# NANDHAKUMAR M

## Angular Developer

@ nandhamnk7773@gmail.com 9788699399 Thiruvandipatti , Sankari, Salem linkedin.com/in/nandhakumar7773 07-05-1998

## EXPERIENCE

### Consultant at JMR Infotech

Feb 2025 – Sep 2025 | Bangalore

- Developed and maintained enterprise banking applications using Angular, Java, and REST APIs with JSON-based communication for smooth frontend–backend interaction.
- Implemented form validation, role-based access control, and reusable UI components with Angular Reactive Forms.
- Collaborated with the team through code reviews, bug fixing, and performance improvements to ensure high-quality deliverables.

### Junior Developer at Jesper Apps

Dec 2021 – Jan 2025 | Hosur

- Developed a high-performance web application using Java, Spring Boot, Angular, and JavaScript, increasing user engagement by 30%.
- Implemented secure login and user authentication using Angular Guards, enhancing access control and supporting Continuous Integration to streamline development.

## PROJECTS

### NMB BANK

- Implemented secure authentication, theme-based UI customization, and responsive design patterns to enhance user experience.
- Built and maintained reusable Angular components and shared modules, improving development efficiency and code quality.

### Leave Application

- Leave application features for leave requests, work from home, permissions, business travel, and approving/denying requests.
- Created a leave dashboard to manage company holidays, track remaining leave and permissions, and oversee employee attendance.

### HRMS Recruitment

- Recruitment functionalities for managing positions, requirements, candidates, and onboarding with role-based access.
- Dashboard to display details on profiles interviewed, not interviewed, selected, rejected, and on hold.
