Professional Summary

Full Stack Developer with overly 3 years of experience in designing, developing, and deploying web applications. Skilled in both front-end and back-end technologies, with a strong emphasis on crafting user-friendly, responsive interfaces and effective data management**.**

Work Experience

Software Engineer | S2Tech, Hyderabad |client: Isha Foundation **Nov 2022 - Present**

Full Stack Developer

- Leading front-end development for Isha Foundation's key projects: Rally-For-River ,Cauvery-Calling and Isha- Vidhya websites.
- Enhanced features for the official website of Isha Foundation: isha.sadhguru.org
- Builta user-friendly, scalable website using Next.js, JavaScript and React JS while implementing a user click event monitoring system to provide valuable insights to the sales team for identifying prospects.
- Utilized GraphQL for single-endpoint API communication and integrated with React components to streamline data retrieval, enhancing scalability of the frontend architecture.
- Implemented Next.js build process with static and server-side rendering, reducing page load time for a scalable web application.
- Developed and maintained RESTful APIs using Node.js and Express.js for secure and scalable server-side functionality.
- Integrated MongoDB and PostgreSQL databases for dynamic data handling and optimized data retrieval.
- Demonstrating expertise in Routing and Navigation for seamless user experiences.
- Integrating front-end interfaces with facade APIs for efficient client-server communication.
- Improving website visibility in search engine results through SEO, canonical URLs, and Google Tag Manager.
- Identified, reported, and resolved bugs to enhance application stability and performance.
- Conducted product demonstrations for cross-functional teams, actively solicited feedback, and implemented improvements based on the received input
- Used AI tools like ChatGPT and Windsurf AI for code refactoring, documentation, debugging support, and generating efficient solutions—significantly improving development speed and productivity.

Project: Inner-Engineering **Nov2022 – Jan 2024**

- Worked closely with client for their ongoing project Inner-Engineering.
- Worked on Admin panel to handle all registered users.
- Developed and implemented user-friendly webpages, enhanced the performance of existing functionality and fixed UI related bugs.
- Utilized JavaScript **Promises** to handle asynchronous API calls via the **AJAX** method, ensuring efficient and smooth data transmission with error handling.
- Worked with Database creation and maintenance.
- Created **RESTful APIs** using Node.js and Express.js to enable seamless integration between the front-end and back-end systems.

Project: Sangha **Jan 2024 - Present**

- Implemented and styled the page using **React JS**, ensuring a responsive and visually appealing layout according to the Figma design requirements.

- Retrieved and displayed dynamic content from **Dato CMS**, ensuring the page remains up to date.
- Ensured **fast page load speeds** by optimizing images, lazy loading content, and using efficient React rendering.
- Implemented **global state management** using **Context API** to handle data flow across multiple components seamlessly.
- Applied **SEO best practices**, including meta tags and structured data, for better search visibility.
- Created **RESTful APIs** using **Node.js** and **Express.js** to enable seamless integration between the front-end and back-end systems.
- Used ChatGPT and GitHub Copilot to optimize repetitive coding tasks, generate test cases, and speed up API documentation.

Technical Skills

Languages & Frameworks: React Js, Next Js, Typescript, HTML, CSS, JavaScript, jQuery, Bootstrap, Node Js, Express Js, Java, Python, Odoo, Spring Boot.
Databases: PostgreSQL, MongoDB
Tools: Postman, GitHub, Jira, PowerShell, WordPress, VSCode, MS Excel, Google Colab, PyCharm
CI/CD Tools: Jenkins, GitHub Actions
Containerization & Deployment: Docker, Cloudpepper
Operating Systems: Windows, Linux

Education

Bachelor of Technology **2019-2023**
Electronics and Communication Engineering
AP IIIT NUZVID **CGPA: 8.6/10**
Pre-University Course **2017-2019**
AP IIITNUZVID **CGPA: 8.7/10**
SSC **2016-2017**
Z.P.G.H School, Kondapuram (M), Nellore(D) **CGPA: 9.7/10**

Achievements & Awards

Prathibha Award – Received from the Government of Andhra Pradesh for academic excellence in 10th grade.
Classical percussionist (Mridangam) – Performed in multiple stage events and cultural programs.
