PROFILE

- Detail-oriented and analytical data analyst with a passion for uncovering insights from data. Proficient in Python, SQL, Excel, and data visualization tools. Eager to apply statistical analysis and data analytics techniques to solve business problems. To work in an organization which provides me good opportunities to enhance my skills and knowledge along with contributing to the growth of the organization.

SKILLS

- **Technical Skills** :- Python, MySQL , PowerBI & Tableau, Html, CSS, Machine Learning, MS Excel
- **Core Skills :-** Data preprocessing, Data Analytic, Data Visualization, Web Scraping, Project Management, Business Intelligence, Industrial Engineering, Deep Learning modal, Natural processing Language.
- **IT Construct :-** Problem Solving , Communication skills, Data structure & Algorithms, OOPS, DBMS.

PROJECT

NEWS ARTICLE NLP

- Objective: Minimize the time taken to write new articles.
- Result: Reduce the time for writing new articles by at least 60%, Machine Learning Success criteria achieve accuracy of at least 95% and news article data analytics work involves analyzing and extracting insights from large volumes of data related to online news articles.

FEDEX

- Objective: To minimize the shipment delay.
- Result: He data set provided is analysed to reduce delivery time delay of product. The data provided is a secondary data, it requires data preprocessing. Performing EDA to get the distribution and relationships. By applying EDA, feature engineering, data visualization the dataset is treated. Shipment Success criteria achieve accuracy of at least 70%-90%.

WORK EXPERIENCE

INTERNSHIP AT INNODATATICS **Jan 2024 – Apr 2024**
Data science /Data Analyst *Bangalore , Karnataka , India*

- Utilized Python, SQL, and Power BI to extract, transform (ETL tools), and analyze complex datasets, generating data-driven insights and visualizations to inform business decisions. Worked on Data Collection, Data Interpretation, Data Integration.
- Developed and deployed predictive models (Deep Learning, NLP) to improve Online news data analytics, Automated Smart Poultry Litter Tracking and Alert System . Collaborated with cross-functional teams to bridge the gap between business needs and data-driven solutions.
- Worked on Power BI Dashboard Development , Power BI DAX etc.

360DigiTMG (Training) **Aug 2023 – Jan 2024**
Data scientist /Analytics *Bangalore , Karnataka , India*

- The work involves using various tools and programming languages such as Python, SQL, and Power BI to extract and manipulate data, create visualizations, and develop predictive models. They also collaborate with cross-functional teams to understand business requirements and provide data-driven recommendations.
- They are skilled in collecting, analyzing, and interpreting large sets of data to identify patterns, trends, and insights that can drive business decisions. I have basic knowledge of machine learning and Predictive Modeling.

EDUCATION

Shri Shankaracharya Technical Campus, Bhilai **2019 - 2023**
B.Tech, Computer Science and Engineering *Chhattisgarh*

- Grade -8.26 CGPA (Hons)

CGBSE - XII **2018 -*2019***

- Grade -52.4%

CGBSE - X **2016- 2017**

- Grade -65.5%

CERTIFICATE

- **Data Science Certificate**: 360DigiTMG / Aug 2023- JAN 2024: Demonstrated hands-on experience with DataScience /Data Analytics practices and tools, including , Python programming and EDA, Machine Learning .
- **Data Visualization using Power BI**: 360DigiTMg , Bangalore **My SQL For Data Analytics** : 360DigiTMg , Bangalore
