Lina Patil

Software QA Engineer

Career Objective

Software QA Engineer with 3+ years of experience in manual and automation testing of web and mobile applications. Skilled in Selenium, Appium, TestNG, JMeter and Postman. Experienced in SDLC/STLC, designing and executing test cases, building automation frameworks and integrating with CI/CD pipelines to deliver high-quality releases on time.

Professional Experience

Software QA Engineer

Atreya Innovations Pvt. Ltd., Pune — Mar 2023 – Present

Products: Nadi Tarangini — Atreya Innovations Pvt. Ltd. (Healthcare domain)
Description: Integration of traditional Nadi Pariksha (pulse diagnosis) with modern technology for accurate health assessments. Available as mobile and web application.

Roles and Responsibilities:

- Executed parallel tests across Chrome, Firefox and Edge; debugged and fixed automation issues.
- Designed and implemented automated test scripts using Selenium and Appium, applying Page Object Model and TestNG frameworks.
- Performed mobile automation testing via Appium and web service testing with Postman.
- Conducted load and performance testing of APIs using Apache JMeter; delivered detailed performance test reports to the development and management teams.
- Wrote high-quality test cases using test design techniques and logged defects in JIRA; classified bugs based on severity and priority.
- Used Maven for build management and integrated automation suites with Github CI/CD pipelines.
- Performed database testing using MySQL.
- Collaborated with developers, participated in daily/weekly stand-ups, and prepared transition documents for team members
- Tested the application using LambdaTest platform for cross-browser and cross-platform compatibility.
