PROFESSIONAL SUMMARY

- Dynamic and results-driven recruitment professional with 12+ years of experience specializing in US staffing, IT and non-IT recruitment, talent acquisition, talent sourcing, and staff augmentation.
- Bringing 12+ years of proven success in US recruitment, with additional 2+ years each in Latin America and European hiring landscapes.
- Led recruitment initiatives for U.S.-based roles while also supporting global hiring strategies, building talent pipelines across key regions including Europe (London), South Asia (India), and Latin America (Mexico, Costa Rica, Brazil, Colombia, Argentina, and Chile).
- Hands-on experience with Applicant Tracking Systems (ATS), Customer Relationship Management (CRM), and Vendor Management Systems (VMS), ensuring efficient recruitment workflows and accurate candidate tracking.
- Proven track record in hiring top IT talent for high-demand roles, including Software Engineers (Front-End, Back-End, Full Stack), Cloud Engineers (AWS, Azure, GCP), DevOps/Site Reliability Engineers, Data Scientists, AI/ML Engineers, QA Automation Engineers, UI/UX/Product Designers, Cybersecurity Analysts, SAP, and Technical Program Managers.
- Experienced in non-IT hiring for key operational and support roles such as Hardware Test Engineers, Supply Chain Analysts, Marketing Specialists, Executive Assistants, HR Business Partners, Procurement Analysts, and Logistics Coordinators—aligning talent with fast-paced team needs in both corporate and R&D settings.
- Skilled in handling recruitment for direct clients, state contracts, and implementation partners, supporting diverse hiring needs with precision and efficiency.
- Proficient in using JobDiva, Greenhouse, Magnit VMS, Wand, and Recruit Studio.
- Skilled in the full recruitment lifecycle, including sourcing, screening, and hiring for contract, contract-to-hire, and permanent roles.
- Strong expertise in hiring candidates for both IT and non-IT roles across various industries.
- Proficient in sourcing top-tier talent across platforms including Dice, Monster, CareerBuilder, Indeed, Naukri, LinkedIn, internal recruitment portals, and social media channels.
- Certified in Tech Recruitment from Naukri, Hirist.com, DevSkiller, and Great Learning, demonstrating expertise in modern hiring strategies and assessment methodologies.
- Experienced in recruiting for diverse roles on C2C, C2H, W2, and 1099 bases.
- Skilled in sourcing and placing candidates across various work authorization statuses, including U.S. Citizens, Green Card holders, and EAD (OPT, CPT, H4, and L2), as well as H-1B candidates.
- Strong understanding of various U.S. states and time zones, enabling effective coordination and scheduling across EST, CST, MST, and PST regions.
- Strong interpersonal skills with a proven ability to build and maintain relationships with clients, consultants, and vendors.
- Well-versed in advanced sourcing techniques, including X-ray search, to identify and engage passive candidates effectively.
- Experienced in creating recruiting ad posters and publishing them on LinkedIn and other professional platforms to attract top talent.
- Proficient in leveraging AI tools like ChatGPT for effective recruiting - enhancing sourcing strategies, candidate engagement, and process efficiency.
- Well-versed in remote work environments with a reliable home office setup, including high-speed internet and UPS backup.

PROFESSIONAL EXPERIENCE

MindSource / TekEssence Inc. (Remote)
Sr. Technical Recruiter (US, North America, Europe Recruitment) **July 2018 – Present**

- Manage permanent and contract positions by obtaining job orders from Account Managers and Client Managers.
- Experienced in both individual contribution and leadership roles—excelling in hands-on recruitment while also leading and mentoring a small recruiting team.
- Primarily focused on US staffing, while actively involved in global recruitment efforts, hiring candidates from London, offshore locations such as India, and nearshore regions including Mexico, Costa Rica, Brazil, Colombia, Argentina, and Chile.
- Successfully collaborated with direct clients including Apple Inc., Samsung, Meta, Joyent, Hogarth, IPSY, and Block.
- Experienced in handling both IT and non-IT recruitments, with a primary focus on full-time and W2 contract positions.
- Recruited for a wide range of IT and non-IT positions for top-tier clients like Apple and Samsung across the U.S., including roles such as Software Engineers, DevOps Engineers, Data Scientists, Cloud Engineers, QA Engineers, UI/UX Designers, Hardware Test Engineers, Supply Chain Analysts, and Marketing Specialists.
- Create and post job descriptions on various job portals.
- Source profiles using platforms such as Monster, Dice, Indeed, LinkedIn, and JobDiva.
- Conduct preliminary phone interviews to assess candidate availability, interest level, qualifications, and compensation expectations.
- Submit shortlisted resumes to client managers and coordinate interview schedules.
- Collaborate with HR teams to collect required documents for releasing Purchase Orders.
- Maintain close follow-ups with clients and candidates until positions are successfully filled.

