Ajay B

Software Engineer | **MERN Stack Developer** | Coimbatore | ajay.balaraman02@gmail.com | 9360367710

PROFESSIONAL SUMMARY

MERN Stack Developer with **2+ years of experience** building **scalable full-stack applications** using **React.js**, **Redux Toolkit**, **Node.js**, **Express.js**, and **MongoDB**. Proven ability to deliver **clean, maintainable code** in **Agile environments**, collaborating across teams to meet **project milestones**. Experienced in **REST API integration**, **performance optimization**, and **secure application development**, with hands-on involvement in **testing**, **debugging**, and **deployment** using **Postman**, **Git**, and **Azure DevOps**.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), Typescript
- **Frontend:** React.js, Redux, Redux Toolkit, Bootstrap, Jest (React Testing)
- **Backend:** Node.js, Express.js, Mongoose, MongoDB, .NET Core Web API
- **Tools & Platforms:** Git, GitHub, Azure DevOps, Postman
- **Principles:** Software Development Principles, REST API Integration, Performance Optimization, Role-Based Authentication

PROFESSIONAL EXPERIENCE

Majestic People InfoTech, Coimbatore **Mern Stack Developer | August 2023 – November 2025**

- Developed **full-stack web applications** using **React.js**, **Redux Toolkit**, **Node.js**, **Express.js**, and **MongoDB**, integrating **REST APIs** for efficient data flow.
- Fine-tuned **front-end components** and implemented **role-based authentication**, significantly improving application **performance**, **security**, and the overall **user experience**.
- Collaborated within **Agile teams** to perform rigorous **testing**, **debugging**, and **deployment** using **Postman**, **Git**, and **Azure DevOps** for high-quality releases.
- Partnered closely with **cross-functional teams** and followed **clean coding practices** to build **scalable features** and consistently meet **project milestones**.

PROJECTS

ResultsForBroward – Child Trust & Support Platform *Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB 06/2025 – 11/2025*

- Created **document management** pages in **React** for efficient **record handling** and retrieval while implementing **role-based authentication** and **backend API integration** using **Node.js**.
- Developed **scalable React components** with **Redux Toolkit**, **optimizing state management** to enhance overall **performance and reliability**.
- Integrated **APIs** with **frontend modules** and resolved **functional issues** in collaboration with **backend developers** to ensure **stable end-to-end delivery**.

Inmate – Secure Prison Messaging System *Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB 08/2024 – 06/2025*

- Developed **scalable React components** and **fine-tuned Redux store performance optimization**.

- Collaborated with **frontend and backend teams** to resolve **functional issues**.

Cirque – Hospital Management System *Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB 01/2024 – 08/2024*

- Designed and built **reusable UI components** and **modular master pages**.
- Integrated **frontend modules** with **backend APIs** and **data flows** for **seamless data handling**.

Icube – Textile ERP System *Technologies: React.js, .NET Core Web API, SQL Server 11/2023 – 12/2023*

- Resolved **critical front-end issues** and upgraded **React.js components**.
- Applied **software development principles** to **stabilize the system**.

EDUCATION & COURSES

- **Bachelor - BCA** (76.6%)**, KSR College Of Arts and Science** (2019-2022)**.**
- **Mern Stack Web Development**, Besant Technologies (2022-2023)**.**

DECLARATION

I hereby declare that all the information provided above is true to the best of my knowledge and belief.
