SNEHA M

Chennai, Tamil Nadu

Email: snehamohan2k@gmail.com **Contact Number**: +91 9445496298

LinkedIn: https://www.linkedin.com/in/snehamohan-profile/ **Portfolio**: https://snehadev.netlify.app/

SKILLS

- **Front-End:** React JS | Redux | JavaScript | TypeScript | HTML | SCSS | CSS | RTK Query
- **Back-End & Database:** Node.js | GO Lang | PostgreSQL | NOSQL | Data Structures & Algorithms | Redis
- **Cloud:** AWS EC2, DynamoDB, S3, SNS, SQS, Lambda, Amplify, CloudFront, CloudWatch, Rabbit-MQ, GitHub.

WORK EXPERIENCE

Associate Software Engineer, *Qube Cinema Technologies (Product) - Chennai* **April 2025 – Present**

(ReactJS, Node.js, Postgres SQL, NO SQL, OAuth, JWT, Redux, RTK Query, REST APIS)

- Architected high-performance client state management using **React.js**, **Redux Toolkit & RTK Query**, reducing redundant API calls by 45% through **caching** strategies.
- Designed and built **RESTful APIs using Node.js (Express)**, serving 5K–20K+ daily requests with optimized response times (less than 250ms avg latency).
- Took **ownership of B2C product** features end-to-end and taking it live for end users, proposing technical architectures.
- Followed **modular service-layer architecture** improving code maintainability and reducing feature development time.
- Proposed frontend **technical architectures** and **migration** strategies impacting 10,000+ active monthly users.
- Created modular feature-based architecture with Webpack 5 **Module federation**, **tree-shaking & debouncing**, reducing bundle size by ~28% and improving **initial load time by ~35%.**
- Optimized performance using **Hooks**, **React.memo, useMemo, useCallback**, **lazy loading**, virtualization, and Web Workers for heavy computations.
- Designed normalized **PostgreSQL** schemas with **indexing, constraints, and query optimization**, reducing complex query execution time by ~50–70%.
- Wrote advanced SQL queries using **JOINs, CTEs, window functions, JSONB** operations, improving data retrieval efficiency for analytics dashboards
- Engineered real-time Monitoring Dashboards with reusable component library and ANTD, **handling 8K+ live** data updates/day with sub-second UI refresh.
- Developed a 300GB+ large-file Web Downloader using **stream handling, chunk writes**, and Chrome File System APIs.
- Integrated multiple **AWS services** (Lambda, S3, CloudFront, SNS, SQS) to support distributed architectures
- Revamped Node.js background workers, **CRON jobs**, for asynchronous processing workflows.
- **Mentored junior engineers**, conducted **PR reviews**, and supported technical onboarding.

Junior Software Engineer, *Qube Cinema Technologies (Product)- Chennai* **Aug 2023 – April 2025**

(ReactJS, Redux Toolkit, RTK Query, JavaScript ES6+, Vite, Webpack, SCSS, Node.js, REST APIs, Ant Design)

- Engineered frontend features using ReactJS**, Redux Toolkit slices, async thunks, middleware**, and RTK Query.
- Deployed **18+ product features**, Implemented API integrations with **authentication**, retry strategies, loading states, and structured error handling.
- Built high-volume **Web Uploader** supporting 8000+ monthly uploads using **chunked uploads, async queues**, and parallel processing.
- Introduced caching strategies **(Redis/in-memory caching)**, reducing DB load by 35% and improving API response time.
- Collaborated on bundle **optimization & refactoring initiatives**, reducing **JS payload** by ~20% and improving **Lighthouse** performance score from ~68 to 88.
- Integrated high-performance data layers and **REST APIs** supporting pagination and filtering, enhancing test coverage to 65% and increased API request throughput by 75 requests per second.

INTERNSHIP EXPERIENCE

Junior Software Intern, *Qube Cinema Technologies* **Feb 2023 – July 2023**

- Developed a Web folder verification-based application and enhanced the app for hashing large files (more than 100GB) using chunk based and memory-based techniques.

Frontend Developer - *Freelancer, MF Media* **Mar 2022–Nov 2022**

- Developed a Virtual Simulator for France Railways SNCF, that depicts a working of train with a sequence of rules and raises an alert if the flow of process is disturbed. Lead the team with collaboration as junior lead.

EDUCATION

Saveetha Engineering College, Anna University **Aug 2019 – May 2023**

Bachelor of Engineering in Computer Science, CGPA: 9.3/10

Anna Adarsh Mat Higher Sec School **June 2017 – May 2019**

Maths with Computer Science, Percentage: 87.3

HONORS & AWARDS

- Excellence in Product Engineering – Nominee (Mar'25)
- IBM Hack Challenge'21 Awardee - Sept 2021
- Sri Ratna Devi Award - July 2019
- LIC Student of the Year, Apr'25

LEADERSHIP & VOLUNTEERING

- Public Speaking, Motivational Speaker
- Technical events host
- Creative ideas, problem solving
- Leads initiatives, executes under pressure.
