## Profile Summary

Technical Consultant with 3.5+ years of experience in **Zuora Billing and Revenue**, **Chargebee** having a proven track record of designing and implementing **complex workflows** to automate business processes. My strong background in **Z-Billing configurations** and end-to-end automation has enabled me to streamline billing and revenue management for my clients. Hands on experience in **Data Migration** tools and techniques. Proficient in **SFDC**, **CPQ**, and **APIs**.

## Work Experience

### Deloitte USI, Chennai

Consultant (2025-04 to Present)

- **Project Leadership:**
  - Serving as the **Billing Team Lead** for a major enterprise project (**EverCommerce**), driving the **end-to-end implementation** of Zuora Billing from scratch for a major project, ensuring alignment with business and technical requirements.
- **Agile Delivery:**
  - Managing a **cross-functional team** of developers, QA, analysts, and architects to drive successful billing delivery using **Agile methodologies**.
- **Billing Configuration:**
  - Configuring core Zuora components including **product catalog**, **rate plans**, **Subscriptions**, **Invoices**, **Payments**, **Credit Memo**, **Debit Memo**, **Custom Fields, Dashboards** and **billing rules** to support subscription models and business logic.
- **CPQ:**
  - Implementing and customizing Zuora **CPQ** for accurate **quoting**, automated deal configurations, and integration with the subscription billing system.
- **Integrations:**
  - Driving system integrations with third-party tools including **Avalara** (taxation), **Stripe** (payments), **NetSuite** (ERP), and **CPR** (Payment Retry), **Microservices**, **Fulfilment Systems**, ensuring data consistency and automation across systems.
- **Template Design:**
  - Configured critical financial documents such as **invoice** templates, **credit memos**, **debit memos**, and **account summary statements** in line with branding and compliance needs.
- **Workflow Automation:**
  - Handling **workflow** configurations, **custom objects**, and **data mapping** for seamless integrations with third-party systems and internal platforms.
- **Documentation:**
  - Creating and maintaining detailed documentation such as Solution Design Documents (**SDD**) and Technical Design Documents (**TDD**) to guide development and testing.
- **Quote-to-Revenue:**
  - Driving the full **Quote-to-Revenue** (Q2R) lifecycle from initial quote creation to revenue recognition and **reporting**, ensuring compliance and automation. **System Health**
- **Stakeholder Engagement:**
  - Leading all **client** and **onshore** team communications, facilitating requirement discussions, **sprint reviews**, UAT sessions and status **updates** to ensure transparency and stakeholder alignment.
- **Data Migration:**
  - Performed Accounts and contacts load, Subscriptions load, **CUBR** and Reconciliation.
- **System Health & Reports:**
  - Monitored Zuora system health and workflow performance, proactively identifying and resolving errors, bottlenecks, and failures to ensure platform stability, data integrity, and seamless billing operations.
  - Created advanced reports and scheduled them in Zuora Reporting, extracting subscription, billing, and payment data to support finance and operations teams with real-time insights.

## Chargebee Technologies, Chennai

Migration Engineer (2024-03 to 2025-02)

