Phone no.: +91- 8884373895| **Email ID**: nagarajmeghana19@gmail.com | **LinkedIn**: Meghana BN

PROFESSIONAL SUMMARY

Software Test Engineer with **4+ years of** experience in **manual** and **automation testing,** with good knowledge of **Selenium Web Driver** and **Core Java**. Skilled in **designing** and **executing robust test strategies, frameworks, and test cases** to ensure software quality and client satisfaction**.** Proficient in **functional, regression**, and **integration testing,** with hands-on knowledge of the **SDLC, STLC,** and **Agile methodologies**.

TECHNICAL SKILLS

- **Methodologies and Project Management:** Software development life cycle (SDLC), Software test life cycle (STLC), Defect/Bug Life Cycle, Agile methodologies, Agile Scrum
- **Testing And Frameworks:** Functional Testing , Regression Testing , Retesting , Sanity Testing , Smoke Testing, Page Object Model.
- **Automation Tools:** Selenium Web Driver, TestNG. Cucumber.
- **Bug Tracking Tools**: Jira, YouTrack, Huly.
- **Test Case Management Tool:** KIWI.
- **Built Tools:** Maven
- **Version Control:** Git, Git Hub
- **Languages:** Java
- **Operating System:** Windows, Linux
- **Soft Skills:** Strong Communication & Collaboration, Problem-Solving, Time Management, Team Leadership Potential.

PROFESSIONAL EXPERIENCE

INFIBEAM AVENUES Ltd. **August 2021- Present**

Project 1: Rediff.com (Current Project)

Description: Worked on **Rediff Pay**, **Freemail**, **Pro Mail**, **Admin Panel**, and **Rediff Money** enhancements involving **mobile and web testing**, contributing to test planning, execution, and release communication.

Responsibilities:

- Designed and executed **test plans and test cases** for multiple features.
- Performed **mobile app testing** for Rediff Pay and **web/mobile testing** for Freemail and Pro Mail.
- Performed **regression, functional, and integration testing** to ensure stability and accuracy across releases.
- Logged and tracked defects in **Jira** and **Huly**.
- Tested changes in **CUG** and prepared **sign-off release notes** for mobile testing.
- Collaborated with **cross-functional teams** during Agile/Scrum ceremonies, serving as a **key contact for communication** and release coordination to improve defect resolution and delivery timelines.

Project 2: Reliance JioMart Seller Portal (May 2024 – May 2025)

Description: Worked on **CMS** and **Non-CMS modules**, contributing to **Fulfillment, Settlement, Registration**, and **Platform changes**. Led **QA activities**, coordinated with **cross-functional teams**, and ensured **timely and quality releases**.

Responsibilities:

- Designed and executed **test cases** for CMS and Non-CMS modules using **KIWI** TCMS.

- Developed and maintained **automation test scripts** using **Selenium WebDriver** and **TestNG** to validate functionality and performance.
- **Logged and tracked defects** in **Huly** and collaborated with developers for timely resolution.
- **Created orders and validated APIs** using **Postman** for Fulfillment and Settlement modules.
- Conducted **scrum calls**, provided **feature demos**, and coordinated with **cross-functional teams**.
- Coordinated with **Product Managers** and **External Teams**, proposed **QA process improvements**, and acted as **team lead and team player** to ensure smooth collaboration and delivery.

Project 3: IB Procurement & AI Tool (Jan 2024 – April 2024)

Description: Worked on **IB Procurement** and an **AI-based project**, contributing to **prototype development, testing, and data generation** for client demonstration and AI model training.

Responsibilities:

- Designed and tested **prototype features** for client demos to showcase project capabilities.
- Developed **automation scripts** to run **daily sanity testing** for IB Procurement.
- Generated and validated **documents and data sets** to **train the AI tool** for accurate output generation.
- Conducted **client demos** for features including **CMS, Marketplace, BID, Fulfillment, and Payment**, ensuring project readiness for review.
- Provided **feedback and insights** to improve AI accuracy and system functionality.

Project 4: GEM – Government e-Marketplace (Aug 2021 – Dec 2023)

Description: Worked on multiple modules including **CMS, Marketplace, Fulfillment**, and **BID**, contributing to **manual and automation testing** and cross-functional collaboration.

Responsibilities:

- Designed and executed **manual test cases** and **logged defects** in **YouTrack**, collaborating with developers for timely resolution.
- Developed full **end-to-end automation scripts** for daily sanity testing of **CMS** and **Marketplace** modules using **Selenium Java**.
- Performed **production sanity** for Marketplace after each deployment.
- Participated in **demo calls** and coordinated with **external teams** to resolve issues.
- Provided **knowledge transfer (KT)** sessions to new joiners including **QA, Developers**, and **PM's**.
- Acted as a **key team member**, ensuring smooth collaboration and timely delivery.

CERTIFICATION

- Scrum Master Certification – Coursera (SkillUp EdTech) (2025).
- Masterclass: Software Testing with Jira & Agile – Udemy (2024).
- Selenium WebDriver + Java – Udemy (2022).
- Software Testing – QSpiders (2021).

EDUCATION

- B.E(Information Science Engineering) RR Institute Of Technology(VTU) **2016-2021**
- PUC(PCMC) Seshadripuram PU College **2014-2016**
- SSLC - Children's Education Center **2014**
