PROFILE SUMMARY

➢ I am 2.5 years experienced in Quality Engineering and Assurance of Manual Testing and Automation Testing. Eagerly looking for a platform where I can give my best and work with dedication to give a kick start to my career and to build my career in IT and to explore my knowledge, skills and expertise to grow personally as well as professionally through challenging assignments/projects.

➢ Experience in various testing methodologies with strong foundation in Manual and Automation Concepts. Having hands-on experience in methodologies like Regression Testing, Functionality Testing, sanity Testing, Smoke Testing, Agile, Performance Testing, Integration Testing, System Testing .

➢ Skilled in grasping Software Requirement specifications and establishing scenarios required for validation of client requirements and Excellent cross domain knowledge on healthcare and Test Sigma tool.

➢Good knowledge in all phases of Software Testing Life Cycle and Software Development Life Cycle.

➢ Having Good Knowledge on Agile Methodologies.

➢ Expertise in Writing, Execution and Reviewing Test Cases,

➢ Defect Tracking and Reporting.

➢ Capable of Working under great pressure and tight deadlines.

➢ Involved in Daily Stand-up meetings, Scrum meetings, Demo, Sprint Review, Retrospective meetings.

➢ Involved in Test Strategy and Test Plan creation and documentation.

WORK EXPERIENCE

1) NTT DATA GLOBAL DELIVERY SERVICES, Bangalore

Designation: Information Technology Senior Associate
May 2022 - Sep 2023

Project: Healthcare and Radiology App management

Facility: NTT DATA- Change Healthcare Technologies (IWCS)

Testing Strategy: Manual and Automation

Role: Software Tester

Team size: 11 Members Team

2)Test Sigma software solutions, Bangalore

Designation: Software Test Engineer
March 2024-Dec 2024
Project: Test Sigma
Testing Strategy: Manual and Automation
Role: Software Tester
Team size: 8 Members Team

1)Project Description:

Change Healthcare Radiology Solution is a Picture Archiving and Communication System (PACS). This technology stores, transmits, manages, and displays medical images for clinicians and clinical staff. Additionally, this technology enables users to visualize and analyze diagnostic images based on the user`s specialty. This technology allows users to access patient images from both their mobile devices, as well as desktop client.

IWCS involves PACS, DICOM, HL7 concepts with graphical user interface to bring the state-of-the art Radiology Information System (RIS) which provide complete functionality for radiologist, technologists, and administrative staff to manage diagnostic process.

2)Project Description:

Test Sigma is a low-code, AI-Powered test automation platform designed to enable teams to easily create, execute, and manage automated tests for web, mobile, and API applications using simple English commands, allowing for efficient testing across various browsers, devices, and operating systems, while seamlessly integrating with CI/CD pipelines for continuous testing in agile environments; key features include its natural language processing (NPL) based test script generation, visual testing capabilities, and AI-driven test maintenance to identify and fix unstable elements in automated tests.

Roles and Responsibilities:

➢ Experienced in performing regression tests to validate software changes and ensure existing functionalities are not impacted.

➢ Proficient in creating detailed test cases and executing them accurately to identify defects and ensure software functionality.

➢Ability to develop comprehensive test cases, strategies, and test scenarios based on project requirements and industry best practices.

➢Understanding the application KT and Requirement analysis for executing test cases

➢Executing test cases and preparing Daily execution reports.

➢Defect logging and tracking on-time escalations.

➢Reviewing test cases prepared by peers.

➢Documentation support

Tools:

➢Testing & Automation Tools: Team Foundation Server, Selenium, Eclipse, JIRA, X-Ray, My-SQL ,Test sigma

ENVIRONMENT:

➢ Primary Worked on virtual servers and workstations.

➢ Worked on All-in-one servers and distributed environment.

➢Test Sigma automation testing tool that can be used variety of test environments including security, performance, beta and user acceptance testing.

KEY SKILLS & EXPERIENCE

➢ Primary skills include: Manual Testing, MySQL, Java , Automation and JIRA, Agile Methodologies, Defect Lifecycle, STLC, System Testing, Testing Tools, Exploratory Testing, Acceptance Testing, Black box Testing, Regression Testing, Software Testing, Oral communication, Test case Development and Execution.

➢ Secondary Skills: Microsoft word, Excel

HIGHER EDUCATIONAL QUALIFICATION

Graduation:

➢Bachelor of Engineering (BE): PES Institute of technology and management (EEE) 2017- 2021 (60%)

➢Diploma: VISSJ Government polytechnic (EEE) 2014-2017 (75%)

➢High School: 2012-2014 (85%)

CERTIFICATIONS

➢ Professional Software Testing Specialist From Q-spider, Bangalore

➢NTT DATA Healthcare Domain Certification

➢NTT DATA Certified Test Engineer program, QAT program, Bronze, Silver, Gold level Certification.

➢TEST SIGMA Manual and Automation Certification.
