PROFILE SUMMARY

- QA Engineer with 2 years of experience in manual and automation testing across mobile and web applications.
- Hands-on experience in test automation using Python, Selenium WebDriver, Pytest, and Page Object Model (POM) for web application testing.
- Strong expertise in functional, regression, smoke, exploratory, and UAT testing, with end-to-end involvement in test case design, execution, defect tracking, and release validation.
- Utilized AI tools to generate test cases and identify edge scenarios, improving test coverage, scenario quality, and test planning efficiency.
- Experienced in API testing using Postman, analytics validation, SDK verification, performance checks, and device coverage testing for mobile applications.
- Familiar with CI/CD concepts, Jenkins-based build validation, and collaborating with cross-functional teams (developers, producers, leads, and managers) to deliver high-quality, stable releases.

TECHNICAL SKILLS

- **Programming Languages:** Python
- **Automation Tools & Framework:** Selenium WebDriver, Pytest, Page Object Model (POM)
- **API Testing:** Postman, Status Code & Response Validation
- **QA Practices & Methodologies:** Test Planning, Test Case Design & Execution, Defect Life Cycle, Release Testing, SDLC, STLC, Agile / Scrum
- **Testing Types:** Automation Testing, Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Exploratory Testing, UAT Testing
- **CI/CD & Version Control:** Jenkins (Basic – Build Verification, Pipeline Awareness), Git (Basic)
- **Database Management:** MS SQL
- **Test Management & Defect Tracking:** Jira, Monday.com
- **Analytics, SDK & Platform Validation:** Firebase Crashlytics, Looker, AppsFlyer, SDK Integration & Verification, Analytics Validation
- **Tools & Platforms:** Synology, TestFlight, App Store Connect, Google Play Console
- **Soft Skills:** Attention to Detail, Problem Solving, Cross-functional Collaboration, Communication, Adaptability

PROFESSIONAL EXPERIENCE

Kwalee, Bengaluru, India

QA Tester- Manual & Automation **March 2024 - Present**

- Performed end-to-end QA activities including test planning, execution, regression, and release validation.
- Designed and executed manual test cases for mobile and web-based applications.
- Automated smoke and regression test scenarios using Python, Selenium WebDriver, Pytest and POM.
- Executed automation scripts across multiple environments and analyzed test results.
- Automated over 20% of test cases using Selenium and Python, resulting reduction in test cycle time.
- Performed basic API testing using Postman to validate requests, responses, and status codes.
- Supported CI/CD build verification and release validation using Jenkins.
- Validated analytics events, crash reports, SDK integrations, and monetization flows.
- Logged, tracked, and prioritized defects using Jira with proper severity and priority.
- Actively collaborated with developers, QA leads, and managers during defect triage and sprint planning.
- Participated in Agile ceremonies including daily stand-ups, sprint planning, and retrospectives.
- Mentored junior QA members on test execution, exploratory testing, and defect reporting best practices.

Automation Project
Web Application Test Automation
Tools: Python, Selenium WebDriver, Pytest, Page Object Model (POM)

- Automated core workflows such as login, navigation, and form validations
- Developed reusable page classes following POM principles.
- Implemented Pytest fixtures for setup and teardown.
- Added assertions to validate UI elements and functional flows
- Executed automated regression suites and analyzed failures.
- Converted high-priority manual test cases into automated scripts to reduce manual effort
- Automated the generation of test scenarios using Python and OpenAI, significantly reducing manual effort and time required for test planning.
- Supporting unit and integration testing efforts in coordination with developers to ensure smooth functionality and defect free deliverables.

EDUCATION

Bachelor's Degree, Computer Science and Engineering **Aug 2016 -- May 2020**
Reva University, Bangalore, India | GPA (7.8)

Class 12 **June 2015 -- Mar 2016**
Sri Chaitanya Junior College, Vijayawada, India | GPA (9.27)

Class 10 **Aug 2013 – Apr 2014**
Deepti High School, Hindupur , India | GPA (9.8)
