# Saloni Madde

**Software Quality Engineer**
QA | Core Java | Selenium | RestAssured
salonimadde0207@gmail.com +919156424100

## SUMMARY

Software Quality Engineer with **3 years** of professional experience in **Manual Testing, Automation Testing, Functional Testing, UI Testing, and API Testing**. Skilled in **Java, Selenium WebDriver, Cucumber BDD, TestNG, RestAssured, Postman, SQL and Jira**, with hands-on experience in **Agile environments**. Backed by **1 year of technical support experience**, delivering high-quality, defect-free applications and supporting production stability.

## PROFESSIONAL EXPERIENCE

**Quantafic Business Solutions Pvt Ltd | Software Engineer | May 2023 - November 2024**
**Project: Q-Mandate| Domain: BFSI Domain**
Q-Mandate is a BFSI application managing end-to-end mandate processing through UI, REST APIs, and backend databases, ensuring secure and compliant financial transactions.

- Built and enhanced **Automation frameworks using Java, Selenium, Cucumber, TestNG**, **and Maven** improving release stability and reducing production defects across multiple deployments.
- Automated **critical regression test suites**, increasing overall **test coverage by 75%** and significantly reducing production defects.
- Provided **production and post-production support**, resolving incidents, validating data using SQL, and ensuring application stability through effective collaboration with cross-functional teams.
- Integrated automated test execution with **Jenkins CI/CD pipeline**, enabling scheduled and on-demand regression runs.
- Leveraged **Core Java and OOP principles** to improve automation reusability and maintainability.
- Actively participated in Agile ceremonies (sprint planning, daily stand-ups, retrospectives) to ensure early defect detection and faster delivery.

**Dell EMC | Software Test Engineer | November 2024 - Present**
**Project: OctaFx| Domain: FinTech Domain**
OctaFx is a FinTech trading platform supporting real-time trading and financial transactions through UI, REST APIs, and backend databases, ensuring secure and reliable operations.

- Executed **end-to-end system and integration testing, validating UI, API, and backend data** using **100+ SQL** queries, reducing data mismatches by **41%**.
- Performed **REST API testing using Postman and RestAssured**, validating response codes, payloads, headers, and response times.
- Developed and maintained **Selenium automation scripts in Java**, cutting manual testing effort by **36%.**
- Led enhancements to test frameworks that improved release cycle efficiency by **24%**.
- Conducted **black-box, white-box, regression, smoke, and integration testing** for high-frequency releases.
- Collaborated closely with **development and support teams** to debug production and pre-production issues.
- Created and maintained detailed **test plans, test cases, defect reports, and execution metrics**.
- Supported release **sign-offs** by providing quality reports and risk assessments.

## EDUCATION

**Bachelor of Engineering**
MAEER'S MIT Academy of Engineering • Pune • 2016-2019

## TECHNICAL SKILLS

- **Automation Testing:** Selenium WebDriver, Cucumber BDD, TestNG, Data-Driven Testing, Maven
- **API Testing:** RestAssured, Postman, REST APIs
- **Programming:** Core Java, OOP Concepts
- **Database:** SQL (Joins, Subqueries, Data Validation)
- **CI/CD & Tools:** Jenkins, Git, Jira
- **Testing Types:** Functional, Regression, Integration, UI, API, Smoke
- **OS:** Linux, Windows

## ACHIEVEMENTS

**Pinnacle Performer Award**- Outstanding performance in testing and technical support

## CERTIFICATIONS

- **Cucumber BDD with Java, Selenium, Jenkins, Git & Extent Reports** – *Udemy*
- **REST API Testing (Automation) from Scratch** – *Udemy*
