SNEHA ABHISHEK GUPTA

FRONTEND DEVELOPER | IMMEDIATE JOINER

Baner, Pune, Maharashtra - 411021 | snehaag102000@gmail.com | 9284173627 | LinkedIn

PROFESSIONAL SUMMARY

Frontend Developer with 3 years of hands-on experience in building responsive, scalable, and user-centric web applications. Strong expertise in React.js, JavaScript (ES6+), TypeScript, Next.js, and modern UI frameworks including Material UI, Bootstrap, and Tailwind CSS. Experienced in developing reusable components, optimizing performance, integrating REST APIs, and working on real-world projects for US-based clients.

EDUCATION

Bachelor of Technology in Information Technology **Jun 2022**

Symbiosis Institute of Technology (Symbiosis International University, Pune)

Diploma in Information Technology **Jun 2019**

Pimpri Chinchwad Polytechnic, Pune (MSBTE)

SKILLS

Frontend Development: React.js, JavaScript (ES6+), Typescript, Angular.js, React Router, Redux Saga (State Management), HTML5, CSS, Bootstrap, Tailwind CSS, Next.js, Material UI.
Backend & Programming Languages: Node.js, Python, Java, C, C++.
AI Tools: AI Agents, Google Gemini API Integration, MarkItDown.
API & Development Tools: APIs, NPM, Swagger, Postman, Babel, Webpack, CI/CD.
Version Control & Collaboration: Git, Jira, Microsoft Teams.

WORK EXPERIENCE

- **Software Engineer, Teccam InfoSolutions LLP** **Jun 2025 - Present**
  Work on integration of AI/data-science techniques (predictive modelling, optimisation, automation) into the simulation and digital engineering tools the company offers.

- **Software developer (React JS and UI Developer), Agile Soft Systems Inc** **Sep 2022 - Jun 2025**
  Developed 6+ React-based applications serving US clients, improving load time by 30% and reducing UI defects by 20%. Applications including an AI-powered PDF Chatbot, Homeowner Service Request Platform, Obituary Platform, University Management System, Lecture Scheduling with Video Calling, and an Award Voting System. Built reusable and responsive UI components using React, Next.js, Redux, Material UI, Bootstrap, and Tailwind CSS. Integrated REST APIs, optimized performance across devices, resolved production issues, and collaborated with cross-functional teams to ensure high-quality delivery from development to deployment.

- **C++/Python Developer Intern, ARAI (Automotive Research Association of India)** **Jan 2022 - Jun 2022**
  Contributed to the development of an Advanced driver assistance system (ADAS) platform.Developed a user interface to facilitate communication between Controller Area Network (CAN) hardware and software. Created a GUI using PySide2 Qt for the CAN interface, allowing users to input data that would be assigned to specific bits and bytes of each data frame before transmitting it to the hardware.

PROJECT

FlyHigh – Tours & Travel Booking Web Application

Built responsive travel booking application using Angular and Bootstrap. Designed frontend architecture, routing, and UI components.
