Library Methodologies: Agile/Scrum

PROFESSIONAL EXPERIENCE

Jan 2023 – Present
Hyderabad, India

ITC Infotech India Limited

US-BANK: NEXUS 2.0 Application

Client: US-Bank

Environment: TypeScript, React, Redux, JavaScript, Next.js

Tools Used: VS Code, Bitbucket, GitLab, Azure

Team Size: 8

Role: Front-End Developer

Project Description: Nexus 2.0 is a modernized version of Nexus 1.0, built using React and TypeScript. It is a manager-level application designed for tracking clients, alerts, daily activities, and accounts.

Roles & **Responsibilities**:

- Designed reusable components using React & TypeScript.
- Integrated CI/CD pipelines using GitLab.
- Developed modules for alerts and activity management.
- Worked on USB Shield component framework.

.

Edward Jones – Financial Advisor Portal

Client: Edward Jones

Environment: React, TypeScript, Redux, Node.js, Micro Frontends

Tools Used: GitLab, Jenkins, SonarQube

Team Size: 7

Role: Front-End Developer

Project Description: A financial advisory platform used by advisors to manage portfolios, client relationships, investment products, compliance tasks, and market insights.

Roles & Responsibilities:

- Developed UI modules for advisor dashboards, investment listings, and compliance workflows.
- Integrated market data APIs and real-time financial indicators.
- Worked with Micro Frontend architecture to ensure modularity and independent deployments.
- Performed end-to-end testing and improved accessibility compliance.

Oct 2021 – Jan 2023

Hyderabad, India

Cognizant Technology Solutions India Pvt. Ltd

RER – Dubai Land Registry Platform

Client: Dubai Land Department

Environment: Next.js, React, TailwindCSS, TypeScript, REST APIs, Node.js

Tools Used: VS Code, Git, Azure DevOps

Team Size: 6

Role: Front-End Developer

Project Description: RER (Real Estate Registry) is a digital transformation platform for Dubai's land registry system. It digitizes land records, enables secure property transfers, manages ownership certificates, and ensures real-time verification.

Roles & Responsibilities:

- Developed fully responsive UI using Next.js and TailwindCSS.
- Integrated secure APIs for land data retrieval, property verification, and transaction histories.
- Improved page performance using Next.js ISR and optimized assets.
- Created dashboards for registry officers, owners, and authorized agencies.
- Handled multi-language UI (English/Arabic) and RTL layouts.

Nov 2018 – Oct 2021

Bangalore, India
