ASMITA SUNUWAR

Frontend Development Engineer | Full Stack MERN Developer | React & MERN

+91 9591559951 • sunuwar.asmita05@gmail.com • linkedin.com/in/asmita-sunuwar-0046701b5/ • Bengaluru

Summary

Software Developer with 3+ years of experience building dynamic, user-friendly web applications using **ReactJS, HTML5, CSS3, JavaScript (ES6)**, and TypeScript. Recently expanded into backend development through hands-on **MERN** projects using **Node.js, Express.js, MongoDB/Mongoose, JWT** authentication, and **WebSockets**. Skilled in API integration, scalable component design, and real-time features, aiming to contribute as a Full-Stack MERN Developer.

Skills

Frontend: ReactJS · JavaScript · CSS3 · TypeScript · Bootstrap · Axios · React Hooks · React Router · Responsive Web Design

Backend: Node.js · Express.js · MongoDB · Mongoose · REST API Development · JWT · MVC · Web Socket · API Design · Multer

Tools: Git / GitHub · Postman · Visual Studio Code · Cloudinary · Unit Testing · Debugging · JSON · SDLC · Jenkins · Linux

Experience

Sathyan Technosoft — Bengaluru

Software Developer — 06/2023 - Present

Fore blend infiscripts pvt limited — Bengaluru

Software Engineer — 11/2022 - 06/2023

Projects

Littlespark — 2023 - Present

LittleSpark, a parent-friendly platform, turns short assessments into personalized insights and actions. Using the **MERN** stack, it offers end-to-end flows: from a responsive React UI to secure Node/Express A1PIs and MongoDB report generation.

- Developed a parent-facing web platform that provides child development insights (cognitive, speech, emotional, behavioral) with age-based guidance and actionable recommendations.
- Developed end-to-end features using the **MERN** stack **React** UI, **Express** APIs, and **MongoDB** persistence.
- Followed Git/GitHub collaboration practices, supported release builds, and gained exposure to CI/CD automation with **Jenkins**.
- Assisted with basic Linux tasks for environment setup and application support.
- Built responsive UI flows in ReactJS for onboarding, user journeys, and report consumption; ensured consistent UX across devices.
- Developed backend services with **Node.js/Express.js** and **MongoDB** to collect user inputs and produce reports.
- Integrated secure authentication patterns (JWT-based) and ensured privacy-first handling aligned with the platform's stated child-data commitments.

Ekarmika — 2023 - 2025

Ekarmika (Govt. of Karnataka) – **MERN**-based application built using **ReactJS + Node.js/Express.js + MongoDB/Mongoose**, delivering end-to-end workflows including secure registration forms, admin dashboards, API integrations, and JWT authentication

- Developed labor company and shop registration forms using ReactJS and CSS and integrating GIS for location mapping and data capture (company name, address, pin code, proprietor information).
- Integrated with Kandaya department API for real-time government verification and automated data processing.
- Built a secure admin dashboard with **ReactJS** for labor officials to manage, review, and approve registrations.
- Maintained the website and web app, performing content updates, bug fixes, and unit testing for all site pages.
- Researched and implemented modern frontend design, integrating UI with backend services.

Projects

TTS Markets
2022 - 2023

TTS market specializes in CRM systems and apps using **ReactJS**, **JavaScript**, and **APIs**. Expert in intuitive dashboards, UI integration, and app testing. Experienced in industries like forex and labor systems.

- Increased client retention by developing a CRM system for TTS Markets, enhancing user experience and system efficiency.
- Built a CRM web application with ReactJS, featuring User and Admin modules, reusable components, and responsive layout, integrated with backend services via REST APIs.
- Implemented secure login and session management using **JWT** for role-based navigation and protected routes, ensuring data security and user privacy.
- Developed customizable dashboards and interactive elements for intuitive navigation and efficient client/user data management.
- Troubleshot and resolved production issues through iterative debugging and module-level testing, improving application stability and performance.
- Assisted in system maintenance through comprehensive troubleshooting, debugging, and testing of application modules, ensuring functionality after each update.
- Leveraged **ReactJS**, **JavaScript**, **Typescript**, and REST APIs for application development, optimizing seamless data flow and system integration.

LaunchFXM
2022 - 2023

LaunchFXM website is a website showcase Forex trading services, ensuring a seamless user experience and brand consistency through collaboration with stakeholders. Utilized **HTML**, **CSS**, **Bootstrap**, **JavaScript**, and **ReactJS** to implement key frontend features and functionalities.

- Developed and maintained a responsive website for Forex trading services using ReactJS, ensuring seamless user experience and brand consistency.
- Integrated platform APIs to display dynamic trading content, enhancing user engagement and system performance.
- Collaborated with stakeholders to deliver a broker consultants platform for online Forex trading, translating requirements into UI screens and content updates.
- Utilized **HTML**, **CSS**, **JavaScript**, and **ReactJS** to contribute significantly to front-end features and functionalities, driving development efficiency.
- Maintained the codebase using Git/GitHub and addressed bug fixes and enhancements across multiple releases, ensuring code quality.
- Assisted in testing and quality assurance processes to ensure optimal website performance, contributing to operational excellence.

Training / Courses

Complete MERN Course — Completed MERN stack online training, gaining hands-on experience in building dynamic web applications and enhancing user interfaces.

ABC for Java and Testing — Completed ABC training in Java, JavaScript and Testing, acquiring skills in software development and quality assurance methodologies.

Key Achievements

Acknowledged and granted Awards for Outstanding Achievements.
Received multiple Employee of the Month awards in recognition for my project contributions

Shout-Outs and congratulations were given during Client meets
Recognized by peers and management with shoutouts for exemplary teamwork and dedication to achieving project goals.

Client appreciations
Collaborative relationships, resulting in enhanced client satisfaction and project success.

Education

SJB Institute of Technology
Bangalore, KA

Bachelor of Engineering - Computer Science | Percentage: **7** / 10

07/2014 - 08/2018
