Summary

QA Test Engineer with 2.4 years of experience in **Manual Testing, Functional Testing, Regression Testing, System Integration Testing (SIT), User Acceptance Testing (UAT), and API Testing** across **Insurance, CRM, and E-Invoicing domains**. Skilled in **Test Case Design, Test Scenario Preparation, Requirement Traceability Matrix (RTM), Test Execution, Defect Tracking, and Defect Lifecycle Management**. Proficient in **SQL, API Testing using Postman**, and familiar with **Selenium WebDriver and Core Java** for automation basics. Experienced in **cross-browser testing, mobile web testing, and end-to-end system integration validation** for **20+ enterprise applications**, achieving a **25% reduction in defect leakage** and ensuring **99% release quality**. Hands-on expertise with **JIRA, TestRail, and Confluence**, with strong knowledge of **SDLC, STLC, Agile/Scrum, QA methodologies, and software testing best practices**.

Skills

Testing Skills:
Manual Testing · Functional Testing · Regression Testing · Smoke Testing · Sanity Testing · System Integration Testing · User Acceptance Testing · End-to-End Testing · Test Case Design · Test Scenario Design · Requirement Traceability Matrix · Defect Lifecycle Management · Root Cause Analysis

API & Database Testing: API Testing · REST · JSON · Postman · SQL · SQL Server · Oracle · Data Validation · Data Migration Testing

Defect & Test Management Tools:
JIRA · Mantis · Agile · Scrum · Sprint Planning · Backlog Grooming · Daily Stand-ups · Retrospectives · User Story Validation

Cross-Platform Testing: Cross-Browser Testing · Chrome · Firefox · Edge · Mobile Web Testing · Android · iOS · Salesforce CRM Testing

Domain Knowledge: Insurance Domain · CRM Domain · E-Invoicing Domain

Automation & Tools: Selenium WebDriver · Core Java · Cucumber · Git · Maven · QA Metrics · Test Reports · Documentation

Experience

KGISL Technologies Pvt Ltd — Coimbatore

QA Test Engineer — 12/2022 - 04/2025

- Designed and executed more than 500 test cases covering functional, regression, smoke, sanity, and UI testing, **improving defect detection** by 20%.
- Designed and executed 500+ test cases covering functional, regression, smoke, sanity, and UI testing, improving defect detection by 20%.
- Conducted API testing using Postman, validating 100+ REST APIs for policy issuance, renewal, and cancellation workflows.
- Performed database testing using SQL queries on SQL Server and Oracle to verify premium calculations, customer data, and policy records, achieving 99% data accuracy.
- Executed cross-browser testing across Chrome, Firefox, and Edge, and mobile web testing on Android and iOS, ensuring 99% platform compatibility.
- Collaborated in Agile/Scrum ceremonies including sprint planning, backlog grooming, daily stand-ups, and retrospectives to align QA deliverables with sprint objectives.
- Logged, tracked, and managed defects using JIRA, ensuring end-to-end defect lifecycle management and faster issue resolution.

Projects

Chola MS Motor Insurance

System migration project for **TCS Bancs -Chola MS Insurance** (India)

- Conducted functional testing, regression testing, smoke testing, sanity testing, integration testing, and end-to-end testing on critical insurance workflows.
- Performed **Salesforce CRM testing** for customer onboarding, policy issuance, and claims management processes.
- Executed cross-browser testing across Chrome, Firefox, and Edge, and mobile web testing on Android and iOS to ensure platform consistency and responsiveness.
- Validated back-end data through database testing using SQL queries for policy issuance, renewals, and claims.
- Conducted API testing using Postman for **third-party integrations, including payment gateways and notification services.**
- Supported User Acceptance Testing (UAT) sessions, logged and tracked defects using Mantis Bug Tracker, and **collaborated with offshore QA teams** for timely issue resolution.

Projects

AmG Motor Insurance

Am General Insurance, **Malaysia's** leading **motor insurance provider**.

- Designed and executed over 300 test cases, including positive, negative, and edge cases, for functional, regression, smoke, sanity, and UI testing, reducing production defects by 15%.
- Performed API testing using Postman for policy issuance, renewal, and cancellation workflows, validating over 50 **REST APIs**.
- Conducted database testing using SQL to ensure 100% accuracy in premium calculations and policy records.
- Executed **cross-browser testing** across Chrome, Firefox, and Edge, and mobile web testing on Android and iOS, ensuring seamless customer experience across more than five platforms.
- Collaborated with **developers and business analysts** in agile ceremonies including sprint planning, backlog grooming, daily stand-ups, and retrospectives to align QA deliverables with sprint goals.

IRIS E-Invoicing Solution

Enterprise-grade **invoicing solution** for regulatory compliance in **Malaysia (B2B, B2C, B2G)**

- Created and executed over 500 manual test cases for invoice creation, PDF generation, QR code validation, UUID checks, and **digital signature compliance.**
- Created and executed more than 500 manual test cases for invoice creation, PDF generation, **QR code validation**, UUID checks, and digital signature compliance.
- Performed end-to-end integration testing with over 20 billing systems, ensuring 100% IRBM compliance.
- Conducted API testing using Postman for request/response validation, workflow automation, and error handling.
- Validated **data migration testing** for legacy-to-new system transition, achieving zero data loss during migration.
- Executed mobile web testing across more than 10 devices and browsers, ensuring accessibility, responsiveness, and cross-platform compatibility.

Education

Bannari Amman Institute of Technology — Erode, India

Bachelor of Computer Science Engineering — 08/2018 - 06/2022
