EXPERIENCE

Freshworks - Specialist : Product Adoption
August 2022 - Present

- Championed product adoption by independently collaborating with Top-tier CSMs as a dedicated resource for Digital Adoption Platform (DAP) engagements since January 2025
- Led 12 product webinars across all customer segments and initiated internal review to streamline tasks and ensure operational efficiency.
- Actively contributed to the training of all new joiners and served as a dedicated mentor to colleagues.
- Analyse the customer's requirements, offer solutions and advice them on the best practices to enable them to achieve their business objectives.
- Ability to relate corporate needs into product use cases or technical requirements and implement them as per the specific business/functional requirement.
- Predict or identify customer churn risk during an engagement and work with customer success and account managers to mitigate it.
- Identify upsell or cross-sell opportunities during customer interaction and notify respective stakeholders to generate leads.
- Collaborate with several teams, to ensure and enhance the customer experience.
- Monitor product behaviour and report any bugs found to the product team.
- Thoroughly comprehend the ITSM/ITIL standard and utilise that knowledge to configure products.

Tata Consultancy Services
Assistant System Engineer
June 2021 - July 2022

- Coordinated with global departments as the primary contact for the Asia Pacific Region in network device migration. Managed store requirement verification, equipment ordering, invoice validation, and device detail updates for configuration migration.
- Oversaw purchase orders, deliveries, and vendor coordination to ensure timely device distribution worldwide. Prepared weekly, monthly, and quarterly reports on migration status and delivery progress.
