www.linkedin.com/in/sahil-ambekar

PROFESSIONAL SUMMARY

Result-oriented QA Tester with 3.10 years of experience in manual and automation testing, specializing in TOSCA test automation and defect management. Proven expertise in designing, executing, and optimizing test cases to ensure high-quality software delivery. Strong collaboration skills with developers, business analysts, and client stakeholders to meet project deadlines and deliver reliable solutions.

CORE COMPETENCIES

- Automation Testing – TOSCA Commander, XScan, TDM, TDS
- Manual Testing – Functional, Regression, Sanity, Smoke Testing
- Defect Tracking & Management – JIRA, qTest
- Testing Methodologies – SDLC, STLC, UAT Coordination
- Soft Skills – Problem-Solving, Communication, Team Collaboration

PROFESSIONAL EXPERIENCE

Capgemini, India

Senior Analyst / Analyst

April 2022 – Present

Project: Universal Music Group (May 2025 – Present)

- Developed and maintained **automated test scripts** using **TOSCA** for SAP GUI and SAP Fiori applications across multiple business modules (e.g., Finance, Procurement, Sales).
- Created **modular and reusable test cases** using TOSCA's **Model-Based Test Automation** approach to ensure scalability and maintainability.
- Designed and executed **data-driven test scenarios** using TOSCA TestCase Design to validate dynamic business processes.
- Performed **functional, regression, and smoke testing** across SAP applications to ensure system stability and performance.

- Integrated test execution with qTest for defect tracking, reporting, and resolution in collaboration with development and QA teams.
- Participated in **Agile ceremonies** including sprint planning, daily stand-ups, and retrospectives to align testing efforts with sprint goals

Project: Zebra Technology (May 2024 – May 2025)

- Designed and executed end-to-end automation test cases using TOSCA.
- Integrated multiple environments with TOSCA for daily executions and reporting.
- Created and maintained regression and functional automation suites.
- Validated test data and ensured environment readiness before execution.
- Collaborated with cross-functional teams to troubleshoot and optimize automation processes.

Project: CISCO ITAM – IT Asset Management (July 2023 – Feb 2024)

- Performed manual testing for web applications and documented test scenarios.
- Coordinated with clients during UAT to validate business requirements.
- Reported and tracked defects, ensuring timely resolution and retesting.
- Conducted sanity and smoke testing for multiple releases.

Project: CISCO – Salesforce Rule Validation (Nov 2022 – July 2023)

- Manually validated business rules and conditions for Salesforce CRM.
- Verified developer-implemented logic against client-provided validation criteria.

EDUCATION
