PANKAJ JAIN

Vice President | Bangalore | +91 8860087644 | jobsforpankajjain@gmail.com | LinkedIn Profile

---

PROFESSIONAL SUMMARY

Goal-oriented technology leader with 20+ years of experience specialized in **Generative AI & Agentic AI**. Proven track record of delivering high-impact AI solutions in the financial sector, including LLM-based frameworks. Expert in driving growth through NLP, RAG, and predictive modelling.

TECHNICAL SKILLS

- **AI/ML:** Generative AI, Agentic AI, LLMs, Retrieval-Augmented Generation (RAG), Prompt Engineering.
- **Frameworks:** Google Agent Development Kit, CrewAI, Scikit-learn, TensorFlow, Natural Language Processing.
- **Tools & Languages:** Python, SQL, Git, LangChain, LangGraph, REST Microservices.

PROFESSIONAL EXPERIENCE

WELLS FARGO | Vice President (Lead Software Engineer) | July 2021 – Present

- **GenAI Commercial Loan Prediction:** Developed Google ADK Vertex-AI based GCP commercial real estate loan prediction engine reporting for Prime Clients.
    - *Benefit:* Enabled risk analytics and loan calculation using property, demographics and market information.
- **Agentic Intelligent Feedback & Action system:** Developed LangGraph based Intelligence feedback system for Prime Clients.
    - *Benefit:* Enabled generating the tickets information automatically based on clients feedback e.g. new feature development, appreciation & complaints.
- **Agentic RAG Risk Prediction:** Developed Crew AI based Agentic risk prediction engine for delivering reports to Prime Clients.
    - *Benefit:* Enabled accessing consolidated risk using anomaly, predictive classification & predictive analytics models for support & clients.
- **GenAI ESG Benchmarking:** Engineered LangChain RAG based model on GCP using OpenAI to analyze company PDFs.
    - *Benefit:* Enabled investors to compare ESG contributions, increasing stakes in eco-friendly entities.
- **GenAI Reporting Solutions:** Developed RAG-based reporting for Prime Clients.
    - *Benefit:* Streamlined complex reconciliation and analytics, reducing manual reporting overhead.
- **Equities Automation:** Leading CI/CD for futures/options workflows to accelerate delivery speed.

IHS MARKIT | Senior Software Engineer / Assistant Vice President | June 2015 – July 2021

- **Predictive Wealth Projector:** Built a calculation engine using linear regression for accurate wealth forecasting.
- **NLP Real-Time Feed:** Delivered a news feed server application using NLP to enhance client engagement.
- **Statistical Portfolio Engine:** Developed a Python-based engine to evaluate fund returns/risks against benchmarks.
- **OTC Confirmation Engine:** Enhanced Markit matching for swaps and options using Python and BDD.

BANK OF AMERICA CONTINUUM SOLUTIONS | Lead Analyst | Aug 2013 – June 2015

- **Integrated Credit Platform:** Developed a unified decisioning platform (ICDP) to reduce card application turnaround.
- **Risk Validation:** Enhanced eligibility workflows (CROL) using multi-parameter scoring to improve repayment.

NETCRACKER | Senior Analyst Systems | Jan 2011 – Aug 2013

- **Real-Time Data Processing:** Architected high-throughput online charging systems for telecom data (Tiscali UK).
- **Billing Post-Processor:** Designed automated engines to improve data integrity for large-scale billing datasets.

ROYAL BANK OF SCOTLAND | Software Designer | Dec 2006 – Jan 2011

- **Pricing Simulation:** Optimized trading models, reducing simulation time by 50% for faster market reaction.
- **Options Return Simulation:** Implemented models for strike price/maturity to decrease trader decision latency.

VARIOUS ORGANIZATIONS | Senior Design Engineer | July 2002 – Dec 2006

- **Data Systems:** Engineered database-driven healthcare and telecom billing systems to enhance data reliability.

EDUCATION

- **Post Graduate Diploma, Machine Learning & Artificial Intelligence | 2020 – 2021**

  International Institute of Information Technology, Bangalore

- **Master of Business Administration, Information Technology | 1999 – 2001**

  Indian Institute of Technology, Roorkee

- **Bachelor of Technology, Computer Science & Engineering | 1995 – 1999**

  Indian Institute of Technology, Guwahati
