GUI testing
Bug Reporting
Bug Tracking
Cross Browser Testing
API with Postman
TFS, JIRA, Postman
MySQL,PostgresSQL, Eclipse, Visual Studio

Career Summary

- 3.6+ years of experience in Software Testing with strong Process orientation, manual testing of web applications.
- Sound Knowledge in **School ERP, Test and Assessment domains.**
- Hands on Experience in Manual and Automation Testing.
- Extensive participation in mapping Functional Requirements to Test Scenarios and Preparing Test cases and Test Procedures.
- Experience in testing the Functionality, Compatibility, Regression.
- Hands on Experience in Defect Tracking, Evaluating Defects and Reporting Using Defect tracking tools like **Team Foundation Serve (TFS).**
- Good at Test Environment setup, Test Data preparation, generating test cases and Test Reports preparation.
- Well-acquainted with the Software Development Life Cycle (**SDLC**) and Defect Life cycle.
- Quick Learner with the ability to grasp new technologies.
- Following-up with developers as to the status of service requests and ensure complete resolve of the issues
- Good at using Visual Source Safe for maintaining documentation and several process implementation activities

Education Qualifications

- **B.SC (Computer Science)** from Kakatiya University, Warangal – 2020 with aggregate of 68%.
- **Intermediate (MPC)** from SV Trishool junior College, Warangal - 2017 with 78%.
- **SSC** from Sri Vishwashanthi High School, Hyderabad – 2015 with 75%

Areas of Expertise

Operating Systems	Windows
Testing Tool	Manual Testing, Selenium with java.
Defect Tracking Tools	Team Foundation Server 2019.

Work Experience

Excelsoft Technologies Hyderabad, from (**June - 2022 - Present) -**
Role – Associate Software Quality Assurance Engineer

Work Experience

EXPERIENCE SUMMARY

Project 1:	
Role	**Associate Software Quality Assurance Engineer**
Project Title	**SEAB - Singapore Education and Assessment Board**
Testing Type	Manual Testing – Agile
Description	SEAB application used by Ministry of Education Singapore Board, assist in conducting assessments within the Singapore, the assessments are affiliated to Singapore government, where the evaluation parameters can be set, marking of evaluation can be performed and results can be declared, with in the schedule time for whole or provinces of Singapore, the application has features including plagiarism check, storing the evaluation on to cloud or local, sanity check of candidates submission, creating a hierarchy and providing privileges.
Roles & Responsibilities	➢ Complete Study of business functionality and analyzing the requirements of the system ➢ Involved in preparation of test cases ➢ Distributing the work to the team (4 members) and integrating the work's status at the End of the day. ➢ Testing the application for user interface ➢ Creating test documentation which includes creating Test conditions and Test cases. ➢ Reviewed the test conditions, test cases for Functional, and Smoke tests. Testing, Database Testing, Usability Testing, Regression testing and Server Log Files Testing. ➢ Defect Reporting and Tracking using TFS.

Project 2:	
Role	**Associate Software Quality Assurance Engineer**
Client	**Multiple Schools across India and Middle East (Qatar)**
Project Title	**Saras SIMS**
Testing Type	Manual and Automation Testing – Agile
Description	SIMS is a comprehensive Educational ERP suite that provides an end-to-end integration to all business processes for the school organization and transforms into business benefits by providing better business visibility, facilitating decision making & enhancing bottom line profits. SIMS interface possess both web and mobile application.
Roles & Responsibilities	➢ Performed various black box testing Methodologies Like Functionality testing, Compatibility ➢ Testing, Database Testing, Usability Testing, Regression testing and Server Log Files Testing. ➢ Defect Reporting and Tracking using TFS. ➢ Had participated in migration and have completed in given time frame, successfully. ➢ Extensively performed Testing process to ensure the quality of the software. ➢ Had performed regression testing through Automation using selenium through Java.

Project 3:	
Role	**Associate Software Quality Assurance Engineer**
Project Title	**SVKM (Shri Vile Parle Kelavani Mandal)**
Testing Type	Manual Testing – Agile
Description	SVKM is a large-scale academic portal designed to manage end-to-end examination workflows. The system covers exam scheduling, completion tracking, script generation based on student attendance, allocation of scripts to examiners, mapping of new examiners, modification of schedule dates, scanning processes, allocation workflows, and score publishing across multiple marking stages (original marking, revaluation, etc.).
Roles & Responsibilities	➢ Tested e-Marking workflows where student answer booklets are uploaded and markers perform digital evaluation. ➢ Validated end-to-end process includes script upload, marker assignment, marking palette functionality, and score submission. ➢ Verified Quality Check (QC) configuration ensuring reviewer feedback is correctly triggered after marker submission. ➢ I tested scenarios with multiple markers and reviewers to confirm accurate script allocation and rescore handling. ➢ Reported defects related to score updates, reviewer assignment conflicts, and QC workflow mismatches in JIRA/TFS. ➢ Ensured cross-browser compatibility of e-Marking screens across Chrome, Firefox, and Edge. ➢ Collaborated with developers and business analysts to reproduce issues and validate fixes in subsequent builds. ➢ Conducted regression testing after hotfixes to confirm stability of marking and review workflows. ➢ Supported UAT with stakeholders by validating large-scale exam scripts and reviewer feedback cycles.

Competencies

- Excellent Problem solving skills.
- Good Communication and Presentation skills.
- Teamwork & collaboration
- Time management
- Task prioritization
- Knowledge of Software Development Life Cycle (SDLC), Testing methodologies and techniques.
- Analyze project issues and queries to determine root cause and determine appropriate solution