- **Data Migration Expertise:**
  - Proficient in utilizing data migration tools and techniques to conduct successful kick-off sessions with clients.
  - Demonstrated expertise in mapping Zuora & other billing objects to Chargebee, ensuring smooth transition and continuity of operations.
  - Handled Chargebee's customer onboarding and data migration from start to finish, ensuring seamless integration and minimal disruption to client operations.
- **Implementation:**
  - Took on additional responsibilities as an Implementation Consultant for Zuora clients, leveraging extensive experience with Zuora to provide specialized support.
  - Configured product catalogs, order management, pricing, and billing structures tailored to clients' business requirements, documented in detailed Business Requirements Documents (BRD).
  - Integrated essential systems, including payment gateways, accounting software, and CRM, to streamline client operations and enhance data synchronization.
  - Oversaw the final go-live phase, coordinating end-to-end migration and ensuring a seamless transition to production with high client satisfaction and minimal disruption.
- **Business Consultant:**
  - Business Consultant specializing in Chargebee Product Catalog (PC 1.0 to 2.0) upgrade, helping customers understand their business needs and recommending Chargebee features that enhance billing and subscription processes during the upgrade from PC 1.0 to 2.0.
- **Client Collaboration:**
  - Collaborated closely with clients to gather data in diverse formats, including CSV files, facilitating efficient and comprehensive data migrations from legacy systems to Chargebee.
  - Effectively communicated with clients throughout the migration process, addressing concerns and ensuring alignment with project goals and timelines.
  - Maintained a complete understanding of the client's business f low, including product catalog and payment methods, to ensure smooth data migration.
- **Statistical Techniques and Automation:**
  - Applied techniques to transform manual processes into automated systems, enhancing the efficiency of data transitions.
- **Product and Technical Collaboration:**
  - Collaborated closely with product and technical teams on Chargebee's migration tool improvements and enhancements, contributing to the development of more effective and user-friendly migration solutions.
- **Project Delivery and Client Satisfaction:**
  - Consistently delivered projects on time, and to the highest standards, resulting in maximum value for clients and their satisfaction with the migration process.
  - Employed strong communication skills, a client-centric approach, and meticulous attention to detail to exceed client expectations and ensure a smooth transition to new systems.

## BMC Software, Pune

Technical Support Analyst (2023-08 to 2024-01)

- **Error Identification and Troubleshooting:**
  - Proficient in identifying and analyzing errors within the Zuora platform and associated workflows.
  - Demonstrated ability to troubleshoot and resolve complex issues efficiently.
- **Root Cause Analysis:**
  - Conducted in-depth root cause analysis for errors, ensuring comprehensive understanding and permanent resolution.
  - Developed and implemented proactive measures to prevent recurring errors.
- **Zuora Customization and Configuration:**
  - Extensive experience in customizing and configuring Zuora to meet specific business

# LOGESWARI SIVARAMAN

needs, reducing the likelihood of errors.
- Implemented custom validation rules and workflows to enhance data accuracy.

- **Data Integrity Assurance:**
  - Implemented robust data validation processes to ensure data integrity and accuracy in the Zuora platform.
  - Regularly audited and cleaned up data to prevent discrepancies and errors.
- **Collaboration:**
  - Collaborated with cross-functional teams to understand business requirements and ensure alignment with Zuora configurations.
- **Process Improvement:**
  - Initiated and led process improvement initiatives to streamline workflows, reducing the occurrence of errors.
  - Implemented automation solutions to enhance efficiency and minimize manual errors.
- **Documentation:**
  - Maintained detailed documentation of error resolution processes, facilitating knowledge transfer and future troubleshooting.
  - Developed training materials for end-users to minimize user-induced errors.
- **Quality Assurance Testing:**
  - Conducted thorough quality assurance testing for Zuora configurations and workflows to identify and rectify potential issues before implementation.
  - Collaborated with QA teams to ensure a robust testing framework.
- **Performance Optimization:**
  - Optimized the performance of Zuora configurations to enhance system efficiency and reduce the risk of errors during peak usage.
- **Training and Mentorship:**
  - Provided training to team members on Zuora platform, workflows, error analysis techniques, Zuora best practices, and efficient troubleshooting methods.
  - Mentored junior team members in helping them understand Zuora platform, Completing certifications, error analysis and resolution processes.

## Zuora India Pvt Ltd, Chennai

Associate Technical Consultant (2021-10 to 2023-04)

