Skills And Certifications

Frontend – HTML5, CSS3, JavaScript (ES6+), React.js, Vue.js, Pinia, Redux, TypeScript, Restful API integration, Element Plus
Backend - Node.js(express, koa), Golang, MongoDB, MySQL
Tools – Git, Jira, Docker, Firebase, Postman, AWS (S3, SQS, lambda)
Certifications – Web Designing Certificate Course

Professional experience

AvowESolutions - Software Developer, **MARCH 2024 - PRESENT**

- Migrated the login system from **Firebase to MongoDB**, implementing a **refresh token mechanism** to strengthen authentication security, and implemented **OAuth-based authentication** for secure and seamless user login.
- Upgraded **Node.js from v14 to v20**, updated backend modules, and integrated **MongoDB Atlas Search** to optimize query performance.
- Contributed to migration from **Vue 2 to Vue 3**, ensuring modernization, maintainability, and performance improvements.
- Developed and integrated a **dynamic field download feature** for secure, real-time data export.
- **Independently designed and developed two full-featured modules** from scratch, receiving direct appreciation for initiative and quality of work.
- Successfully identified and resolved multiple **security vulnerabilities**.

Freightify - Software Developer **AUG 2022 - DEC 2023**

- **Migrated legacy Admin modules from PHP to React.js**, improving UI responsiveness, maintainability, and enhancing user experience.
- **Optimized data entry process by creating a custom POST API router**; used Postman to manually insert bulk data, significantly reducing data insertion time and minimizing manual effort
- Successfully resolved vulnerability bugs

Freightify - Junior Software Developer **FEB 2022 - JUL 2022**

- **Developed a CRUD application** using **Node.js** and **MongoDB**, demonstrating backend development fundamentals.
- **Independently explored and gained hands-on understanding of** technologies, including **AWS S3**, **Redis**, **Node.js**, and **React.js**, expanding full-stack development knowledge beyond assigned tasks.

Education

Coimbatore institute of technology | Anna University **2019 - 2022**
Master of Computer Applications (MCA)

Ayya Nadar Janaki Ammal College| Madurai Kamaraj University **2016 - 2019**
Bachelor of Computer Applications (BCA)

Personal Projects

- **Packers and Movers App -** Developed an innovative **Android Studio application**, enabling users to book and manage moving services efficiently.
- **Online Voting System -** Built a secure and dynamic **web-based voting application** using **React.js** and **Node.js (Express)**
