VIMAL R M C

Vimal2409it@gmail.com | +91-8838760423| LinkedIn: vimal-r-m-c-0735a8239 | GitHub: Vimal018

SKILLS

Programming: JavaScript, C++, Python, HTML/CSS, SQL, React.js, Node.js, MongoDB
Tools: Tailwind CSS, Git, Github, Prisma, VS Code, Postman, Internal AI Tooling

EXPERIENCE

Thanvi Technology **Madurai, Tamil Nadu**
Web Developer Intern *June 2024 – July 2024*

- Developed a real-time username availability checker using AJAX and JavaScript, enhancing form interactivity for user registration.
- Implemented product inventory logic for a basic e-commerce simulation, updating stock count dynamically based on purchases.
- Contributed to a face detection-based attendance system using Python, identifying challenges with liveness detection and image spoofing.

PROJECTS

MindScribe – AI Journal & Mood Tracker **Next.js, Prisma, PostgreSQL, Tailwind CSS, Clerk**
Full-Stack Developer *Apr 2025 – May 2025*

- Built a full-stack journaling platform that offers AI-driven sentiment analysis and emotion tracking based on user entries.
- Designed a clean, responsive mobile-first UI using Tailwind CSS and implemented secure authentication via Clerk.

Smart Farming Agricultural Assistant **TypeScript, React, Flask, Hugging Face API**
Team Lead *Feb 2025 – Apr 2025*

- Led the development of an AI-powered assistant for farmers, integrating crop disease detection using a vision model trained on 18k+ images.
- Implemented multilingual interface (English + 4 Indian languages) to support accessibility for rural farming communitites.
- Connected the React frontend with Flask backend to process image uploads and fetch real-time predictions using Hugging Face Spaces.

AI Chatbot for Health Guidance **TypeScript, JavaScript, MongoDB, OpenRouter API**
Solo Developer *Dec 2023 – Jan 2024*

- Created a chatbot interface that uses OpenRouter GPT API to deliver accurate and contextual health-related replies.
- Implemented JWT-based user authentication and stored chat history securely in MongoDB.
- Focused on improving the natural flow of responses through prompt design and session management.

ACCOMPLISHMENTS AND CERTIFICATIONS

- Published a technical paper titled *"AI-Powered Agriculture Assistant for Smarter and Sustainable Farming"* in the **International Journal of Advanced Research (IJAR), 2025**
- JavaScript Algorithms and Data Structures – **FreeCodeCamp**
- Back-End Development with Node.js –**IBM**
- Problem Solving (Basic) – **HackerRank**

EDUCATION

KLN College of Engineering **Tamil Nadu, India**
Bachelor of Technology: Information Technology **GPA 7.98**