- **Workflows:**
  - Expertise in Z-Billing Configurations, **Python**, Liquid Language, APIs, and **SQL**, having a proven track record of developing and implementing efficient workflows, also ensuring seamless integration with notification callouts in Zuora.
  - Strong expertise in **designing** and **implementing** workflows, flows, approval processes, and process builders, all of which contribute to creating a seamless and efficient business operation. In addition, I possess an in-depth knowledge of building **customized reports.**
- **Configurations:**
  - Expertise in various aspects of the Zuora platform, including **Z-Billing**, **Zuora billing configurations**, **Z-Payments**, and **Z-Finance modules**.
  - Extensive experience with **Zuora Callouts** and **Z-Connect Apps**, **Tax Connectors**, and **API Loader**, which have allowed me to optimize billing and invoicing processes.
- **Invoice Template Configuration:**
  - Custom invoice templates using **HTML** and **CSS**, allowing me to design highly customized templates.
  - I have successfully designed and implemented custom invoice templates that drive value, enhance brand recognition, and improve overall business operations.
- **APIs:**
  - Proficiency in both **REST** and **SOAP APIs** and have successfully utilized REST APIs in Workflows.
  - I have worked with the Postman tool to effectively test and debug API requests and implement custom integrations with external systems.

BTech | 3.5+ YOE | Technical Consultant | Zuora Billing and Revenue

**Skill:** Zuora Billing and Revenue, Chargebee Billing, Python, Django, HTML, CSS, AWS, SQL

**GitHub:** https://github.com/logeswari5?tab=repositories | **Trailblazer:** https://trailblazer.me/id/lsivaraman1

**Email:** slogeshwari5@gmail.com **Mobile:** +91 9080613961 **Address:** Chennai, India

- **Data Migration:**
  - Expertise in data migration tools and techniques to conduct **kick-off sessions** with clients.
  - Additionally, I have consistently demonstrated my ability to test data in sandbox environments and load all data into production to ensure successful migration.
  - Effectively collaborated with clients to collect data in various formats, including CSV files, and execute seamless data migrations from legacy systems to Zuora.
  - By leveraging my strong communication skills, **client-centric approach**, and attention to detail, I have been able to deliver projects on time, within budget, and to the highest Possible standards, ensuring that clients achieve maximum value and are fully satisfied with the migration process.
- **CPQ:**
  - Creating **quotes and ramp deals** in Salesforce using **Z-Quotes** and **Z-360** packages.
  - By leveraging the power of CPQ software, I can seamlessly pull together all the important information required for producing accurate quotes, enabling sales representatives to quickly respond to customer requests and drive revenue growth from Zuora and creating Quotes in Salesforce.
  - I have a **proven ability** to effectively configure, customize, and integrate Salesforce and Zuora systems, ensuring seamless operation of business processes.
  - Expertise in **Salesforce.com** and Zuora platform to successfully implement **end-to-end** integrations and API solutions for clients. Design and execute complex integration solutions that seamlessly connect Salesforce.com and Zuora, enabling clients to optimize their **order-to-cash** processes, streamline workflows, and enhance overall business operations.
- **Zuora Revenue:**
  - Working with the **Zuora RevPro** platform, experience in configuring templates to meet client's unique requirements, leveraging my deep understanding of data collection in Zuora Revenue to ensure that templates are optimized for accuracy and efficiency.
  - Experience in **migrating configurations** from one RevPro tenant to another creating **Patch files** and loading them into SQL developer. I have worked on the backend, collaborating closely with cross-functional teams to **troubleshoot issues.**
- **Salesforce:**
  - Salesforce development using **Lightning Web** and **AURA Component**, **Apex classes**, and **triggers**, Salesforce configuration, creating profiles, roles, email templates, email services, validation rules, workflows, flows, approval processes, and process builder.
  - Designing functional and system architecture levels that are tailored to meet specific business requirements.
  - Preparing **comprehensive Solution Design** and **Functional Design documents**.

## Testpress, Chennai

Software Developer Intern (2021-03 to 2021-06)

- Expertise in **Python** and **Django** to develop a range of web applications that are robust, scalable, and user-friendly. Deep understanding of Django's **framework** to build high-performance web applications that are optimized for speed, security, and reliability.
- Full stack web/mobile application development in **iOS**, **Android**, **Backbone JS**, **HTML**, and other cutting-edge technologies to design and develop robust, scalable, and user-friendly web and mobile applications that are optimized for high performance and user experience.
- Implementing web and mobile interfaces using industry-standard technologies such as **XHTML**, **CSS**, and **JavaScript**.
- I have demonstrated my ability to execute **full lifecycle software development**, from ideation and planning to implementation, testing, and deployment.
