Vipin Kumar

| +91 9811375393 | Vipkumar97560@gmail.com | LinkedIn | Portfolio

Senior QA Engineer with 6+ years in hospitality SaaS, delivering 10+ projects (Booking.com, Paytm), executing 500+ test cases, and achieving 98% bug- free releases. Expert in Agile, API testing, SQL, and CI/CD, cutting deployment time by 30%.

Skills

Testing	Manual Testing, Functional Testing, Regression Testing, Test Case Development
Automation	CI/CD with Jenkins, Ansible Automation, API Testing with Postman, Performance Testing
Tools	JIRA, Bug Tracking, GitHub Version Control, Scrum, Docker, Postman, MySQL , Kibana, RabitMq
QA	Quality Assurance Practices, Linux, Quality Analysis Techniques, Load Testing, Jmeter

Experience

Apr 2023 – Present

Senior QA Test Engineer - *DJUBO, Noida, India*

- **Performed** root cause analysis for bad data by querying almost **2 million records and then loading** data in Jupyter notebook, using MySQL to store the data.
- **Led** the development **of 500+ test cases** for cloud-based applications, improving release cycle speed by 30% and reducing defects **by 40% in the first phase**.
- **Implemented** Agile methodologies**, contributing to a 98%** on-time delivery rate across 10+ sprint cycles, **boosting team productivity by 25%.**
- **Leveraged** API testing to **resolve 95% of API-related issues**, enhancing integration stability with major OTAs like Booking.com, improving transactional accuracy.

Nov 2020 – Nov 2023

Senior Software Engineer - *DJUBO, Noida, India*

- **Spearheaded** third-party payment gateway integrations (Paytm, Razorpay), **ensuring 100% transactional accuracy** for 5,000+ bookings, and preventing payment failures.
- **Engineered** test strategies for **15+ product releases**, reducing critical post-deployment bugs by 40%, improving product quality and customer satisfaction.
- **Governed** staging environments for **15+ releases, reducing integration issues by 30%**, leading to a 20% faster timetomarket.
- **Orchestrated** end-to-end **testing for 10+ key features**, ensuring zero downtime during major updates, achieving a 98% bugfree release rate.

Jun 2018 – Nov 2020

Software QA Engineer - *DJUBO, Noida, India*

- **Validated** 50+ project features through end-to-end testing, identifying and resolving issues that resulted **in a 20% improvement in system stability.**
- **Reduced** bug backlog by **25% by verifying bug fixes across** multiple environments, ensuring timely and high-quality releases.
- **Executed** functional and integration testing **for 20+ APIs, improving API integration** performance by 15% and reducing errors in production.
- **Improved** test coverage **by 30% through the development** of efficient test scripts, accelerating bug detection and ensuring higher-quality software releases.

Projects

Mar 2023 - Apr 2023

Self Check-in App - *DJUBO*

- **Constructed** and executed 50+ test cases for the Self Check-in App, **reducing defects by 30%** and ensuring seamless user experience during automation of the check-in process.
- **Formulated** test strategies and conducted end-to-end testing, **achieving a 98% bug-free release** and delivering the project on time.
- **Coordinated** with cross-functional teams to manage code releases, resulting in zero post-release issues and **faster time-to-market by 20%.**

Mar 2023 - Apr 2023

Payment Gateway Integration - *DJUBO*

- **Developed** and **executed 100+ test cases for integration** with payment gateways (Airpay, Paytm, Razorpay, Billdesk, Ipay88), ensuring 100% transactional accuracy for over 10,000 hotel bookings.
- **Identified** and implemented testing strategies, leading to the identification of critical payment gateway errors and **reducing payment**

failures by 25%.

- **Collaborated** with development teams to streamline payment gateway integrations, reducing testing time by 15% and ensuring smooth software delivery.

Mar 2023 - Apr 2023

Star Sight - *DJUBO*

- **Crafted** and developed 80+ test cases for Star Sight integration, improving the accuracy of **customer review storage by 20%.**
- **Executed** extensive end-to-end testing, ensuring seamless integration across OTAs, agents, and Google reviews, **with a 98% bug-free** release.
- **Optimized** test plans and strategies, reducing overall testing time by **30% while improving product reliability** and customer satisfaction.

Mar 2023 - Apr 2023

POS (Point of Sale)

- **Developed 120+ test cases** for POS applications in restaurants, spas, and safaris, **resulting in a 30% reduction** in transaction errors during testing.
- **Directed** end-to-end testing, ensuring complete coverage and zero issues during release cycles**, leading to a 25% improvement** in software stability.
- **Led cross-functional teams** to coordinate deployments, ensuring 100% uptime during product rollouts and improving overall system **performance by 20%.**

Mar 2023 - Apr 2023

OTA Integration - *DJUBO*

- **Generated 150+ test cases for OTA integrations** with platforms like **Gommt, Booking.com, Goibibo, Octorate, and EasemyTrip**, ensuring smooth functionality and bug-free releases.
- **Validated** end-to-end validation, **resulting in 100% issue** resolution across all integrations and a **20% faster time-to-market** for product updates.
- **Facilitated** client meetings to gather requirements and feedback, improving project **alignment by 30% and ensuring successful deployment on staging servers.**

Certifications and Awards

- Best quality assurance engineer for a consistent five years
- Agentic AI certifications
- CI / CD certifications
- Six Sigma Certifications

Education

Jun 2013 - Aug 2017

Delhi Institute of Engineering and Technology – *B.Tech / B.E. in Computer Science*
