PROFESSIONAL SUMMARY

- **Senior Software Developer** with 4+ years of professional experience specializing in high-performance web architectures across **React, Angular, and Vue.js** ecosystems.
- Expert in building enterprise-grade, scalable backends using **Node.js** and **Express.js** for seamless full-stack integration.
- Deep proficiency in modern UI/UX implementation using **Tailwind CSS, Material UI (MUI), Ant Design, and Bootstrap.**
- Proven track record of delivering end-to-end solutions for large-scale Ed-tech platforms, successfully managing data for over **20,000 active users.**
- Strong advocate for Clean Code (SOLID principles), modular architecture, and **optimizing frontend performance** to improve Core Web Vitals.

TECHNICAL SKILLS (FRONTEND HEAVY)

- **Core Frontend**: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, Vue.js, Angular (12+).
- **UI Frameworks**: Tailwind CSS, Material UI (MUI), Ant Design, Bootstrap.
- **State Management**: Redux Toolkit, Context API, Redux, Zustand, NGRX (Angular), Pinia (Vue).
- **Testing & Tools**: Jest, React Testing Library, Webpack, Git, GitHub, Cursor AI, GitHub Copilot.
- **API & Backend**: REST APIs, GraphQL, Node.js, Express, MongoDB.

PROFESSIONAL EXPERIENCE

Regenesys Institute of Management | Senior Software Developer / *Dec 2024 – Sep 2025*

- **Frontend Architecture**: Engineered the **LMS User and Admin Portals** using **React.js and Next.js**, focusing on high-performance rendering for live classes.
- **UI/UX Implementation**: Designed modular components using **Ant Design and Bootstrap** to improve institutional workflows across student and admin portals.
- **Feature Integration**: Developed a robust Billing and Provisioning Portal**, integrating complex payment logic** with frontend state management.
- **System Architecture & Mentorship**: Spearheaded the transition to a **Micro-Frontend architecture** for the Admin Portal, improving build times by 40% and enabling independent deployment cycles for different institutional modules.

Thinking Hut IT Solutions | Software Development Engineer I / *Oct 2021 – Nov 2024*

- **Scalable Interfaces**: Built a large-scale **Gyan Portal serving 20,000+ users**, ensuring low-latency data visualization and **role-based functionality**.
- **Dynamic UI Systems**: Developed a customized CMS delivering age-appropriate, personalized content through **highly responsive frontend layouts**.
- **Mobile-First Development**: Implemented a user onboarding flow with WebView support, ensuring **pixel-perfect responsiveness** across Android and iOS.
- **Payment Frontend**: Integrated **Razorpay** checkout flows into a premium subscription portal.
- **Core Stack**: Leveraged **React.js, Redux, and Material UI (MUI)** to build scalable, **production-ready applications**.

TECHNICAL PROJECTS

Project 1: Learning Management System (LMS)

- **Live Integration**: Integrated Microsoft Teams API for automated attendance and live session joining.
- **Architecture**: Engineered a modular frontend architecture using **React.js and Next.js**, **Tailwind CSS** and **TypeScript** implementing Dynamic Imports and Lazy Loading to reduce initial bundle size and improve page load speeds by 30%.
- **State Management**: Utilized **Redux Toolkit** to manage global state for multi-step student onboarding, quiz progress persistence, and large-scale data filtering across course catalogs.
- **Security**: Implemented **JWT-based authentication** and private route guarding on the frontend to ensure secure access control for different user tiers (Student, Teacher, Admin).
- **Student Dashboard**: Developed interactive features for quizzes, capstone project submissions, and dynamic certificate downloads.
- **Responsive Design**: Engineered a fully **responsive UI** to ensure a consistent experience across desktop and mobile browsers.

Project 2: Content Management System (CMS)

- **Dynamic Data Handling**: Built **high-performance** Editable Data Grids using **Tailwind CSS**, allowing admins to bulk-edit metadata for thousands of educational assets (videos, playlists, and documents) with instant validation.
- **Workflow Automation**: Optimized the content delivery pipeline by creating a "Preview Mode" using **Server-Side Rendering (SSR),** allowing creators to visualize content exactly as it would appear in the **Toondemy** app before publishing.
- **Asset Management**: Integrated a custom **Cloudinary/S3 image-handling** flow on the frontend to allow drag-and-drop uploads with automatic image compression and resizing.
- **Real-time Synchronization**: Leveraged **WebSockets** (or optimized REST polling) to ensure that backend database changes were reflected in the Admin dashboard instantly without requiring manual page refreshes.
- **Cross-App Compatibility**: Developed a standardized **JSON-schema-based** content builder that ensured educational data was perfectly formatted for consumption across both Android and iOS **WebViews**.

Project 3: Enterprise E-commerce Platform (Retail Tech)

- **Scalable Architecture**: Engineered a high-traffic e-commerce frontend using **React.js** and **Next.js**, implementing **Server-Side Rendering (SSR)** to enhance **SEO** rankings and reduce First **Contentful Paint (FCP).**
- **Performance Optimization**: Utilized **Image Optimization** and **Code Splitting** to manage a catalog of 5,000+ SKUs, ensuring a seamless shopping experience even on low-bandwidth mobile networks.
- **Cart & Checkout Logic**: Developed a **complex state management** system using **Redux Toolkit** to handle persistent shopping carts, real-time inventory updates, and multi-step guest checkout flows.
- **Payment Integration**: **Integrated Razorpay** and **Stripe gateways** with robust **error handling** and webhook synchronization to ensure secure, 100% successful transaction processing.
- **Advanced Filtering**: Implemented high-performance **Server-side Pagination** and faceted search filters, allowing users to navigate large datasets with zero-lag UI performance

EDUCATION

Bachelor of Science (MSCS)

Sri Venkateswara University | Tirupati, Andhra Pradesh | 2019 – 2022

Specialization: Computer Science, Mathematics, and Statistics.
