PROFESSIONAL SUMMARY

Dynamic Front-End and Cross-Platform Mobile Application Professional with over 13 years of experience, specializing in **Vue.js**, **Nuxt.js**, and **React.js** development. Proven track record of delivering scalable, high-quality applications and leading engineering teams to success through innovative solutions, collaborative execution, and agile methodologies.

Skilled in leveraging modern AI-assisted development workflows using **LLMs** and tools like **Cursor** to accelerate development, improve code quality, and enhance developer productivity. Passionate about building cutting-edge, user-centric products and driving technical excellence in forward-thinking organizations.

SKILLS

Frontend Development

- **Vue.js, Nuxt.js,** React Js, HTML5, CSS3, JavaScript, Angular, Svelte, Ionic, Web components, Tailwind CSS, SCSS

Testing and Debugging

- Jasmine, Karma, Mocha, SonarQube

DevOps & Cloud

- AWS, Jenkins, GIT

Soft Skills

- Leadership, Team Collaboration, Agile Methodologies, Client Communication, AI-Assisted Development (LLMs)

PROFESSIONAL EXPERIENCE

Staff Software Engineer - Frontend

Freshworks Inc *Jul 2018 - Present*

- Led a team of front-end developers to design and implement **scalable**, **high-performance** web applications with a strong emphasis on **Vue.js** and **Nuxt.js**, and React.js, ensuring maintainability and long-term scalability.
- Architected and optimised core application structures, resulting in a **30% improvement in page load times** and a significantly enhanced user experience.
- Partnered with product managers and designers to define scope, requirements, and deliverables — **accelerating project delivery by 20%** through efficient workflows and clear technical strategy.
- Integrated **LLM-powered workflows** using **Cursor** to **accelerate development**, reduce manual overhead, and improve developer velocity.
- Defined **custom LLM rules and prompts** for code generation, code reviews, and development workflows, enabling the team to **ship features faster** while maintaining quality standards.
- Troubleshot and resolved complex issues in front-end applications, improving platform **stability, performance, and reliability**.
- Conducted rigorous **code reviews**, enforcing best practices in Frontend development and integrating LLM-assisted review checks to maintain high code quality and consistency.
- Mentored and upskilled junior developers, guiding them on modern frameworks and AI-assisted development techniques.
- Acted as a **client-facing liaison**, managing communications, handling community/support tickets, and providing technical guidance to external app developers.

Lead Engineer

HCL Technologies *Mar 2015 - Jul 2018*

- Architected and created high-level and low-level designs for mobile and web applications.
- Conducted research and development, planned and estimated features, and provided technical mentoring.
- Developed hybrid mobile applications.

Technical Analyst R&D

URC Infotec Pvt Ltd *Mar 2013 - Mar 2015*

- Created high-level and low-level designs for web applications.
- Conducted research and development, planned and estimated features, and performed code reviews.
- Engaged in full stack development.

Software Engineer

CERPS Technologies Pvt Ltd. *Mar 2012 - Apr 2013*

- Started as a trainee and was promoted to software engineer.

KEY PROJECTS

Freddy Copilot for Developers

Apr 2023 - Present

Developed a Generative AI-powered tool integrated with Visual Studio Code, utilizing **Vue.js** for frontend development, enabling seamless code generation and 1-click actions.

Marketplace Gallery and Apps Website

Oct 2018 - Present

Architected and built a unified Freshworks Marketplace app gallery using Vue.js and Marketplace apps Website using **Nuxt.js** for enhanced SSR and SEO capabilities and optimizing for performance and user experience, leading to a 30% increase in user satisfaction.

Utilized **Vue.js, Nuxt.js**, Jenkins, AWS S3, and CDN.

Apps Website: **https://www.freshworks.com/apps**

Reference: **https://codeburst.io/one-codebase-two-experiences-5e4a42dcdb46**

Marketplace Developer website

Jul 2019 - Dec 2019

Developed a unified website for developers to access SDKs, APIs, and other resources, leveraging **React** and **Next.js** for enhanced SSR and SEO capabilities. Utilized Next.js, Jenkins, AWS S3, and CDN.

Installation Parameters for Marketplace Apps

Dec 2020 - Present

Defined parameters for app installation settings in Freshworks products.

Reference:
https://developers.freshworks.com/docs/app-sdk/v2.3/freshdesk/app-settings/installation-settings-page/
https://developers.freshworks.com/docs/app-sdk/v2.3/freshdesk/app-settings/custom-app-settings/

App Management Portal 2.0

Oct 2020 - Present

Revamped the developer portal using **Vue.js**, improving the app submission experience for developer partners by 25%.

AWARDS & RECOGNITIONS

Maker - Freshlabs

Freshworks Inc *2020-07-07*

Created a high-impact app for managing Freshdesk support tickets using **Vue.js** in a visual and compact view.

Community Champion - The Frontline 2021 - 2022

Freshworks Inc *2021-04-30*

Recognized for going the extra mile to help app developers on the Freshworks platform.
