Robini R

Software Testing Trainee

robinirakesh@gmail.com (91) 8072333628 Passport No: B9600048

SUMMARY

A proactive and technically skilled Testing Trainee with 2 years of experience in both manual and automation testing. Adept in Core Java, Selenium, JUnit, TestNG, and Cucumber, with a proven track record of developing test strategies, automating processes, and resolving defects. Focused on applying the latest testing methodologies to deliver high-quality, reliable software solutions.

SKILLS

Programming language: Core java, Python

Automation Tools: Selenium, Maven

Frameworks: POM, JUnit, TestNG, Cucumber

Database: SQL

Source code management tool : GIT

EXPERIENCE

Indium software **Chennai, Tamil Nadu**
Trainee **Apr 2022 – Jan 2024**

- **2 years of experience** in both manual and automated testing, specializing in ensuring the quality and functionality of software applications.
- **Proficient in Core Java**, utilizing it to develop and maintain automated test scripts that drive testing efficiency and coverage.
- **Skilled in Selenium WebDriver** for automating web application tests, including handling dynamic web elements and integrating with test frameworks for seamless execution.
- **Experienced with JUnit and TestNG** frameworks to structure test cases, manage test execution, and generate detailed test reports for better analysis and decision-making.
- **Knowledgeable in Cucumber**, implementing Behavior-Driven Development (BDD) to create clear and maintainable test scenarios that bridge the gap between technical and non-technical stakeholders.
- **Knowledge in SDLC and STLC.**
- **Proficient in SQL**, executing complex queries to validate data integrity and ensure that backend processes meet functional requirements.
- **Experienced in designing and executing comprehensive test plans** that cover various testing phases including functional, regression, integration, and performance testing.
- **Developed and maintained detailed test cases and scripts** for both manual and automated testing, ensuring thorough coverage of application features and scenarios.
- **Adept at identifying, documenting, and tracking bugs**, working closely with development teams to facilitate timely resolution and verify fixes through retesting.
- **Executed real-time testing scenarios** and data-driven tests to validate application behavior under various conditions and user inputs.
- **Collaborated with cross-functional teams**, including developers, product managers, and business analysts, to understand requirements and ensure alignment with quality assurance goals.
- **Committed to continuous improvement**, actively seeking and implementing new testing tools and methodologies to enhance testing processes and overall software quality.

PROJECTS

Indium software
Software testing Trainee

G|CLUBS **Apr 2022-Apr 2023, Chennai, Tamil Nadu**
Domain: E-Commerce
Description: G|CLUBS is an exclusive, high-end membership program offering a full spectrum of services to elite international members seeking the right ingredients to design a memorable experience or journey.

Tools: **Selenium WebDriver, Maven**
Frameworks: **POM, JUnit,Cucumber**
Database: **SQL**
Test Methodologies: **Automation testing (100%)**

G|FASHION **May 2023-Jan 2024, Chennai, Tamil Nadu**
Domain: E-Commerce
Description G|FASHION is a global luxury brand, featuring bespoke collections by the world's top designers. Each unique collection is an exhibition of G|FASHION's state-of- the-art craftsmanship, applied to innovative sartorial concepts.

Tools: **Selenium WebDriver , Maven, JIRA**
Frameworks: **POM ,TestNG**
Test Methodologies: **Automation testing (75%),Manual testing(25%)**

ROLES AND RESPONSIBILITIES

- Understanding the business requirements, application, and its components.
- Developed and maintained automated test scripts using **Selenium WebDriver**, ensuring robust and scalable test automation.
- Implemented the **Page Object Model (POM)** design pattern to maintain common web element locators and ensure code reusability and maintainability.
- Conducted **cross-browser** testing to validate application functionality across different browsers and environments.
- Executed tests in parallel to optimize testing time and improve efficiency.
- Organized tests using **TestNG for grouping, suite-level execution, and managing parameters**.
- Utilized the **Data Provider** concept in TestNG for parameterized testing.
- Employed **Cucumber** for Behavior-Driven Development (BDD), including writing **feature files**, implementing **step definitions, and using tags** for test management.
- Integrated **hooks** in Cucumber to manage pre- and post-test actions.
- Maintained reusable methods in **base classes** to streamline test code and reduce redundancy.
- Performed manual testing following the **Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC)** methodologies.
- Conducted requirement analysis, **created test plans**, **designed test cases**, and **executed** them manually to ensure product quality.
- Reported and tracked defects using bug-tracking tools, collaborating with developers for issue resolution.
- Validated database integrity and prepared test data using **SQL**.
- Worked with cross-functional teams, including Business Analysts and Database Administrators, to ensure comprehensive and efficient automated and manual testing aligned with project objectives.

EDUCATION

Bachelor of Engineering in Computer science Engineering
St. Joseph's college of engineering and technology • Thanjavur, Tamil Nadu • 2021 • 7.4

Higher Education (HSC)
Best Matric Hr. Sec. School • Sirkazhi, Tamil Nadu • 2017 • 79%

Secondary Education (SSLC)
Best Matric Hr. Sec. School • Sirkazhi, Tamil Nadu • 2015 • 85%
