CORE SKILLS

- React Native
- JavaScript / TypeScript
- iOS & Android Development
- Redux / MobX / Zustand
- GraphQL & REST APIs
- Firebase & AWS
- Expo & React Navigation
- Git & CI/CD Pipelines

TECHNOLOGIES

- WebRTC & Live Streaming
- WebSockets & Real-time Apps
- Payment Gateways
- SSL Pinning & Security
- Azure & App Center
- Sentry & Analytics

TOOLS & PLATFORMS

- Xcode & Android Studio
- Figma & Adobe Illustrator
- Postman & Swagger
- Jira & Trello

PROFESSIONAL SUMMARY

Accomplished Senior React Native Tech Lead with 7+ years of specialized experience in developing, deploying, and managing high-performance mobile applications across EdTech, FinTech, and eCommerce sectors. Successfully led cross-functional teams of up to 10 developers in delivering 15+ mission-critical projects serving over 1 million active users. Expert in architecting scalable mobile solutions using React Native, Redux, GraphQL, and advanced features including live streaming (WebRTC), secure payment integration, and real-time communication. Proven track record in implementing CI/CD pipelines, optimizing app performance, and driving user engagement through innovative technical solutions.

PROFESSIONAL EXPERIENCE

Mobile Team Lead

Jul 2025 – Present

Scorg International Consulting Pvt. Ltd | Gurugram, India

- Architecting and leading development of CPA Australia mobile application featuring podcasts player, event management, articles platform, and comprehensive courses system
- Built complete application from scratch, implementing secure authentication with Okta integration and enterprise-grade security features including SSL pinning
- Established Azure Pipelines for automated deployment to App Store and Google Play, reducing deployment time by 70%
- Integrated advanced technologies: Coveo search engine, Firebase analytics, Sentry error tracking, and custom music player with background playback
- Implemented REST APIs with robust error handling and offline-first architecture for seamless user experience

Mobile Team Lead

Sep 2021 – Jul 2025

Collegedunia Web Private Limited | Gurgaon, Haryana

- Directed team of 5+ developers, ensuring timely delivery of educational, lifestyle, and e-commerce applications serving 1M+ active users
- Spearheaded architecture and development of multiple flagship apps (Prepp, Collegedunia, OneAstro, Zoutons) with focus on scalability and performance
- Implemented sophisticated state management solutions using Redux, MobX, and Zustand for complex application architectures, reducing state-related bugs by 60%
- Integrated 100+ advanced technologies including live streaming, WebRTC for real-time video communication, and GraphQL for optimized data fetching
- Developed and maintained CI/CD pipelines using App Center and CodePush, enabling over-the-air updates and automated deployment workflows
- Enhanced user experience through performance optimizations, resulting in 40% improvement in app load times and increased user retention by 35%
- Delivered 5+ seamless cross-platform mobile applications ensuring consistency across iOS and Android platforms with 95%+ feature parity
- Mentored junior developers through code reviews, pair programming sessions, and technical workshops, improving team productivity by 30%

Software Developer

Mar 2020 – Sep 2021

InnoApps Pvt. Ltd | Noida, Uttar Pradesh

- Executed full-cycle development for 8+ mobile applications across event management, fitness, recharge, and banking sectors
- Implemented Redux Saga for managing global state and complex asynchronous workflows, improving code maintainability and testability
- Integrated secure payment gateways for banking and investment applications, successfully processing transactions worth over $1 million

CodePush & Agora

LANGUAGES

English - Fluent

Hindi - Native

- Utilized Postman and Swagger for robust backend API integrations, ensuring secure and efficient data handling with comprehensive documentation
- Collaborated with cross-functional teams including designers, QA, and product managers, improving product quality and ensuring 98% on-time delivery
- Optimized app performance resulting in 25% reduction in memory usage and 40% improvement in startup time

Software Developer

Jan 2019 – Mar 2020

Trigbit Technologies | Mohali, Punjab

- Collaborated with 10+ clients to gather requirements and deliver customized mobile solutions from concept to App Store/Play Store release
- Developed React Native applications from scratch, implementing pixel-perfect UI designs and smooth animations for enhanced user experience
- Performed rigorous testing and debugging across multiple devices and OS versions, achieving 95% client satisfaction rate
- Established Git workflows and version control best practices, improving team collaboration and code quality
- Reduced development time by 20% through creation of reusable component libraries and standardized project architecture

FEATURED PROJECTS

Prepp - Educational Platform

10M+ Downloads

Comprehensive educational app for competitive exam preparation serving 1 million+ active users. Features live interactive classes with real-time video streaming, practice tests, performance analytics, and personalized learning paths.

Tech Stack: React Native, GraphQL, React Native Reanimated, WebRTC, Firebase, Axios, Apollo Client, Socket.io, Redux

→ View on Google Play Store

OneAstro - Astrology Platform

100K+ Active Users

Real-time astrology consultation platform with video/audio calling, chat functionality, secure payment processing, and appointment scheduling system. Features personalized horoscope predictions and daily updates.

Tech Stack: React Native, Agora SDK, WebSockets, GraphQL, Redux, Payment Gateway Integration, Push Notifications

→ View on Google Play Store

Collegedunia - Education Resource Hub

1M+ Downloads

Comprehensive college search and resources platform helping students discover colleges, compare programs, read reviews, and access admission information. Includes exam preparation resources and career guidance.

Tech Stack: React Native, GraphQL, Redux, Firebase, Push Notifications, Deep Linking, Analytics

→ View on Google Play Store

Zoutons - Deals & Coupons Platform

500K+ Users

E-commerce deals aggregator providing users with latest coupons, offers, and cashback deals from multiple retailers. Features personalized recommendations and price tracking.

Tech Stack: React Native, REST APIs, Redux, Firebase, Deep Linking, Push Notifications

→ View on Google Play Store

EDUCATION

Bachelor of Technology (Electronics & Communication Engineering)

2012 – 2016

Punjabi University, Patiala

Senior Secondary Education

2011 – 2012

Star Plus Convent School, Rama Mandi

ACHIEVEMENTS & RECOGNITION

🏆 Awarded "Employee of the Quarter" twice at Collegedunia (2022, 2023) for exceptional technical leadership and project delivery

📈 Successfully scaled applications to serve 1M+ concurrent users with 99.9% uptime

⚡ Reduced app crash rates by 60% through implementation of comprehensive error tracking and performance monitoring

🎯 Delivered 15+ projects on time and within budget with 95%+ client satisfaction rate
