# Praveenkumar M

## Automation Tester

+91 9047085104
PraveenkumarM214@gmail.com

## Experience

2.10 Years

## Education

B.E

## Core Competencies

- Postman API
- MySQL
- Java ,Python,Selenium
- Git, GitHub
- Functional Testing, Manual Testing
- Jira
- MS-Office, Microsoft Excel
- Test rail
- CI/CD

## Soft Skills

## Profile Summary

- Sound knowledge in SDLC & STLC & Defect Lifecycle.
- Good communication and presentation skills, proactive, quick learner & team player.
- Expertise in **Smoke, Sanity, Functional Testing, Black box, Regression and Database Testing.**
- Overall responsibility for the day-to-day operations of the project like Reporting, Tracking and Risk analysis.
- Having good exposure in **Scrum and Agile Methodology**
- **Expertise in different Testing types: Functional Testing, Regression Testing, Smoke Testing, Performance Testing, API Manual Testing, Web App Testing.**
- Develop and execute **testing scenarios, testing data, test plans** and scripts in Automation.
- Utilize agile software development procedures and practices, including daily stand-up meetings and test-driven development.
- Generate reports, status and analysis for upper management
- Performs estimation efforts on projects
- Deliver test plans and test cases
- Deliver automated scripts
- Work with development and QA teams to establish and reinforce automation development processes.
- Perform performance tests executions and creation of performance reports.
- Working closely with the QA Test Manager, BA and Development team
- Assumes responsibility to improve service, efficiency and quality of
- work

- Manage QA engagements setup in different SDLC methodologies including Agile, Test Driven Development
- Assumes responsibility as team member for special audit projects and provides advisory and consulting services to management
- Performed cross browser mobile testing across multiple iOS and Android devices.

## Technical Skills:

Automation Tools : Selenium WebDriver, VS Code, IntelliJDEA, Maven, Cucumber

Programming Language: MySQL, Core Java,Python
Frameworks Known : Cucumber BDD
Operating System : Windows XP, Windows 10, Linux
Defect Tracking Tool : QC, Jira
Test case Management Tool: Test rail

## Academic Details

- **Paavai Engineering College**
  **Year – (2016 -2020)**
  **Department -Mechatronics Engineering**
  **GPA: 8/10**

## HIGHLIGHTS:

- Good knowledge in creating custom xpath identifier for locating objects on webpages.
- Good knowledge in executing the test cases using TestNG
- Debugging & Running the Test cases and Analyzing the Test Results.
- Working experience in Waterfall and Agile methodologies.
- Involved in Smoke and Regression testing.
- Good experience in writing the Manual Test cases.
- Well versed with Test Documentation (Test Scenarios, Test Plan, Test Data, Test Cases and Defect Reports).
- Timely reporting of Status / Risks / Issues to client by direct interaction in Client Status Calls /Program Calls / Scrum calls and by status emails.
- Preparation of Daily Status Report (DSR), Weekly Status Report (WSR.

### Manual Testing / Functional Testing:

- Involved in various types of testing like Functional testing, Integration Testing, Regression Testing, Retesting.
- Strong experience in analyzing requirements (SRS) Identifying Test Scenarios, Design and Review test Case. Prepared Defect Analysis, Defect Report.
- Actively participated in Scrum meeting.
- Involved in Agile Methodology.
- Involved in the Designing and Execution of the test cases along with test Report.
- Participated in Review Test Case to validate customer requirement.
- Prepared Traceability Matrix to map business requirements and test case.

s

## WORK EXPERIENCE

### Botree software international pvt ltd
### Quality Analyst II 2024 – Present

- **Projects**: Tata Consumer Products, Dr Reddys Lab, Cipla Health.
- **Domain**: Sales
- Evaluated user problems and issues with software performance.
- Executed software compatibility tests and documented the results.
- In-depth knowledge of product release processes and quality assurance goals.
- Provided quality updates to project managers.
- Identified software defects.
- Implemented and updated bug tracking procedures.
- Provided feedback to developer's vendors and clients.
- Created and executed detailed test cases with step-by-step procedure and expected results and maintained test issues, defect tracking.
- Worked on automation test case scripts (selenium) in the FMCG Sector and maintained test execution results in test rail.

### Codoid Innovations Private Ltd
Software Tester Feb 2023-Feb 2024

- **Projects**: share care ,Solace, CareFirst
- **Domain** : Healthcare , sales , E-commerce
- Developed and Executed Automation Test cases using Python Selenium (Behave BDD Frameworks)
  - Executed software compatibility tests and documented the results.
  - In-depth knowledge of product release processes and quality assurance goals.
- Provided quality updates to project managers

## Certificates

- Got certificate in Manual Testing ,SQL, Java, Selenium in Qspiders
