AKSHAY NAGTILAK
Product Tester (Intellect Design Arena)
Cell: +91-9307789231
Email: akshaysn2894@gmail.com

Career Objective:

To become a QA Engineer where I have to use my Manual and Automation Testing skills and knowledge for the development of the project, where strong project management and analytical skills like UI Testing, API Testing using POSTMAN,Database testing with MySQL Automation Testing (Selenium WebDriver with Java), and API Automation (Rest Assured with Java).

Summary:

- A Detail-oriented professional with 6+ years of experience in QA Testing.
- Very good knowledge in Automation Testing, Database Testing,UI Testing, and API Testing.
- Good understanding of Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC).
- Strong knowledge of Test Design Techniques like Equivalence Class Partitioning and Boundary value analysis.
- Good knowledge in Smoke Testing, Sanity Testing, Regression Testing.
- Expertise in Defect Life Cycle / Bug Lifecycle.
- Strong in Selenium with Java, API Automation using Postman & Rest Assured for REST APIs.
- Experience in Database testing using MySQL.
- Worked with Scrum Agile Methodology.
- Expertise in Fintech,Banking , Finance and E-commerce Domain.

Technical Skills:

• Test Automation (UI & API) • Selenium WebDriver (Java, Python) • PyTest • RestAssured • Automation Frameworks (POM, Hybrid, Data-Driven) • Test Script Writing • TestMagic •Jmeter . UI Automation • API Automation • Git • Jenkins • API Testing (REST, SOAP) • Postman • SOAP UI • JSON/XML Validation • SQL Queries • MySQL • Database Testing • Test Data Management • Manual Testing • Functional Testing • Regression Testing • Test Case Design & Execution • Test Plan Development • Requirement Analysis • Test Documentation • Product Testing • Defect Identification • JIRA • Bug Tracking & Reporting • Scrum Agile • Client Communication • Team Collaboration • Effective Communication • Attention to Detail • Critical Thinking • Problem Solving • Continuous Learning • Ownership & Accountability

PROFESSIONAL EXPERIENCE:

Product Tester, Intellect Design Arena, July 2025–December 2025
Project – HSBC VAM (Virtual Account Management) Implementation (Fintech Domain)

Responsibilities:
Performed functional and regression testing for virtual account creation and reconciliation
Developed automation scripts using Python, Selenium, and PyTest
Tested VAM microservice APIs using Postman and Python Requests
Validated backend data using SQL queries for account mapping and transaction logs
Executed test suites through TestMagic and tracked issues in JIRA
Skills: Automation Testing (Python, Selenium, PyTest), API Testing (Postman, Python Requests), DB Testing (MySQL), Manual Testing, Test Case Writing & Bug Reporting, TestMagic, JIRA

QA Engineer, Perfios Software, March 2023–June 2025
Project – KScan (Fintech domain)
A corporate intelligence tool analyzing 20M+ entities using 800+ databases.
Responsibilities: Manual end-to-end testing & automation using Selenium (Java) API testing using RestAssured (Java) for RESTful services Writing & executing structured test cases for functional validation Bug tracking, reporting, and collaboration with developers using JIRA
Skills: Manual & Automation Testing (Selenium, Java), API Testing (RestAssured), Test Case Design & Execution, Bug Tracking & Reporting, JIRA, Postman

QA Engineer, Scoreme Solutions, October 2022–January 2023
Project – MCA (Banking & Finance Domain)
Responsibilities: Performed front-end testing and documented bugs Validated backend APIs and verified API response messages Designed and executed test cases for multiple APIs. Automation using Selenium (Java) API testing using RestAssured (Java) for RESTful services. Worked closely with developers to ensure quality and coverage
Skills: Manual Testing , API Testing (Postman, SOAP UI) ,Selenium,Java,restassured,Bug Reporting , Test Case Writing , Team Collaboration

QA Engineer, Hitachi Solutions, Oct 2019 -Sep 2022
Project 4 – Topshop (E-commerce Domain)
Responsibilities:
Analyzed customer requirements and created test cases
Performed Functional Testing, Regression Testing, and Retesting
Sent daily status reports and interacted with the Product Owner
Identified automation candidates and created POM & test classes
Reviewed and optimized Selenium automation scripts
Skills: Manual & Automation Testing, Selenium with Java, Test Case Design, Script Review, Client Communication.

Educational Qualification:

Bachelor of Technology (B.Tech) from Shivaji University, Maharashtra

Personal Information:

Name: Akshay Sanjiv Nagtilak
Marital Status: Single
Languages Known: English, Hindi, and Marathi
