SUMMARY

Proactive Solution Consultant with 4 years of experience in digital transformation through low-code platforms. Delivered scalable solutions and managed a team of developers to optimize enterprise client processes, enhancing workflow efficiency by minimizing operational inefficiencies. Seeking a Solution Engineer role to drive business process automation and operational excellence through comprehensive solutioning and integration skills.

EXPERIENCE

Solution Consultant

Kissflow **May 2023 - June 2025, Chennai**

Kissflow is a low-code no-code SaaS platform

- Guided clients in leveraging Kissflow's low-code platform, resulting in seamless digital transformation and enhanced workflow efficiencies across various industries.
- Collaborated with cross-functional teams to tailor low-code solutions, facilitating business process automation and driving operational excellence for enterprise clients.
- Managed a team of 3 developers, Handling project scoping, Task planning, and on-time delivery.
- Gather business requirements, Analyze processes, Technical documentation, and design scalable solutions.
- Developed scripts using Python, JavaScript, Google Apps Script, and AWS Lambda.

Associate Technical Consultant

Vuram Technologies **July 2021 - April 2023, Chennai**

- Developed and executed technical strategies to address client-specific challenges, enhancing system performance and delivering robust custom solutions using Appian.
- Designed process workflows, built user interfaces, and configured process automation.
- Gathered requirements, and built scalable, user-focused solutions.
- Engineered custom solutions by assessing client requirements and integrating Appian platform capabilities, fostering enhanced process efficiency and client satisfaction.

WordPress Developer

Elan Academy **May 2020 - June 2020, Bangalore**

- Customized and implemented WordPress themes and plugins to enhance the functionality and aesthetics of Elan Academy's web portal, ensuring seamless user experiences and system reliability.
- Engineered responsive designs and crafted custom solutions using WordPress, boosting user engagement and driving organic traffic growth for Elan Academy's web portal.
- Contributed to UI/UX design and back-end development, along with hands-on experience in testing the portal.

PROJECT

IT Asset Management

Kissflow • kissflow.com/appstore/it-asset-management-system • August 2023 - November 2023

- Designed and developed a comprehensive IT Asset Management solution, now listed in the official Kissflow Appstore.
- Built using React.js components for a dynamic and responsive user interface.
- Integrated extensively with internal and external systems to streamline asset tracking, allocation, and lifecycle management.
- Independently managed the entire development lifecycle—from concept to deployment.

EDUCATION

Bachelor of Engineering in Computer Science

KLN College of Engineering , Anna University • Madurai • 2021 • 8.6

- Graduated with First Class Distinction
- Leading various technical and non-technical programs in the campus.

CERTIFICATIONS

Appian Associate developer

Appian Corporation • 2022

- **Certified Appian Associate Developer** – Demonstrated foundational proficiency in Appian low-code platform, including process modeling, interface design, and data management.

Technical Support Fundamentals

Google
- Gained foundational knowledge in IT support, including troubleshooting, customer service, networking, system administration, and security.

Digital Skill: User Experience
Accenture
- Learned core UX principles including user research, prototyping, and usability testing to design user-centered digital experiences.
