Drive organizational success through a strong foundation in database administration and infrastructure management, focusing on innovative solutions and effective problem-solving strategies.

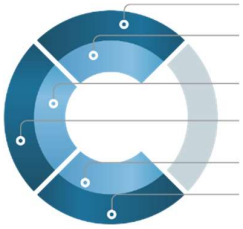
PROFILE SUMMARY

- IT Professional with **18 years of experience**, including **13 years specializing in Database Administration**, managing and optimizing enterprise-grade databases across **Oracle, PostgreSQL, MySQL, SQL Server, MongoDB, and Redis**. Skilled in ensuring **high availability, scalability, and performance** across on-premises and cloud environments
- **Proven track record in database migration and modernization**, including successful transitions from Oracle to PostgreSQL, leveraging advanced tools and strategies to reduce operational costs and improve efficiency.
- **Cloud-savvy DBA and infrastructure strategist**, experienced in deploying and managing **AWS RDS, OCI, and cloud-native database solutions**, with strong knowledge of **containerization (Docker, Kubernetes)** and automated monitoring frameworks.
- **Leadership and team enablement expert**, skilled in mentoring junior DBAs, establishing **SOPs, backup & recovery strategies, and database governance**, resulting in measurable improvements in team efficiency and incident resolution times.
- **Analytical problem solver with a business-centric approach**, competent at **performance tuning, disaster recovery planning, and database security**, consistently enhancing system reliability and supporting critical enterprise applications with minimal downtime.
- Expertise in **automating** routine DBA task like log management, backups, schema migration, indexing and monitoring.

TECHNICAL SKILLS

- **RDBMS:** Oracle (9i - 19c), PostgreSQL, MySQL, MSSQL
- **NoSQL Databases:** MongoDB, Redis
- **Cloud Technologies:** Flexible Engine, AWS (RDS, EC2, S3, DMS), GCP, OCI
- **Virtualization:** VirtualBox, VMWare
- **Containerization:** Docker, Kubernetes
- **Operating Systems:** Linux (Red Hat 7/8, CentOS, HPUX), Solaris (10/9/8), Ubuntu (12/13), Windows (NT/2000/2003/2012/2016/2019/2022)
- **Tools & Utilities:** Toad, Oracle Grid Control, Oracle Enterprise Manager (OEM), SQL Optimizer, MySQL Workbench, PgAdmin, ServiceNow, RMAN, AWS SCT, AWS DMS, AWS S3
- **PostgreSQL Tools & Extensions:** PgAdmin, POWA, PgBadger, RepManager, PgBouncer, PgBaseBackup, Barman, pg_upgrade, pg_dump, pg_dumpall, pg_restore, pg_archivecleanup, pg_config, pgbench, pg_cron, Foreign Data Wrapper, Percona monitoring & management
- **DevOps, Automation and Scripting:** Shell Scripting, Ansible, Jenkins, GitHub
- **Ticket management:** ServiceNow, JIRA

SOFT SKILLS



Problem – solving
Analytical Thinking
Leadership
Team Management
Cross-functional Collaboration
Communication
Creative Thinking

CORE COMPETENCIES

- Database Performance Tuning
- High Availability Solutions
- Disaster Recovery Planning
- Cloud Infrastructure Management
- Data Security and Compliance
- Capacity Planning and Management
- Query Optimization Techniques
- Database Architecture Design
- System Integration Strategies
- Technical Documentation and SOPs
- Automation and Scripting

EDUCATION

B.E. (Information Technology)
Hindustan College of Science and Technology, Mathura (U.P)
Year of Passing: 2003
Percentage: 74.21%

AWARDS

- Excellence in Database Management at Tata Consultancy Services.
- Employee Change Maker award at ORANGE BUSINESS SERVICES.
- Star Performer Award for contributions to database management.
- Team Player Award for collaboration and support.
- Rising Star Award for dedication and commitment.

