PROFESSIONAL SUMMARY

Software Test Engineer with **3+ years of experience** in **Manual and Automation Testing** using **Selenium WebDriver and Java**. Experienced in completing **Black box, Functional, Non-functional, Smoke, Sanity, Regression, Re-testing** tests and **defect tracking using JIRA**. Proficient in writing test cases, executing automation scripts, and ensuring high-quality software delivery. Strong expertise in **SDLC, STLC, Agile/Scrum methodology**, and **BDD framework using Cucumber**.

PROFESSIONAL EXPERIENCE

Company Name – Infosys ltd (India) ***-April 2022 to June 2025***

- Extensive experience in **Manual** and **Automation Testing** using **Selenium.**
- Strong experience in the entire **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC)** and specialized in **Validation**.
- Experience in **Agile project methodology** and **test management**.
- Expertise in **writing and executing the test cases**.
- Exposure to **bug management** tool like **JIRA**
- Proven work experience in **software quality assurance.**
- Strong knowledge of software **QA** methodologies, test lifecycles, defect lifecycles, tools and processes.
- Used MySQL as front end database utility tool to perform **database** testing.
- Proficient in **designing test cases** by using **test case design techniques.**
- Experience of **Automation Testing** with the help of **Selenium WebDriver** through **core JAVA**.
- Good experience of **OOPS concepts, Collection framework, Arrays and String Class in JAVA.**
- Knowledge in **Core java** concepts.
- Experience using **testing framework** such as **Cucumber**.
- Expertise in locating elements using **XPATH** and **CSS**.
- Handling **Defect meetings.**
- Have worked extensively on testing life cycle and defect life cycle.
- **Manual test case design, test case execution. [Retest, Integration test, Regression test, System test, UAT test, S moke test, Sanity test].**
- Identification and preparation of **automation test scripts** for in scope automation test requirements.
- **Have experienced in BDD Framework**
- Experience working in an **Agile** / **Scrum** development process.
- Experience in API testing using **Postman** tool.
- Prepared **Traceability matrix** to map use case and Test Case.
- Worked in **Agile/Scrum** environment and participated in daily stand-ups and sprint meetings.

PROJECT DETAILS

Project Name: Card Factory
Client: Sportswift Limited (UK)
Domain: Retailer

Roles and Responsibilities:

- Analyzing & validating the completeness of business requirements.
- Generating the Test scenarios and Test cases.
- Performed Smoke, Functional, System Integration, Retesting, Regression testing.
- Generating **Regression** test scripts by extracting the requirements that need to be tested from available documentation.
- Developed **Automation Test Scripts**.
- Retesting defect fixes on each release build.
- Creating POM (page object model), feature files for the framework.
- Experience in implementation of **Cucumber framework** with **Webdriver.**
- Performed parameterization to implement **BDD framework**.
- Conduct Internal Test Case **Peer Reviews.**
- Participated in weekly status meetings with the team, developers to discuss open issues and communicating with team.
- Propose improvements to current practices ensuring that approved enhancement are fully implemented and the repeat errors are eliminated.

Project name: Cortex EDI Practice Management software
Client: Cortex EDI, USA

Roles and Responsibilities:

- Requirement Analysis: Analysing the requirements and communicating with BA team for better understanding of requirements.
- Responsible for testing deliverables, prioritizes and monitors activities to meet such dates for individual assigned features.
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Performing Functional Testing, Regression Testing.
- Coordination with developers in each node of the projects within the flow.
- Generating the test cases according to the requirements.
- Execution of the test cases.
- Generate the bug report

KEY SKILLS:

- Programming Languages: Java
- Automation Tools: Selenium WebDriver
- Frameworks: Cucumber (BDD), Page Object Model (POM)
- Testing Types: Manual Testing, Automation Testing, Regression, Sanity, Smoke
- API Testing: Postman
- Defect Tracking: JIRA
- Databases: MySQL, SQL Server
- Methodologies: Agile, Scrum

EDUCATION

Bachelors of Engineering (Electrical Engineering) –Savitribai Phule Pune University
Year of passing: 2019

Diploma in Electrical Engineering –Government Polytechnic, Karad
Year of passing: 2016
