## PROFILE

Ruby on Rails Developer with 6 years of experience building robust web applications. Skilled in frontend technologies like HTML, CSS, JavaScript, and jQuery, with 1.5 years of focused front-end design experience. Experienced in version control systems, including SVN (4 years) and Git. Proven track record of delivering high-quality software solutions in agile environments at TCS for 7 years, excelling in both backend and frontend development,having basic knowledge of AI/ML.

## WORK EXPERIENCE

**Tata Consultancy Services LTD** 2016-DEC - 2024-DEC

- Collaborated with cross-functional teams to integrate frontend and backend functionalities, providing a seamless user experience.
- Leveraged frontend skills (HTML, CSS, JavaScript, jQuery) to enhance application interfaces and improve user engagement.
- Ensured version control integrity, maintaining SVN repositories for over 4 years while managing personal Git repositories for unofficial projects.
- Actively participated in code reviews, optimizing code quality and performance while mentoring junior developers.

## PROJECT DETAIL

**ION Digital Learning ( From 2017 — 2022)**
ION Digital Learning is a leading online education platform that offers a wide range of courses and certifications in various fields such as technology, management, and finance. The platform provides learners with a flexible and convenient way to acquire new skills and knowledge through online courses and interactive learning resources. My role at ION Digital Learning was to design and develop a new dashboard and email system for the platform. I also played a key role in developing and implementing APIs to enable seamless integration with third-party platforms and services
Designed, developed, and maintained scalable web applications using Ruby on Rails, implementing MVC architecture and RESTful APIs for efficient backend operations.

**DCR(Digital Class Room) ( From 2023 — 2024)**
Digital Class Room project is about making learning digital at primary level, where multiple subjects can be created according to requirements and then students can be made participants in those subjects through which they can study. Teachers can also do different types of activities like – posting

blogs, media and making quizzes and students can also participate in theseactivities. There is an option to hit a like or dislike button for these activities and these activities can also be commented. There is also an option for making online assessment and assignment for teacher. Students can submit assessments and assignments and Teachers can evaluate that and can publish scores based on preformance(Online assessment procedure). One more interesting feature of our platform issocial networking where any type of queries can be asked to your teachers and teacher will respond on those queries. Students can also interact with each other.

## SKILL

- Backend: Ruby on Rails, REST APIs, MVC architecture, ActiveRecord, RSpec
- Frontend: HTML, CSS, JavaScript, jQuery, Bootstrap, AJAX
- Version Control: SVN ,Git (4 years)
- Database Management: MySQL ,MongoDB
- 6-8 Month experience in React js
- 6-10 month experience in AWS

## EDUCATION DETAILS

Master in Computer Application

Mahatma Jyotiba Phule Rohilkhand University,Bareilly (UP)

Year of Post Graduation- 2013-2016

## OTHER DETAILS

- I have 2 year experience in writing test cases in RSpec
- I have 3 years parallelly experience in CRM(Customer Relationship Management) where our many premium customer raises tickets and CRs and I have to do needful with my Team because I am working as a technical lead as well
- Designed, developed, and maintained web applications using Ruby on Rails.
- Implemented RESTful APIs for seamless communication between front-end and back-end systems.
- Worked with Active Record for database interactions, ensuring optimized queries and performance.
- Integrated third-party services and APIs to enhance application functionalities.
- Utilized tools like Git and tortoise SVN for version control and deploy
- Having Experience in templating framework like HAML/ERB
- 3 Year Experience in TDD/BDD
- 3 year Experience in sidekiq and redis as I have used these tools for background job ensuring smooth long running processes
- 5 year exeperience in Active Record as I have this tool for fetching data from database without wrting raw sql query
