PROFESSIONAL SUMMARY

Experienced **developer & team lead** with over 8 years in **front-end & back-end** development. Proficient in **Node.js, Express.js, Angular, React, PHP, CodeIgniter, Laravel,** and databases like **MySQL, MariaDB, MongoDB and PostgreSQL. Skilled in HTML, Bootstrap, CSS, jQuery, JavaScript, TypeScript and JSON**. Expertise in **API development**, testing, and deployment tools **(CI/CD, SonarQube**). Proven ability to lead and mentor development teams, deliver projects on time and within budget, and ensure code quality.

EDUCATION

B. Tech (CSE) **MAHARSHI DAYANAND UNIVERSITY (2016)**

WORK HISTORY

- **Wattmonk Technologies** | Technical Lead | Dec 2024 - Present
- **Streams Solutions Pvt. Ltd.** Team & Technical Lead | Aug 2023 - Dec 2024.
- **Tvisha Technologies** | Senior Software Developer | July 2021 - July 2023.
- **DesignX Pvt. Ltd** |Senior Web Developer | November 2020- June 2021.
- **Sahyog Software Consulting** | Web Developer | February 2017 - October 2020.

CERTIFICATIONS

- **PHP Certification Training** - Ducat, 2019.
- **JAVA Certification Training** - Ducat, 2019.
- **Querying Data with SQL -** Analsytmate , 2019

TECHNICAL SKILLS

- **Programming Languages:** Node.js, Express.js, Angular, React, PHP, jQuery, JavaScript, TypeScript (including ES6+), HTML & CSS
- **Databases:** SQL Server, MySQL, PostgreSQL, MariaDB, RDBMS, RDS, MongoDB
- **Frameworks & Libraries**: Laravel, CodeIgniter, Angular, Bootstrap, React Js & Angular Js **CMS**: Moodle LMS, OpenCart
- **Development Tools:** AWS, Git, Postman, IDEs (PhpStorm, Eclipse, NetBeans, Visual Studio)
- **Other**: CI/CD, Redis, Web Socket, APIs (Microsoft GraphQL, OneDrive, Facebook & Google login) **Integration** : Boomi, NetSuite

WORK EXPERIENCE

Team & Technical Lead — Wattmonk Technologies (Gurugram) (From Dec 2024 to Current)

- **Directed team** in designing and implementing software solutions using **Angular, React, Node.js, Express.js, PHP.**
- **Provided technical expertise, mentored developers**, and ensured best practices in **HTML, CSS, JavaScript, jQuery, and Bootstrap**.
- **Led code reviews**, identified and resolved technical challenges, and see to it code quality using **SonarQube.**
- **Map out software architecture solutions,** identifying technical requirements and constraints, and recommending frameworks, tools, and technologies to meet project goals.
- Worked with **Business System Analysts and Product Owners** to understand requirements and translate them into technical solutions
- **Led Agile** sprint planning, daily stand-ups, and retrospectives; used JIRA for backlog management, **sprint tracking**, and reporting.
- **Make certain that technical documentation, including design documents**, system architecture diagrams, and code documentation, is accurate, up-to-date, and accessible to team members.
- **Reported project status to stakeholders, managed expectations**, and make sure project alignment with business objectives.
- Built and maintained **back-end systems using Node.js, Express.js, and PHP frameworks** for server-side functionality.
- **Designed and developed user interfaces** using **Angular framework and React JS library** to responsive web applications.
- **Architected** and be responsible for robust **PostgreSQL , Mongo DB and MySQL databases** that boosted data storage efficiency by 30% and improved retrieval times by 50%, significantly enhancing operational productivity.
- **Implemented API development** and integration using **Microsoft GraphQL APIs, OneDrive APIs, and Pay Gateway Integration**.

Team & Technical Lead — Streams Solutions Pvt. Ltd (Gurugram) (From August 2023 to Dec- 2024)

- Led development of web solutions using **Angular, React, Node.js, Express.js, PHP, CodeIgniter, and Laravel.**
- Mentored team, ensured best practices in **HTML, CSS, JavaScript, jQuery, and Bootstrap.**
- Conducted code reviews and maintained code quality using SonarQube.
- Designed software architecture, recommended tools, and defined technical requirements.
- Maintained accurate technical documentation and system diagrams.
- Aligned project delivery with business goals and reported progress to stakeholders.
- Built scalable back-end systems with **Node.js, Express.js, and PHP frameworks.**
- Developed responsive UI with Angular and React.
- Optimized **PostgreSQL/MySQL databases**, improving performance and storage efficiency.
- Integrated APIs including Microsoft GraphQL, OneDrive, and Payment Gateways.
- Worked with tools like **Postman, Thunder Client, HeidiSQL, PhpStorm, Eclipse, and Visual Studio.**

Senior Software Developer — Tvisha Technologies (Hyderabad) (From July 2021 to July 2023)

- **API Development:** Built and optimized mobile APIs to meet user and project requirements, ensuring seamless integration with front-end and back-end systems. Uphold API security and data protection.
- **Back-End Development**: Developed and reconstructed back-end systems using Node.js, Express.js, Laravel, and CodeIgniter 3 & 4 for efficient data processing and server-side functionality.
- **Front-End Development:** Built user interfaces using Angular and React to create responsive web applications.
- **Engineered and optimized** PostgreSQL and MySQL databases, enhancing data retrieval speed by 40%.

Senior Software Developer — DesignX Pvt (Noida) (From Nov 2020 to Jun 2021)

- Write clean and concise code in Node.js, Express.js, Angular, PHP, Laravel,CodeIgniter, Moodle, OpenCart, MySQL, PostgreSQL, and JavaScript. Involved in database design and implementation using PostgreSQL and MySQL.
- Experienced in backend technologies including Node.js, Express.js, PHP, MySQL, and PostgreSQL.
- Maintain existing codebase, including troubleshooting bugs and adding new features.
- Architected comprehensive software solutions, meticulously identifying technical constraints and project goals; recommended cutting-edge frameworks and technologies, which decreased deployment times by 25% and enhanced system reliability by 40%
- Analyze, design, code, debug, test, document, and deploy system changes.

Web Developer — Sahyog Software Consulting (Noida) (From Feb 2017 to Oct 2020)

- Collaborate with designers to translate UI/UX designs into functional code. Write clean, efficient, and well-documented PHP code.
- Develop both front-end and back-end components of web applications. Optimizes website performance for speed and responsiveness.
- Develop responsive and interactive front-end interfaces using HTML, CSS, andJavaScript.
