Skilled in building responsive web applications using Next JS, React, and Html,Css Experienced in both front-end and back-end development with a focus on writing clean, maintainable code.Strong team player who collaborates well to meet project deadlines and deliver high-quality results. Always eager to learn new technologies and improve processes.

Skill Highlights

- JavaScript, TypeScript, RESTful APIs
- Linux, Git
- React JS, Next JS

Experience

Software Engineer - March 2022 to Present (4+ years experience)

Netphenix IT Solutions Chennai

VFX Studio Employee CRM Management

- Worked as a front-end and back-end developer using Next.js with TypeScript to build and manage server-side functionality.
- Managed employee and customer data, ensuring accurate and up-to-date records.
- Collected business requirements from customers and stored data according to graphic design specifications.
- Conducted data analysis using Looker Studio with BigQuery for insightful reporting and decision-making.

React & Redux Web Application Development

- Built a responsive web application using React.js and Redux for state management.
- Designed a modular, reusable component structure for scalability and maintainability.
- Integrated APIs and handled asynchronous data fetching with Redux Thunk/RTK Query.
- Created a responsive UI using CSS, Tailwind, and Material UI for a smooth user experience.
- Optimized performance with lazy loading, memoization, and Redux best practices.
- Managed global state efficiently, enhancing app stability and user interactions.
- Followed industry best practices to ensure high-quality, maintainable code.

Web Application with Sanic Server & Frontend Development

- Built the frontend and integrated APIs using HTML, CSS, and JavaScript.
- Worked with a Sanic (Python) backend developer for smooth API communication.
- Added features like speech-to-text, video translation, lip-sync, subtitles, and text highlighting.
- Designed a mobile-responsive UI with smooth interactions.
- Developed interactive elements: dual card hover, scrolling, audio control, and dynamic buttons.
- Implemented login/registration validation for secure authentication.

Education

- Bachelor’s Degree in Engineering – Graduated in 2018
- Higher Secondary Education – Specialized in Computer Science
