SHIVANAND BJ

Associate Integration Analyst

Vijayanagar, Bangalore 560040 ■ 8123202821 ■ janagoudshiva@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Integration Analyst / Manual Testing with 3.6+ years of experience in system integration, SIT/UAT testing, and defect management across Smart City, ICCC, and Public Safety platforms. Currently working onsite at Abu Dhabi Civil Defence (ADCDA) for SIT activities. Experienced in Readiness applications, GIS, IoT Ops, ESB, NiFi, SSO, Staff Planning, and vendor integrations. Strong at validating end- to-end workflows, identifying functional gaps, and coordinating with multi-vendor and cross-functional teams.

WORK HISTORY

ASSOCIATE INTEGRATION ANALYST 11/2023 to Current
TRINITY MOBILITY PVT LTD, Bangalore

- Currently working on-site at Abu Dhabi Civil Defence (ADCDA), Abu Dhabi, supporting System Integration Testing (SIT) for Fire & Emergency Readiness platforms.
- Participated in UAT demo and validation activities for the Mumbai–Pune Express Highway (MPEH) project, including stakeholder walkthroughs and functional demonstrations.
- Performed end-to-end **functional**, **regression**, **sanity**, **smoke** and integration testing across applications such as Readiness, GIS, IoT Ops, SSO, Staff Planning, Workforce, CD Dispatcher, and ICCC.
- Validated API integrations (REST/SOAP), payload structures, optional parameter handling, and vendor response mapping.
- Coordinated with ESB, backend, frontend, IDAM, and vendor teams to troubleshoot SIT and production issues.
- Supported SIT, UAT, and production environments, including data onboarding validation and post-deployment verification.
- Prepared high-quality defect reports with clear scenarios, observations, expected results, and business impacts.
- Applied hands-on experience with advanced technologies, including Kafka, Redis, and NIFI, enhancing data processing efficiency and system performance.

ASSOCIATE CUSTOMER SUPPORT 05/2022 to 07/2023
Tech Mahindra, Pune

- Assisted customers via chat, and email to address and resolve their issues promptly and effectively.
- Demonstrated strong verbal and written communication skills in interactions with customer, ensuring clarity and understanding.
- Successfully managed data entry tasks simultaneously, improving efficiency in client support.
- Consistently maintained a high level of comfort while working in an office environment.
- Took a proactive approach to prioritize customers' needs and respect their time.

SITE ENGINEER 08/2020 to 04/2022
Right Designs, Bengaluru

- This work was mainly based on civil engineering which include planning, material management, labor management and all other works related to field work.
- I have utilized this opportunity to expose myself to field work.

- Led and managed multiple civil engineering projects from conception to completion.
- Coordinated with project stakeholders, including clients, architects, and contractors, to ensure project goals and deadlines were met.
- Oversaw on-site construction activities, ensuring adherence to project specifications, timelines, and safety standards.
- Conducted regular site inspections to monitor work progress, quality, and compliance with engineering standards.
- Contributed to the design and planning phase by providing technical input and feasibility assessments.

EDUCATION

Bachelor of Engineering (B. E) : **06/2019**
APS College of Engineering - Bangalore
