PROFESSIONAL SUMMARY

Frontend Software Engineer skilled in React.js, Next.js, JavaScript, HTML5, CSS3, and REST APIs. Experienced in building scalable, responsive web applications with strong focus on UI/UX, component-based architecture, and performance optimization. Proficient in Git, Redux, Tailwind CSS, and modern frontend workflows. Familiar with backend technologies such as Node.js and Express for full-stack collaboration. Hands-on experience using AI-assisted development tools to improve productivity, code quality, and delivery speed. Seeking opportunities in Frontend or Full Stack development to contribute to high-impact web applications.

PROFESSIONAL EXPERIENCE

Frontend Developer

Jun 2023 - Present
HSR Layout, Bengaluru

Studiolama Design Studio

Developed and maintained scalable web applications using React.js, Next.js, Tailwind CSS, Redux, and Axios.

Built end-to-end frontends for ApplyCourse (Admin, Agent, and Student portals) and AdmitCue (University and Student portals with subdomain architecture).

Integrated REST APIs, implemented reusable components, and optimized application performance.

Collaborated with UI/UX designers and backend developers to deliver responsive and accessible interfaces.

Used Trae AI and AI-assisted workflows to accelerate development and improve scalability.

Ensured cross-browser compatibility, mobile responsiveness, and clean component architecture.

Managed state effectively using Redux and followed best practices for code structure and version control.

KEY PROJECTS

View Project

ApplyCourse

Next.js Tailwind CSS React Query React Table Redux

- Led end-to-end frontend development for a multi-portal platform enabling admin, associate, and student workflows.
- Built dashboards for managing students, courses, scholarships, leads, visa processing, and applications.
- Developed associate tools for onboarding students, managing applications, and tracking commissions.
- Delivered student modules for university exploration, course applications, and progress tracking.
- Implemented React Query–based API optimization, reducing redundant calls by ~30% and improving load speeds.
- Ensured scalable architecture, reusable components, responsive UI, and consistent design aligned with UX guidelines.

AdmitCue (In Development)

Next.js Tailwind CSS Redux Axios Trae AI

- Leading frontend development of a dual-portal, subdomain-based system for global universities and students.
- Built university dashboards for managing applications, leads, enrollments, and real-time insights.
- Developed student interfaces for exploring universities, submitting applications, and tracking admission status.
- Leveraged Trae AI for accelerated component generation, API integration, and code scaffolding.
- Implemented Redux state management and optimized Axios-based API communication for reliable, high-performance data flow.
- Engineered secure multi-subdomain architecture ensuring tenant isolation, scalability, and maintainable codebase.

EDUCATION

Apr 2020

Bachelor of Science in Computer Science

Rathnavel Subramaniyam College of arts and science

GPA: 7/10

CORE COMPETENCIES

Technical Skills:

Javascritpt | React Js | Next Js | TypeScript | HTML5 | CSS3 | SCSS | Tailwind CSS | Redux (toolkit) | REST API | GitHub | Jest | GraphQL

INTERESTS & ACTIVITIES

Cricket | Guitar | Pencil Sketching | Badminton | Fitness
