SUMMARY

- **Front-End developer** with 3+ years in architecting and delivering responsive web applications. Proficient in technologies including **React.js, JavaScript (ES6+), HTML5** and **CSS3** with a strong understanding of modern React features and best practices. Skilled in improving performance, refining build processes with **Webpack**, and enhancing user experiences through Service Workers and Web Workers. Experienced in collaborating with Cross-functional teams and integrating backend solutions to deliver impactful, business-driven results.

SKILLS

- **Languages:** HTML, CSS, JavaScript, Typescript.
- **Front-End Technologies**: React, JQuery, TailwindCSS, Bootstrap, UI/UX design.
- **Tools :** Git, Github, Postman, SVN.
- **Performance Optimization:** Webpack
- **Database Management**: MySQL, Firebase

EXPERIENCE

Front-End Developer | *Tata Consultancy Services*, *Bangalore* *(Oct 2022 - Present)*

- Built and optimized responsive web applications using **React.js, ES6+, HTML5, and CSS3**.
- Improved development efficiency using **React Hooks, Functional Components** and **React Router.**
- **Led** front-end development efforts in creating responsive layouts and intuitive navigation systems, ensuring **cross-browser compatibility** and accessibility.
- **Collaborated** with UX/UI teams to translate wireframes into high-quality, maintainable code.
- **Conducted thorough testing** and debugging, reducing bug reports by **25%**, and **implemented** automated unit tests with **Jest**, increasing code coverage to **90%**.
- **Optimized performance** of web applications, reducing page load times by **30%** through code splitting and lazy loading techniques.

WEB DEVELOPMENT PROJECTS *(Personal Projects)*

- **Project 1 (Cinemate-Hub):** Built a responsive **React** using the **TMDB API** to showcase popular and upcoming movies, featuring search and smooth navigation with **React Router** and styled with **Tailwind CSS**. ***Link***
- **Project 2 (CodeBook — E-commerce Web Application):** Developed a responsive e-commerce platform using **React**, **Tailwind CSS**, and **Context API** for state management. Implemented user **authentication** with **JWT** and data handling via JSON Server. Deployed on **Netlify/Render**, featuring product listings, cart functionality, and seamless user experience. ***Link***
- **Project 3 (WriteNode):** Built a full-stack React application using **Firebase Authentication** and **Firestore**, enabling secure Google sign in, user session management, and real-time **CRUD** operations. Designed a responsive UI for creating and displaying posts with seamless data synchronization. ***Link***

CERTIFICATIONS

- **The Complete Web Development Bootcamp (Udemy)** *Jan,2022*
- **Complete React.js Masterclass (Udemy)** *Oct, 2023*

EDUCATION *(2018 - 2022)*

Bachelor of Engineering in Computer Science and Engineering | GEC Kushalnagar *(CGPA: 8.25)*
