Bhargavi Arumugam

E-mail: bhargaviarumugam02@gmail.com

Mobile Number: 8608347071

Career snapshot:

- Expertise in conducting and participating in different Types of Testing- Integration, System, Functional, Regression, Sanity, Smoke and User Acceptance Testing (UAT).
- Good Experience in working on projects in Agile Environment.
- Good Expertise in automating the Front End Testing using Selenium Web drivers, CORE JAVA and TestNG Framework
- Extensive experience in Functional, System and Regression testing of Web based applications

Professional Experience

Organization: **Zoho Corporation, Chennai** (NOV 2023- Current)
Designation: Quality Assurance

Organization: **Codoid Innovations Pvt Ltd, Chennai** (JUL 2021- NOV 2023)
Designation: Quality Analyst

Zoho Corporation, Chennai

Projects: Site24x7 & CloudSpend

- Involved in end-to-end QA for two major products:
- Site24x7 – A full-stack monitoring platform
- CloudSpend – A cloud cost management and optimization solution.

- Performed comprehensive manual testing including functional, regression, integration, and smoke testing across different modules.
- Developed and maintained automation scripts using QEngine, Zoho's proprietary automation framework.
- Collaborated closely with developers and product teams in Agile environments, validating new features and resolving critical issues.
- Conducted test case creation, execution, and defect reporting, ensuring product stability before release.
- Participated in daily stand-ups, sprint planning, and retrospective meetings, contributing to quality and process improvements.

Key Contributions:

- Created reusable and efficient QEngine scripts to automate regression test cases.
- Helped maintain high test coverage with minimal defect leakage into production.
- Played a key role in UAT and production validations to support stable releases.

Codoid Innovations Pvt Ltd, Chennai

Key Projects & Responsibilities:

1. IPACS & ICAP – Compliance and Call Monitoring Platforms

- Cloud-based SaaS platforms developed for compliance automation and 100% call monitoring, managed by Provana.
- Collaborated with cross-functional teams to deliver end-to-end testing across multiple web-based applications.
- Designed and executed manual test cases covering functional, regression, integration, UAT, and smoke testing.
- Developed and maintained automation test scripts using Selenium WebDriver, TestNG, and Page Object Model (POM) frameworks.
- Conducted regression test suite execution, providing detailed test execution and failure reports.

- Performed integration testing between ICAP and external systems to ensure reliable communication and data flow.
- Handled requirement analysis, test planning, and defect management using tools like Azure DevOps and Trello.
- Participated in Agile ceremonies including daily stand-ups, retrospectives, and client demo calls.
- Delivered high-quality releases with zero defect leakage and strong production testing support.

2. Journey Front – Hiring & Candidate Evaluation Platform

- A talent analytics platform designed to optimize hiring and identify high-performing employees.
- Executed test scripts and validated application behavior across multiple scenarios.
- Developed automation for bulk test data creation for UAT environments.
- Captured and reported bugs with detailed logs, and followed up through resolution.
- Attended monthly retrospective meetings and contributed to QA process improvements.

Key Achievements:

- Strengthened automation suite stability, improving execution time and reliability.
- Earned client appreciation for delivering consistent, defect-free production releases.
- Balanced both manual and automation QA responsibilities across complex, high-impact projects.

Certification:

Completed Testing Training in QSpiders institute, Chennai
