LATA PAWAR
Senior QA Engineer
Email: **pawarlata98@gmail.com** | Mobile number: **+91 7974787618**

PROFESSIONAL SUMMARY

Experienced QA Engineer with 4+ years in manual and automation testing (including 2 years of automation) for web and mobile applications using Selenium WebDriver, TestNG, and Agile methodologies. Skilled in test planning, automation framework development, API testing, defect tracking, and CI/CD integration.

CORE SKILLS

Manual Testing

- Functional, Regression, Smoke, Sanity, System, Integration & UAT Testing
- Test Case & Scenario Design
- Defect Reporting & Tracking (JIRA)

Automation Testing

- Selenium WebDriver (POM)
- TestNG, Cucumber
- Data-Driven & Cross-Browser Testing
- Parallel Test Execution
- Regression Automation

Tools & Methodologies

- JIRA, Azure DevOps, Confluence
- Eclipse, Maven, Jenkins (CI/CD), Git, ChroPath
- API Testing (Postman), Performance Testing (JMeter)
- Agile / Scrum, SDLC & STLC
- SQL Server, Core Java, HTML

PROFESSIONAL EXPERIENCE

Senior QA Engineer
NLGIC Support Services Pvt. Ltd.
May 2022 – Present

- Designed and executed manual and automated test cases for web & mobile platforms, improving defect detection.
- Built and maintained Selenium WebDriver automation frameworks using Page Object Model.
- Performed API testing with Postman to validate backend workflows.
- Integrated automation scripts into Jenkins for CI/CD execution.
- Conducted cross-browser and parallel test execution across environments.
- Logged and managed defects in JIRA, working with developers for resolution.
- Validated backend data using SQL queries to ensure accuracy.
- Prepared weekly/monthly status reports for stakeholders.

Software Tester
Notobotics Pvt. Ltd.
Jan 2022 – Apr 2022

- Executed manual test cases covering UI, integration, and regression testing.
- Logged and documented defects clearly to support quicker resolution.
- Supported automation test execution and contributed to test planning.

PROJECT DETAILS

Project #04: Liva Insurance – UAE
Dec 2025 – Present | Android, iOS | Team: 12
Description: Upgrade of the Inayah Insurance app focused on health insurance, mobile medicine ordering, and claims processing with backend integration.
Key Contributions: Mobile functional and automation testing, API validations.

Project #03: Liva Insurance – Oman
Oct 2025 – Present | Android, iOS | Team: 12
Description: Upgrade of the Liva Insurance application focused on health insurance. The mobile app enables customers to create and submit claims with core system integration.
Key Contributions: Mobile automation using Katalon, claim workflow testing, API and performance testing.

Project #02: Liva Insurance
Jul 2023 – Oct 2025 | Android, iOS | Team: 10

Description: Health insurance app where users submit claims and view history, benefits, and provider info. Integrated with medical core system.
Key Contributions: Manual & automation testing, POM enhancements, CI/CD integration.

Project #01: NLG (National Life General)
Jan 2022 – Jun 2023 | Web, Android, iOS | Team: 8
Description: Insurance project covering Motor, Health, Travel, and CPP insurance for self and third-party customers. Focused on premium calculation and updates.
Key Contributions: Manual regression testing, cross-browser execution, API and SQL validations.

EDUCATION

Bachelor of Engineering (B.Tech) from SIRTE, Bhopal

CERTIFICATIONS

Selenium WebDriver (Feb 2023-Apr 2023)

DECLARATION

I hereby declare that the above written particulars are true to the best of my knowledge and belief.