Fusion Global Solutions (Chennai)
Sr. IT Recruiter **April 2016 – June 2018**

- Collaborated with direct client AMEX, various U.S. state clients, and implementation partner Infosys to fulfill technical hiring needs across multiple IT verticals.
- Demonstrated strong expertise in hiring candidates for both IT and non-IT roles across diverse industries.
- Worked closely with client teams to understand job requisitions, project timelines, and required skill sets, enabling the delivery of high-quality profiles quickly.
- Supported bench sales by marketing available bench consultants, identifying suitable opportunities, and submitting profiles through vendor networks and job boards.
- Developed and maintained a strong pipeline of qualified candidates for recurring skill sets and hard-to-fill roles.
- Managed end-to-end recruitment processes across different time zones, ensuring seamless coordination with clients and candidates in EST, CST, MST, and PST regions.

- Ensured compliance with client-specific processes and documentation standards during onboarding and background verification.
- Utilized ATS and CRM tools to track candidate activity, manage submissions, and maintain accurate recruitment records.
- Built strong relationships with hiring managers and project leads to improve requisition prioritization and accelerate response times.

ECS (Chennai)
US IT Recruiter **October 2014 – March 2016**

- Collaborated with direct client Bank of America, multiple state government clients, and implementation partners such as Infosys and TCS to fulfill critical hiring needs across a variety of technical roles.
- Effectively managed the full recruitment lifecycle—from understanding job requirements to onboarding selected candidates.
- Supported bench sales activities by actively marketing bench consultants, identifying relevant job openings, and building strong vendor relationships to ensure consistent placement opportunities.
- Worked with candidates across various visa statuses (H-1B, Green Card, EAD, and U.S. Citizens), ensuring compliance with tax terms (W2, C2C, and 1099).
- Coordinated interview schedules across multiple U.S. time zones (EST, CST, MST, and PST) and ensured timely follow-ups with both candidates and clients.
- Built and maintained strong relationships with hiring managers and vendor partners to understand priority roles and ensure timely submissions.
- Maintained an active pipeline of pre-screened candidates to quickly respond to high-volume or time-sensitive requisitions.
- Ensured a positive candidate experience through consistent communication, interview preparation, and timely updates.

Pragma Edge Inc. (Chennai)
US IT Recruiter **April 2014 – September 2014**

- Worked closely with direct client CVS Health, various state clients, and implementation partner Wipro to fulfill technical staffing needs for both contract and full-time positions.
- Actively sourced and marketed OPT/CPT candidates using platforms such as DesiOPT, building strong relationships with recent graduates and training institutes.
- Pre-screened candidates for technical fit, visa validity, and availability before submitting profiles to client requisitions.
- Maintained candidate pipelines for recurring roles in Java, .NET, QA, BA, and other entry- to mid-level technologies.
- Collaborated with senior recruiters and account managers to prioritize hot requirements and close open positions quickly.
- Managed applicant data using ATS platforms and Excel tracking sheets, ensuring accurate reporting of candidate status at every stage.
- Followed up with candidates post-placement to support onboarding, orientation, and gather initial engagement feedback.

Antal International Network (Bangalore)
Operations Executive **2013**

- Maintained and updated candidate and client records in Recruit Studio, ensuring accuracy and timely data entry for effective reporting and tracking.
- Screened candidate profiles based on job descriptions and gathered essential details such as availability, location, current employment status, and compensation expectations.
- Scheduled interviews with recruiting managers and followed up with both candidates and internal teams to confirm availability and gather feedback.
- Provided administrative support throughout the hiring process, including resume formatting, status tracking, and handling necessary documentation.
- Assisted recruiters by shortlisting relevant profiles and preparing detailed candidate summaries for client

submission.

- Helped streamline internal coordination between recruitment and operations teams to improve overall hiring workflows.
- Maintained confidentiality and ensured compliance standards while handling sensitive candidate and client data.
- Prepared weekly recruitment activity reports for internal review and process optimization.

ACHIEVEMENTS

- Successfully filled high-priority positions under tight deadlines.
- Recognized for maintaining excellent relationships with clients and vendors, resulting in repeat business opportunities.
- Improved submission-to-hire ratios through diligent candidate screening and follow-ups.