WORK EXPERIENCE

Associate Consultant at Tata Consultancy Services
July 2023 - Present
Key Result Areas:

- Lead **database architecture, deployment standards, and operational support** across PostgreSQL, Oracle, MySQL, SQL Server, MongoDB, and Redis.
- Collaborate with cross-functional teams and act as a **subject matter expert (SME)** for database technologies and cloud adoption.
- Act as a **trusted advisor** to IT leadership, providing guidance on database strategy, cloud migration, scalability, and best practices.
- Plan, coordinate, and execute **end-to-end migration projects** (Oracle→PostgreSQL, on-prem→cloud, AWS RDS migrations).
- Manage **cloud and on-premises databases**, ensuring high availability, scalability, security, and DR readiness.
- Design and implement **HA/DR solutions** (Dataguard, SQL Server HA, MySQL replication, PostgreSQL streaming/logical replication, clustering).
- Conduct **performance tuning and optimization** to improve efficiency and reduce bottlenecks.
- Develop automation scripts/tools using Shell to streamline patching, health checks, provisioning, and monitoring.
- Integrate DBA operations with DevOps pipelines (GitHub, Jenkins, Ansible, Terraform) to drive automation and continuous delivery.
- Implement proactive monitoring and alerting with Oracle OEM and Percona Monitoring & Management (PMM).
- Ensure compliance with ITIL processes (Incident, Change, Problem Management) and support Agile/Scrum delivery using JIRA, ServiceNow, and Confluence.
- Maintain comprehensive documentation of database structures, standards, and processes for governance and audits.

Lead DBA at Orange Business Services
April 2016 - July 2023

Key Result Areas:

- Supervised and mentored a team of **DBAs**, providing **technical guidance and L3-level support.**
- **Assisted Project Managers** in defining and implementing best practice processes for database management.
- Architected and optimized databases for new services and updated existing ones to meet evolving business needs.
- Oversaw cloud and on-premises environments, ensuring high availability, scalability, and security of production systems.
- Monitored and optimized database costs through proactive cleanup and resource management.
- Developed **POCs and prototypes**, proposing effective database solutions aligned with organizational goals.

Sr. DBA at Orange Business Services
November 2014 - April 2016

Key Result Areas:

- Led **migration and upgrade projects**, including Oracle → PostgreSQL using Ora2PG (on-premises to cloud).
- Installed, configured, and administered **Oracle, PostgreSQL, MySQL, MongoDB, and Redis databases** across production and non-production environments.
- Managed **replication, backups, restores, refreshes, and monitoring** for clustered and standalone systems.
- Conducted **performance tuning, query optimization, and maintenance** (vacuum strategies, health checks) to improve stability and minimize downtime.
- Planned **storage and capacity management** to ensure scalability and availability.
- Maintained **user accounts, roles, privileges, and security policies** to safeguard data integrity.
- Authored **SOPs, KB articles, and troubleshooting documentation**, and provided **24x7 production support** via on-call rotations.
- Collaborated with development teams to resolve production issues and streamline platforms.

PREVIOUS EXPERIENCE

DBA at Orange Business Services
September 2012 - November 2014

App Admin at Orange Business Services
September 2007 - August 2012

CERTIFICATIONS

- Oracle Certified Professional (OCP) - Certification from ORACLE University in Oracle 9i.
- Certification in ORACLE 9i Database Administration as part of Oracle's Workforce Development Program at SQL STAR International Ltd., New Delhi.
- Oracle Cloud Infrastructure Foundations 2020 Certified Associate.
- Oracle Autonomous Database Cloud 2019 Certified Specialist.
- Completed Oracle Cloud Infrastructure Foundations Certification.
- Completed Oracle Cloud Infrastructure Architect Certification.
- ITIL Foundation Certification - IT Service Management (Certification ID - GR750017167HC).
- M001: MongoDB Basics from MongoDB University.
- M103: Basic Cluster Administration from MongoDB University.
- M201: MongoDB Performance from MongoDB University.
- M312: Diagnostics and debugging from MongoDB University.
- MySQL 8 Administration from Udemy.

PERSONAL DETAILS

Date of Birth: 26th August 1981
Languages Known: English and Hindi
Address: Noida (UP) 201304
