that can be utilized throughout the Application.
- Proficient in utilizing Socket.IO for reliable and speedy real-time bidirectional event-based communication between clients and servers

We Are | Recruitment Platform

FEBRUARY 2021 — PRESENT

We-are is an online recruitment platform, It provide easiest and most efficient way to hire the best talent for Software Product and Technology companies, The application is built using NodeJs, MongoDB, React, HTML, CSS, Javascript

Technology : React, Node.js, MongoDB,

Website : https://www.joinweare.com

Responsibilities :

- Maintained high-level expertise in React state management strategies, including Redux, Redux Persist and redux-saga
- Created Responsive web pages, dynamic page routing, Google sign-in and LinedIn login
- Exclusively used React-Hooks to handle application life-cycle processes
- Improved **SEO ,** code structure created, **Performance optimization**
- Involved in the majority of hot fixes and production releases
- Optimized components for **maximum performance** across a vast array of web-capable **devices and browsers**

Myshaa | Job Portal

MAY 2021 — PRESENT

Myshaa is an online job portal site, It connect with a candidate and interviewer, Company schedule the interview to find best candidates for their job profile, This application is built using Next Js, NodeJs, , Flutter, Golang.

Technology : Next Js, Node.js, MongoDB, Flutter, Golang

Website : http://myshaa.online

Responsibilities :

- Created working functionalities as per the requirement like Drag and Drop using react-beautify plugin, Image Crop and update, Candidate bulk invite, Bulk interview schedule by using **Excell-file-uploader.**
- User Authentication Modules & Role Based Rendering and JWT Token Authorization.
- Domain & Rule Configuration Modules For Automatic Solutions.
- Contributed in debugging, report generation, writing test cases.
- Have worked on **AWS** to **S3 bucket** for storage, and integrate **the server side and client side code.**

SpurtCommerce | E-commerce

JANUARY 2021 — MAY 2021

Spurtcommerce is a free open sourc e-commerce platform for online merchants, The application is built using React JS, Node JS, MongoDB, SASS, Javascript.

Technology : React, Node.js, MongoDB, Sass, Javascript.

Website : http://3.6.249.0/

Responsibilities :

- Experience in **RESTful** web services to integrate between **Server side to Client Side**

- Develop high performance customer facing e-commerce application using ReactJS, Redux-saga, React Hooks, React-Router, JavaScript, HTML5, CSS3, SASS, Bootstrap4.
- Built custom components for UX-Library consisting Accordion, Filters, Dropdown, Carousel, Button, Checkbox, Input,
  Icons.
- Called the **Restful** web services calls for **POST, PUT, DELETE** and **GET** methods.
- Have worked on **AWS for fetch the pictures files from AWS to UI.**

Education

BCA, The Quaide Milleth College for Men, Chennai

JUNE 2014 — MAY 2017

Completed with Aggregate of 78.25%

Miscellaneous

Algorithms & Data Structures, Problem Solving, Deployment, Debugging, Design

Platforms: Windows, Linux - Ubuntu & mac ios

1. **Version Control:** Git, GitHub, GitLab
2. **Web Technologies:** Git ECMAScript6 (ES6), OAuth, JWT, AJAX, JSON, REST API
3. **Build Tools:** Webpack, Babel
4. **Package Managers:** npm, Yarn
5. **Design Collaboration:** Figma, Zeplin
6. **Testing:** Jest, Testing Library
7. **Code Quality:** ESLint, Prettier, Stylelint
8. **Responsive Design:** Media Queries, Responsive Web Design (RWD) principles
9. **Web Performance:** PageSpeed Insights, Lighthouse, Performance Optimization Techniques
10. **Web Accessibility (a11y):** WCAG Guidelines ARIA (Accessible Rich Internet Applications)
11. **Internationalization (i18n) and Localization (l10n):** Managing content for different languages and regions
12. **Security:** Cross-Site Scripting (XSS) prevention, Cross-Site Request Forgery (CSRF) protection
13. **Command Line:**Basic command line usage, Shell scripting
14. **Collaboration Tools:**Jira, Confluence Slack
15. **API Documentation:** Swagger, API Blueprint
16. **Browser Developer Tools:** Chrome Developer Tools, Firefox Developer Tools
17. **Progressive Web Apps (PWAs):** Service Workers
    Web App Manifest
18. **CSS Preprocessors:** Sass, Less
19. **Code Splitting and Lazy Loading:** Dynamic imports, React Lazy and Suspense
20. **Browser Compatibility:** Cross-browser testing, BrowserStack
21. **Build and Deployment to Cloud Services:** AWS Amplify, Netlify, Vercel

Domain Knowledge

CRM | E-Commerce | Education | Framework Development | Healthcare | Logistics | Online Assessment | Recruitment | Social Network | Travel

Leadership And Collaboration

- Led cross-functional teams at Onward Technolgies, ensuring successful project deliveries.
- Mentored junior developers, fostering a collaborative and innovative team culture.

Continuous Learning

Actively pursue continuous learning to stay updated with the latest trends and technologies in the React ecosystem.

- NextJS certified from Udemy
- Typescript certified from Udemy
- React Testing Library from Udemy
- Javascript Algorithm and Datastructure from Udemy

Problem-Solving and Innovation

- Successfully solved a complex scalability issue by implementing an innovative solution, optimizing server-side caching and load balancing.
- Improved the existing process, resulting in reduced response times and increased user satisfaction.

Communication Skils

- Effectively communicate technical concepts to non-technical stakeholders.
- Documented code, provided training, and conducted knowledge-sharing sessions.

Results And Impacts

- Quantified achievements in terms of improvements in application performance, user engagement, or development efficiency.
- Positive impact on business or end-users.
