SUMMARY

Software Engineer with 3+ years of experience in React.js, Node.js, Python and AWS. Proven track record in optimizing performance, reducing costs, and enhancing security. Skilled in full-stack development and agile methodologies. Recognized for leading efficient workflows and delivering high- quality solutions. Seeking to leverage technical expertise in a new role.

WORK EXPERIENCE

Software Developer November 2025 - Present
Blive Pvt Ltd | Bangalore, India

- Working on multi-tenant Saas platform that enable organization to create to create and manage custom ticketing systems for issue tracking, escalation, and reporting purposes.
- Built RESTful APIs for ticket life cycle management, escalation rules, comments, attachments, and audit logs.
- Developed EV Rider Dashboard to track rider activity, vehicle status, trips, and operational metrics in real time.
- Collaborated closely with product and business teams to translate operational requirements into scalable technical solutions.

Software Engineer II November 2022 – July 2025
Insure Comp | Bangalore, India

- Successfully managed 8 projects using React.js, Node.js, Python and AWS. Responsibilities included overseeing requirements gathering, development, testing, debugging, and deployment from start to completion.
- Achieved up to 40% cost reduction in AWS by converting all AWS Dynamo DB tables from on- demand to provisioned capacity, resulting in significant savings.
- Ideated, proposed, designed, architected, and developed an interface to validate data against 100+ technical and business validations. Improved the reliability and accuracy of data by 90%, accelerating business-critical features.
- Implemented a secure password authentication system using AWS Cognito Auth Challenge and Lambda functions, enhancing the security and reliability of user logins.
- Created a comprehensive PDF quote generation feature for users, allowing them to generate detailed PDF quotes after filling out form details in the UI. Leveraged PDF libraries in React, Python and Node.js significantly improving user experience and streamlining the quoting process.
- Reviewed team members' code to ensure adherence to coding standards and best practices.

Graduate Engineer Trainee December 2020 - December 2021
Molex India Pvt Ltd | Bangalore, India

- Managed 4 MERN stack projects from requirements gathering to deployment.
- Developed a robust automation test validation platform enabling the testing team to upload Excel quotes for calculation. Utilized Python and Excel-to-JSON conversion libraries, reducing manual workload by up to 80% and increasing efficiency.
- Designed and developed responsive web pages using React.js, HTML, CSS, and media queries for optimal user experience across various devices.
- Updated legacy code bases to modern development standards, improving functionality and maintainability. cloud backend development and operation, including performance, reliability, resilience, and scale-out.

PROJECTS

Real Estate Portfolio Website — *MERN Stack* **View in GitHub**

- Developed a Real Estate Portfolio Website using Node.js for backend APIs and MongoDB for database management.
- The project enabled users to create portfolios for their areas, houses or flats directly on the website.
- Responsibilities included designing and implementing backend APIs, defining MongoDB schemas for efficient data storage, and developing the frontend with React.

Sales Insights App — *Python, MERN Stack, OpenAI API* View in GitHub

- Developed an **AI-powered sales analytics dashboard** integrating **OpenAI API** to generate automated insights and recommendations.
- Built **interactive data visualizations** and animated UI using React.js and Framer Motion for a seamless experience.
- Designed and implemented **secure RESTful APIs** in Node.js and Express.js, with Python scripts for intelligent data processing.
- Ensured **responsive design** and performance optimization across desktop and mobile platforms.
- Deployment Link: https://sales-insight.netlify.app

CERTIFICATIONS

JavaScript Assessment Skill (Issued by Hacker Rank).
AWS Cloud Deployment Kit (Issued by AWS).

EDUCATION

Full Stack Developer Boot Camp February 2022 - August 2022
The 10x Academy (India)

Bachelor of Engineering (B. E) August 2016 - September 2020
Vivekananda College of Engineering & Technology, Mangalore (India)

SKILLS

- Programming: JavaScript, Python, Typescript.
- Web Technologies: HTML, CSS, Bootstrap, SASS.
- Frameworks: Node.js,Nest.js, React.js, Express.js, REDUX.
- Database: MongoDB, Dynamo DB, Postgress
- Cloud & DevOps: Docker, Server less Framework, AWS (S3, Dynamo DB, EC2, Lambda, SQS, SNS, SES, IAM, Cognito, Route 53, Cloud Watch, Cloud Front)
- Tools: GitHub, Git Lab, JIRA, MS Excel, Postman, Visual Studio Code.
- Others: Agile Methodology, Scrum, DSA (Data Structures and Algorithms), CI/CD, Context API, AWS, Object Oriented Programming (OOP), Rest APIs, ES6 features, UI or UX designs.

AWARDS & ACHIEVEMENTS

- Awarded “I-Star Award” for being the star performer in Quarter II 2024 in Insure Comp.
- Awarded “Extra Miler Award” for going beyond the call of duty and ensuring we meet objectives during OCTOBER 2024 in Insure Comp.
- Awarded "Spotlight Award" for exceptional contributions and for outstanding performance during FEB 2024 in Insure Comp.
- Second Rank in Bachelor of Engineering (B.E.), VCET (Year: 2020).
