Professional Summary

Front-End Developer experienced in React.js, Next.js, App Router, Page Router, SSR, SSG, ISR, and client/server component workflows. Skilled in performance optimization, SEO, responsive design, state management (Redux, Context), API integration, component-based architecture, and analytics tracking. Proven ability to build scalable, fast, and fully optimized production-grade web applications.

Technical Skills

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, SCSS

Styling & UI: Tailwind CSS, Material UI, Responsive Design

Performance: SSR, SSG, ISR, Debouncing, Code Splitting, Lazy Loading, Caching, Memoization

State Management: Redux Toolkit (RTK), Redux Thunk, Context API

Testing: Jest, React Testing Library (RTL)

Backend & API Integration: Node.js, Express.js, REST APIs, Axios, Fetch, MongoDB

CMS: Sitecore, Optimizely CMS

Tools & Platforms: Git, GitHub, GitLab, Azure DevOps, Jira, Agile/Scrum Workflow

Analytics & SEO: Google Analytics, SEO Best Practices (meta tags, sitemaps, semantic HTML)

Professional Experience

Speridian Technologies - Software Developer

Bengaluru, India | Oct 2021 – Present

- Developed responsive front-end apps with React.js and Next.js

- Implemented SSR and SSG techniques to improve page load and SEO

- Integrated Google Analytics for monitoring user engagement

- Collaborated with backend teams to streamline API communication

- Created UI using Material UI and Chakra UI for accessibility and reusability

Projects

Husqvarna Sales App | React.js, Next.js, Redux Toolkit, Material UI

- Built reusable UI components and enhanced app usability

- Employed IndexedDB for local data storage and offline access

- Improved data handling with cache strategies

Druce Real Estate App | React.js, TypeScript, Next.js, Material UI, Redux Toolkit

- Designed search with autocomplete and debounced API calls

- Enabled filtering and infinite scroll for a fluid user experience

- Enhanced media delivery through smart caching

- Used Google Analytics to monitor traffic and conversions

ESNE-I AM 73 – Online Event Platform | React.js, TypeScript, Next.js, Node.js, Express.js, MySQL

- Applied IndexedDB for offline support and quick client-side access

- Integrated React Big Calendar with dynamic scheduling features

- Created REST APIs for seamless data submission

- Implemented analytics to evaluate event performance

Aldar Education Platform | React.js, TypeScript, Next.js, Jest

- Engineered debounced search functionality to reduce API calls

- Built optimized multi-step forms with useMemo/useCallbacks

- Applied localStorage and memoization to enhance load speed

- Improved SEO using semantic HTML and dynamic meta integration

- Implemented Datadog to monitor real-time application performance and user activity

- Monitored conversion rates and session behavior via Analytics

Education

Bachelor of Technology (B.Tech) in Mechanical Engineering (Bhubaneswar)

Biju Patnaik University of Technology| Aug 2016 – May 2019
