VEENA V R

Data Analyst | BI Analyst | Business Analyst
Bangalore, India | +91 9980775276 | veenavr1603@gmail.com
LinkedIn:linkedin.com/in/veena-v-r | GitHub:github.com/veena-vr | Portfolio: Veena_Portfolio

Summary

Data Analyst with hands-on experience in SQL, Python, Power BI, and Excel. Skilled in ETL, KPI reporting, dashboard development, and business intelligence. Experienced in cleaning, analyzing, and visualizing data to generate actionable insights supporting strategic business decisions.

Skills & Tools

Programming & Databases: SQL (Joins, CTEs, Window Functions), Python (Pandas, NumPy), Jupyter Notebook
BI & Visualization: Power BI (DAX, Power Query), Advanced Excel (Pivot Tables, Lookups, Index-Match), Alteryx
Analytics & Methods: Data Cleaning, ETL, KPI Reporting, Dashboard Development, Data Visualization, Predictive Analytics, Statistical Analysis
Machine Learning: Classification & Clustering Models, Logistic Regression, K-Means, Hierarchical Clustering
Professional Skills: Data Interpretation, BI Reporting, Stakeholder Collaboration, Insight Presentation
Coursework: Data Collection, Data Governance, Data Analysis, Business Impact Analysis

Experience

Data Analyst Trainee — Project-Based Training (Jobaaj Analytics Program) | Jan 2025 – Oct 2025 | Remote

- Worked on real-world datasets (HR, Loan, E-commerce, Zomato, Sales) using **SQL, Power BI, Excel, and Python**.
- Processed and refined 10K–40K+ records through data cleaning, **EDA, KPI formulation, and ETL steps**.
- Constructed interactive **dashboards** and delivered insights using **Power BI, DAX**, and **data modeling**.
- Structured end-to-end workflows from **data extraction → transformation → visualization** for business reporting.
- Applied **SQL querying, DAX measures, Power Query, and Python automation** to solve business problems.

Data Science Intern — Take It Smart | Jun 2024 – Aug 2024 | Bangalore

- Investigated 284K+ transaction records to understand fraud patterns and data distribution.
- Engineered a balanced dataset using under-sampling and evaluated Logistic Regression performance on unseen data.
- Trained & validated **Logistic Regression model** to ensure reliable fraud-classification performance.
- Summarized risk findings and communicated data-backed recommendations for fraud mitigation.

Machine Learning Intern — Kakunje Software | Jul 2023 – Aug 2023 | Mangalore

- Performed **customer segmentation** using K-Means & Hierarchical Clustering on 50,000+ records.
- Cleaned, encoded, scaled, and explored data to prepare high-quality inputs for **clustering.**
- Identified **5 customer segments** using elbow & dendrogram methods for targeted marketing initiatives.

Projects

Consumer Pulse 360 – Purchase & Sentiment Intelligence Dashboard | Excel, Python, Power BI

- Analyzed 1,000+ transactions and 1,000 product reviews to segment customers, map purchase behaviour, and track category-level sentiment.
- Generated Python scripts using TextBlob (text analysis library) to classify review sentiment and built Positive/Negative/Neutral sentiment KPIs for product-level evaluation.
- Developed an **interactive data visualization** dashboard showcasing monthly sales trends, top categories, and sentiment-driven insights, enabling merchandising decisions.

Education

Bachelor of Engineering in Computer Science | *CGPA:7.3*
A J Institute of Engineering and Technology |*Mangalore, Karnataka* |Jan 2020 – Jun 2024

Certifications

- Top 5% Data Professional Certification | Pro5.ai | Oct 2025
- SQL Advanced Certification | HackerRank | Oct 2025
- Alteryx Designer Foundation Certification license | Alteryx | Jul 2025 – Jul 2027
- **Data Analytics Program** (Jobaaj Learning) | Sep 2024 – Present
- Power BI & Data Analytics Job Simulations – **PwC**, **Deloitte** (Forage) | May 2025–Jul 2025
