# MEGHA MANOHARAN

SDET | Test Automation | Quality Assurance | Agile Development | BDD Expertise | Low-code | Templating | AI based Testing

8220816396 • megha.tkd@gmail.com • Bangalore, IN 560068

## Summary

Motivated and analytical Test Automation Engineer and Quality Lead with 9 years of extensive experience in building and enhancing robust hybrid automation frameworks for web, API, and mobile testing. Expertise in Test Automation, Quality Assurance, and supporting Agile development processes, coupled with a solid understanding of SDLC and STLC. Adept at leveraging programming skills (Java, JavaScript) and BDD methodologies to craft automated business solutions and streamline testing. Eager to apply strong problem-solving abilities and a collaborative approach to drive innovation and efficiency through low-code/no-code solutions, including developing advanced automated workflows and integrating AI agents for enhanced user interactions. Always exploring new AI-based testing tools like testRigor, Testim, Virtuoso, Functionize. Part-time vibe coder, experimenting with my own projects.

## Skills

Selenium · Putting ChatGPT at best use to generate Gherkin features · Prompting · BDD · Agile · Karate · Playwrite · RestAssured · Postman · SOAP API · AuraPlayer · Core Java · Cucumber · FIORI · Java · JavaScript · Manual Testing · SAP-SD · Scrum · SDLC · STLC · TestCafe · TestNG · UI Testing · WebDriver · Google G-suite · Gmail · Jira · Teamcity · GitHub Action runners · Jenkins

## Key Achievements

### Enhanced Automation Frameworks
Improved test coverage by 30% through the development and optimization of automated frameworks.

### Streamlined Testing Process
Reduced test cycle time by 25% by implementing agile methodologies and efficient test strategies.

### Quality Assurance Leadership
Led a team, significantly improving defect detection by 40% and fostering a culture of continuous improvement.

### Implemented QA Improvements
Successfully implemented new QA standards, leading to a 15% reduction in defects.

## Experience

**Guidewire Softwares** — Bengaluru

**SDET-III** — 11/2021 - Present

A company focused on technology solutions for the global property and casualty insurance industry

- Collaborate within a global content development and testing team, with a focus on quality assurance and test-related tasks within the product creation process.
- Designed and implemented end-to-end tests utilizing an in-house GT-Framework based on Testcafe and Karate, adhering to Behavior-Driven Development (BDD) principles.
- Collaborated on enhancing a test automation framework to ensure a single, unified test suite could support multiple global regions. This improvement significantly streamlined processes for SDETs, reducing manual coding efforts and aligning with low-code/no-code principles of reusability and efficiency
- Developed comprehensive feature files for both UI and API tests using Cucumber, facilitating clear communication between business and technical teams.
- Partnered closely with multiple teams to address regional requirements and provide global portfolio support, ensuring alignment of technical specifications with business goals.
- Authored and executed intricate tests and diagnostics to validate product functionality, performance, and software application adherence to standards.
- Validated JavaScript-based architectures and related frameworks, ensuring robust and scalable application solutions.
- Actively participated in Agile development processes, contributing to continuous improvements and rapid innovation.
- Built and maintained automated test scripts for repetitive testing workflows, significantly enhancing efficiency and reducing manual effort.
- Evaluated function, performance, and design compliance against established quality standards.
- Aligned closely with QA engineers to replicate, track, and manage bugs and defects; developed and maintained comprehensive defect databases.

## Experience

### SAP Labs
Bangalore

Quality Specialist
07/2019 - 11/2021

A global leader in enterprise application software

- I was part of the FioriV4 team which built the Fiori Elements(Templates for SAP applications). This was a major low-code/no-code movement for SAP ERP Software. Letting users onboard without much coding required.
- Managed and recorded findings during inspection processes, ensuring meticulous documentation of deviations.
- Collaborated with the QA team to implement procedural remedies, driving continuous quality enhancements.
- Monitored product standards and quality-control programs, ensuring adherence to high-quality benchmarks.
- Educated employees on specific QA standards, fostering a company-wide commitment to quality.
- Provided regular, insightful updates to leadership on quality metrics, enabling informed decision-making.
- Implemented process improvements that demonstrably boosted productivity across quality assurance activities.
- Create automation scripts for UI testing of Fiori V4 Templates –automation of test scenarios using OPA.
- Enhancement of in-house hybrid automation framework called OPA framework.
- Created detailed test designs and executed both manual and automated tests to ensure comprehensive product validation.
- Managed quality and scrum activities for multiple scrum teams, demonstrating strong organizational and leadership capabilities within an agile framework.

### Empower Retirement
Bangalore

Quality Assurance Analyst
02/2017 - 07/2019

A premier retirement services firm

- Defined and achieved product quality objectives, consistently meeting stringent specifications.
- Developed robust automation scripts for UI and WebServices testing, improving test coverage and efficiency.
- Enhanced an in-house hybrid automation framework using Selenium, TestNG, and JAVA, demonstrating strong programming and framework development skills.
- Automated feature files for BDD using Cucumber, streamlining the development and testing lifecycle.
- Actively involved in test script executions and thorough result analysis, contributing to product stability and quality.

## Education

### Vellore Institute of Technology
Vellore

Bachelor of Technology
07/2013 - 09/2017

### Kendriya Vidyalaya RWF
Bangalore

High School Diploma
01/2012 - 03/2013
