SAMUEL RAMESH

SENIOR TEST ENGINEER

Chennai, IN || Ph. No: 9003699472 || samuelsteyn7@gmail.com || Linked in

SUMMARY

❖ Having over 4 years of experience in the IT industry from Junior Software Test Engineer to Senior Software Test Engineer.

❖ Strongly experienced in **Mobile Application Testing, API Testing, Cross-Browser Testing & Web Application Testing, and Integration Testing**.

❖ Managing projects, including scope definition, planning, execution, and delivery. Also participating in Agile ceremonies such as **sprint planning, daily stand-ups, and retrospectives**.

❖ Having experience in **Database Testing** (Data Validation, Data Verification, and Data Migration).

❖Hands-on experience in **automating end-to-end test cases from scratch using Playwright**, with AI-assisted test generation through **Cursor.ai**.

❖ Good knowledge and work experience in **Agile Methodology**.

❖ Identified and **reported critical defects during the early stages of testing**, saving development time and cost.

TECHNICAL SKILLS

- Testing Tools: Selenium, JIRA
- Programming Languages: Java, SQL
- Other Tools: Git, Postman, Postgres

Methodologies: Agile, Scrum

Test Automation Frameworks: TestNG

Automation With AI: Playwright with Cursor.ai

PROFESSIONAL EXPERIENCE

SENIOR TEST ENGINEER — IDEAS2IT, CHENNAI-TN

PROJECT: **SPICE - MEDTRONICS LABS** — Oct 2022 to Present

- Developed detailed test plans and strategies to cover all critical functionalities and ensure thorough validation before production.
- Conduct the post-release checks in production to ensure that no critical defects were present after deployment.
- Collaborate with cross-functional teams to identify and resolve software defects, resulting in a 99.9% improvement in product quality.
- Implement automated testing frameworks using Selenium and TestNG, reducing manual testing time by 80% and increasing test coverage.
- Conduct Performance and Regression Testing to ensure software stability and reliability across multiple platforms.
- Successfully Implemented and worked with FHIR for health care protocols and ensured compliance with industry standards.

TEST ENGINEER — IDEAS2IT, CHENNAI-TN

PROJECT: **NETSMART - TELEHEALTH** — Aug 2021 to Oct 2022

- Assisted in the creation of test plans and test cases based on software requirements and specifications.
- Performed manual testing of web and mobile applications, identifying and documenting defects in JIRA.
- Supported the automation of repetitive test cases, contributing to a 50% reduction in testing cycle time.
- Engaged in peer reviews of test cases and documentation to ensure quality standards were met.

ACHIEVEMENTS

- Consistently ensured that no critical defects were found in production, contributing to flawless release and enhanced product stability.
- Developed and automated test cases from scratch using **Playwright**, **leveraging AI tools (Cursor.ai)** to accelerate test coverage and improve efficiency
- Simultaneously managed testing for other projects, ensuring timely execution of test plan, defect tracking, and delivery without compromising quality or deadlines.

EDUCATION

Bachelor of Technology in Computer Science — Karunya University
