GURNOOR KAUR

Location: Gurgaon | Email: gurnoorkaurhp@gmail.com | LinkedIn | Mob: 7310834332

SUMMARY:

- Experienced Quality Assurance professional with 4+ years of expertise in Functional Testing, Automation Testing.
- Proficient in Black Box Testing, Regression, Smoke, UAT, and Integration Testing in **Airlines**, **PSS (Passenger Service Systems)**, and **GDS (Global Distribution Systems)** and **Insurance** domains.
- Adept in Agile methodologies, API testing using **Postman**, and test automation using Test Complete, **Cucumber BDD**.
- Proven track record in improving test coverage, identifying critical defects, and enhancing product quality.

TECHNICAL SKILLS:

Tools & Platforms:	Test Complete, Postman, Jenkins, IntelliJ, Git
Languages & Frameworks:	Java, JavaScript, Cucumber BDD, SQL
Testing Types:	Functional, Regression, Smoke, UAT, Integration, API
CI/CD & Test Management:	JIRA, CI/CD pipelines

PROFESSIONAL EXPERIENCE:

Sapiens Jun 2025 – Present
Senior Test Engineer

- Spearheaded automation initiatives using **Test Complete**, reducing manual efforts and boosting test reliability.
- Executed **Functional**, **Regression**, and **Smoke testing** for insurance platforms.
- Conducted **API testing** using **Postman**, ensuring backend service stability.
- Collaborated cross-functionally to ensure on-time delivery and high-quality releases.
- Maintained automated regression suites, improving release cycle efficiency.
- Used **JIRA** for defect logging and tracking.
- Performed **SQL** queries to validate data integrity across database.
- Worked in **Agile environment** delivering features in 2-week sprints.
- Contributed to sprint reviews, retrospectives, and release planning.

Coforge Jan 2023 – May 2025
Senior Test Engineer

- Analyzed requirements and created **Gherkin feature files** to define **BDD** test scenarios, ensuring alignment with business expectations and complete functional coverage.
- Delivered testing across 10+ projects, achieving **95% test coverage** and identifying **900+ critical defects**, reducing post-release issues by **80%**.
- Managed full QA lifecycle: test planning, execution, defect tracking (via **JIRA**), and verification.
- Led **UAT testing** for 2 clients, aligning product delivery with business goals and improving client satisfaction by **90%**.

- Coordinated and executed **System Integration Testing (SIT)** across environments to ensure seamless end-to-end functionality.
- Mentored 10+ junior testers and improved team efficiency and onboarding.
- Automated test cases using **Test Complete** and validated API endpoints with **Postman**, boosting early defect detection and release confidence.
- Used **JIRA** for defect logging and tracking.
- Performed **SQL** queries to validate data integrity across database.
- Worked in **Agile environment** delivering features in 2-week sprints.
- Contributed to sprint reviews, retrospectives, and release planning.

Coforge May 2021 – Jan 2023
Test Engineer

- Led testing for key travel domain projects with **95% test coverage** and resolved **450+ defects**, cutting down post-release bugs by **82%**.
- Executed end-to-end testing, documentation review, and issue resolution in collaboration with stakeholders.
- Prioritized and executed test cases for **Smoke** and **Regression** cycles, ensuring critical functionality was consistently validated.
- Managed end-to-end QA cycles from test planning to defect verification while maintaining automated test scripts that enhanced efficiency and minimized manual effort.
- Used **JIRA** for defect logging and tracking.
- Performed **SQL** queries to validate data integrity across database.
- Worked in **Agile environment** delivering features in 2-week sprints.
- Contributed to sprint reviews, retrospectives, and release planning.

EDUCATION:
Graphic Era Hill University — Sep 2017 – Sep 2021
Bachelor of Technology in Computer Science Engineering

CERTIFICATIONS:
Selenium WebDriver with Java - Basics to Advanced Frameworks
Core Java for Automation Testers – Coding Made Easy
Data Visualization with Power BI *(Jan 2023 – Present)*

AWARDS & RECOGNITION:
Rock Star of the Month
Overall Best Intern
Recognized consistently as a Top Performer
