RESUME

Kumaravel Thondaman

kumaravelthondaman@gmail.com | **7094511808** | Chennai, India

Professional Summary:

Results-driven **Node.js Developer** with 4.6 years of experience in building scalable, secure, and high-performance server-side applications. Skilled in backend development, API design, and database management using **Node.js, Express.js, MySQL, MongoDB, and PostgreSQL**. Experienced in developing RESTful and GraphQL APIs, optimizing queries, and integrating with frontend and mobile applications. Adept at collaborating with cross-functional teams to deliver business-critical solutions across domains such as **B2B communication, e-learning, and audit management**.

Technical Skills:

- **Backend: Node.js, Express.js**
- **APIs: REST, GraphQL**
- **Databases: MySQL, PostgreSQL, MongoDB, Oracle**
- **Testing & Tools: Jasmine, Git, Agile Methodologies**
- **Others (Basic Exposure): React.js, TypeScript, HTML, CSS (used for integration with backend)**

Professional Experience:

Senior Associate Software Engineer

Vthink Global Technologies, Chennai | Feb 2021 – Present

- Progressed from Trainee → Associate → Senior Associate Software Engineer.
- Designed and developed backend systems using **Node.js & Express.js**, enabling scalable and secure applications.
- Built and optimized **RESTful and GraphQL APIs** to streamline data access, reducing server response time by 25%.
- Improved **database query performance by 30%** across MySQL, PostgreSQL, and MongoDB.
- Implemented **role-based authentication and authorization**, strengthening data security.
- Collaborated with cross-functional teams to deliver backend solutions for **chat applications, e-learning platforms, and audit management systems**.
- Conducted unit testing using Jasmine, ensuring high reliability and reducing production bugs.

Projects

1. ChatFactory (Web-Based Chat Application)

Client: Pathfactory, USA | **Duration:** 2 years (Ongoing) | **Team Size:** 2

- Developed backend services using **Node.js** for real-time chat processing.
- Integrated **GraphQL APIs** for efficient data retrieval and reduced server load.
- Handled **scalability and multi-organization communication requirements**

2. Console and Campaign (E-Learning Platform)

Client: LRN Corporation | **Duration:** 1.6 years (Ongoing) | **Team Size:** 3

- Built **backend APIs with Node.js** for authentication, course management, and reporting.
- Designed **role-based access control** to manage user and admin permissions.
- Ensured **data integrity and security** across multiple systems.

3. ACRT (Audit Management System - Web & Mobile App)

Client: ACRT | **Duration:** 1 year (Ongoing) | **Team Size:** 5

- Developed backend modules in **Node.js** for audit tracking and reporting.
- Integrated a **real-time notification system** to improve audit progress visibility.
- Supported both web and mobile applications with REST APIs.

Education

- **M.Sc in Information Technology** – Alagappa University, Karaikudi **(2020) – 75%**
- **B.Sc in Information Technology** – J.J College of Arts and Science, Pudukkottai **(2018) – 77%**
- **Higher Secondary (12th)** – Government Higher Secondary School, Thirukkostiyur **(2015) – 70%**

Personal Details

- **Date of Birth:** 23rd Feb 1998
- **Languages:** English, Tamil
- **Marital Status:** Single
