Professional Summary

Software Testing Engineer (SDET) with **2+ years** of experience in **Manual Testing, Test Automation, and API Testing across web and mobile applications**. Strong **hands-on experience with Playwright automation framework**, end-to-end regression automation, **REST API validation using Postman**, and **CI/CD pipeline integration using GitHub Actions.** Proficient in **test case design**, **defect management**, **Agile** QA lifecycle, and delivering stable, scalable, high-quality software releases.

Work Experience

BOMBAY SOFTWARES | Software Testing Engineer (SDET-1) | DEC, 2023 – Jan, 2026

• Designed and executed comprehensive **functional, regression, smoke, sanity, and end-to-end test cases across web and mobile platforms.**
• **Automated critical regression and smoke test scenarios** using **Playwright** to ensure application stability
• Developed reusable **automation framework** components using **Page Object Model (POM)**
• **Validated REST APIs** using **Postman** including request payloads, responses, and status codes
• Integrated automated test execution into **GitHub Actions CI/CD pipelines** for continuous quality validation
• **Logged, tracked, and verified defects** using **Mantis** ensuring complete **defect lifecycle management**
• Performed **UI testing, data validation, and workflow verification** to maintain product quality
• Collaborated with **cross-functional agile teams** during sprint planning, stand-ups, and retrospectives

Technical Expertise

Manual Testing & QA Fundamentals

- Requirement Analysis & Understanding
- Test Scenario & Test Case Design
- Functional, Regression, Sanity & Smoke Testing
- End-to-End Testing
- Defect Reporting, Re-testing & Validation

Automation Testing

- Playwright (Node.js or Python)
- Page Object Model (POM) Implementation
- Automation Test Design & Execution

API Testing

- Postman – Manual API Testing
- Request/Response Validation & Status Codes

Tools & Process

- Test Management & Defect Tracking: Mantis, TestLink
- CI/CD Automation: GitHub Actions (test execution & monitoring)
- Methodologies: STLC, SDLC, Agile

Education and Certifications

- Bachelor's Degree in Agriculture, MPKV, Rahuri (2022), 8.21 CGPA
- Playwright Python and Pytest for Web Automation Testing – Coursera (2025)
- Selenium WebDriver Certification – Java by Kiran Academy
- Core Java for Beginners – Java by Kiran Academy
